## **Officer Deck Herbert Kriloff:**

**Officer of the Deck** Herbert Kriloff, 2000 Retired Navy commander recounts his coming of age as the youngest officer assigned to the USS William B Preston patrolling Japanese waters and learning real world lessons **Awkward Truth** Peter Grose, 2010 Darwin was a battle Australia would rather forget yet the Japanese attack on 16 February 1942 was the first foreign assault on Australian soil since 1788 The raid was bigger than the first wave that attacked Pearl Harbor Hundreds of Australians were killed The police station and police barracks were totally destroyed the hospital wrecked the administration building shattered And the people of Darwin abandoned their town leaving it to looters and a few dogged defenders with single shot 303 rifles and a few anti aircraft batteries Peter Grose tells the real story of the attack and takes us into the lives of the people who were there *Pacific Crucible: War at Sea in the Pacific, 1941-1942 (Vol. 1) (The Pacific War Trilogy)* Ian W. Toll, 2011-11-14 Winner of the Northern California Book Award for Nonfiction Both a serious work of history and a marvelously readable dramatic narrative San Francisco Chronicle On the first Sunday in December 1941 an armada of Japanese warplanes appeared suddenly over Pearl Harbor Hawaii and devastated the U S Pacific Fleet Six months later in a sea fight north of the tiny atoll of Midway four Japanese aircraft carriers were sent into the abyss a blow that destroyed the offensive power of their fleet Pacific Crucible through a dramatic narrative relying predominantly on primary sources and eyewitness accounts of heroism and sacrifice from both navies tells the epic tale of these first searing months of the Pacific war when the U S Navy shook off the worst defeat in American military history to seize the strategic initiative *The Sinking of HMAS Sydney* Doctor Tom Lewis, 2024-01-03 HMAS Sydney was the pride of the fleet during the Second World War A light cruiser and one of Australia s main combat vessels On the 19th November 1941 off the coast of Western Australia The Sydney engaged in a fierce and bloody battle with the German raider Kormoran Following this action The Sydney failed to return to port An extensive search and rescue carried out but the warship had disappeared with all 645 men on board Whilst the battle lasted little more than an hour this single ship engagement remains Australia s greatest naval disaster More Australian servicemen died in the battle between the German raider Kormoran and the light cruiser HMAS Sydney than perished in the Vietnam War It was not until 2008 that the wreck was discovered The passage of time between the sinking and the discovery led to numerous mystery and conspiracy theories all of which started replacing the truth Now with an explanation of how those on board lived fought and died this book tells the full story **The Forge** Eric Hammel, 2020-12-23 The Forge The Decline and Rebirth of the American Military November 12 1918 to December 6 1941 Eric Hammel Because the United States military undertook its first World War II offensive operations in the Pacific within only eight months of Pearl Harbor most historians and readers of the war s history depict and perceive the quick transition in 1942 from defensive war to offensive war as a miracle In the miraculous narrative Americans have written for themselves the peace loving and ill prepared sleeping giant the United States is suddenly struck by enemies who use her peace loving ways against her while a

mere sprinkling of gallant dedicated soldiers sailors and airmen fight overwhelming odds to barely hold the line against an unrelenting backdrop of tearful defeats Meanwhile U S industry suddenly instantly becomes a magical Arsenal of Democracy that produces uncountable tanks and ships and guns not to mention trained soldiers sailors and airmen in their legions fleets and air armadas that will smash the wildest and most powerful enemies ever before confronted The appearance of all that materiel and all those battle ready young men so soon after the Pearl Harbor attack looks exactly like a miracle There was no miracle Celebrated military historian Eric Hammel's cool appraisal of the facts reveals that America's stunning and overwhelming moral response to German and Japanese aggression in the mid and late 1930s a response that eventually brought a huge portion of the globe within its embrace was far less a miracle than an inexorable force of nature America was a sleeping giant But the decision to turn the entire force and will of a hard working innovative nation to arming for war was not made in the wake of Pearl Harbor By Pearl Harbor an alliance of the American government American industry and the American military community was already close to complete preparedness The real story of America's preparations for World War II had begun in mid November 1938 The Forge was previously published as How America Saved the World ERIC HAMMEL is a critically acclaimed military historian and author of nearly forty narrative and pictorial histories including Chosin Heroic Ordeal of the Korean War Fire in the Streets The Battle for Hue and Six Days in June He has also written many titles on U S military operations in World War II such as Guadalcanal Starvation Island Guadalcanal Decision at Sea 76 Hours The Invasion of Tarawa and The Road to Big Week Reviewed by Book News Hammel a noted military historian and author analyzes the military build up in the United States just prior to World War II and notes how this strategy was deliberate orderly and integrated Written for history buffs and general readers this volume characterizes the U S as a sleeping giant after the end of World War I as a new shift toward an expanded military industrial complex was implemented creating an Arsenal of Democracy that would ultimately decide the outcome of World War II Appendices include a list of the armies corps regiments and divisions in the Army and Navy as well as a list of major naval and aircraft hardware Reviewed by Bookviews The Forge by Eric Hammel tells how preparation for war was the reason that following the Japanese attack on Pearl Harbor in 1941 the nation was able to transition quickly to an offensive war This excellent book tells why America was able to transform itself into what FDR called the arsenal of democracy fielding armies in both the Asian and European theatres while providing them with countless tanks and ships and guns America may have been a sleeping giant when it came to the political events unfolding but the decision to turn the entire force of American industry toward the task of winning World War II had been made long before the initial attack on the homeland It had in fact begun in 1938 as the war clouds threatened Those who criticize America's current superpower status would do well to read this book and then wonder if preparing for war isn't the best way to maintain the peace Reviewed by Tom Ricks on his blog The Best Defense Readers of this blog will know that I am a fan of military historian Eric Hammel I've been reading his new book The Forge about the quiet fight at the

end of the 1930s to prepare the U S military for World War II This is not only an important story but also a good read with a strong grasp of significance By the end of November 1941 the British army in North Africa on its only active front against European fascism was utterly stalemated in a battle of attrition it was bound to eventually lose The subsequent counterattack at el Alamein was undertaken he notes with the aid of weapons and equipment made in America not to mention American manned combat aircraft Reviewed by BookLoons Perhaps not everyone will agree with the opinions set forth in *The Forge* but Eric Hammel provides some strong arguments that the country was far better prepared for the Second World War than most people believe Those interested in U S history especially military matters will find this a captivating read and one that may alter a few misconceptions about U S preparedness between the world wars      **How America Saved the World** Eric Hammel,2009      **Pacific Crucible** Ian W. Toll,2012 Draws on eyewitness accounts and primary sources to describe the first months of World War II in the Pacific after the U S Navy suffered the worst defeat in its history at Pearl Harbor      **A Shot of History: Attack on Sydney Harbour** Doctor Tom Lewis,2022-07-08 On the night of 31 May 1942 Sydney Harbour was attacked by midget submarines of the Imperial Japanese Navy An accommodation vessel of the Royal Australian Navy was torpedoed and 21 sailors died The midget submarines were hunted down and two sunk War had already come to northern Australia and now the southern cities were made bitterly aware that the world wide conflict had reached them The midget submarine attack was only the beginning gun strikes were made against land targets and more enemy submarines came south attacking freighters up and down the continent s eastern coast This new accounting of the night Sydney Harbour was attacked reveals new details of the fight that ensued and sets some of the previous historical accounts right The text is supported by numerous photos as well as extensive plans of the midget submarines and details of the curious stories following the war including the discovery of the third midget submarine sunk off the New South Wales coast      *American Book Publishing Record* ,2000      *Aircraft Carriers* Norman Polmar,2006-09-01 *Aircraft Carriers* is the definitive history of world aircraft carrier development and operations Norman Polmar s revised and updated two volume classic describes the political and technological factors that influenced aircraft carrier design and construction meticulously records their operations and explains their impact on modern warfare Volume I provides a comprehensive analysis of carrier developments and warfare in the first half of the twentieth century and examines the advances that allowed the carrier to replace the battleship as the dominant naval weapons system Polmar gives particular emphasis to carrier operations from World War I through the Japanese strikes against China in the 1930s to World War II in the Atlantic Mediterranean Arctic and Pacific theaters It begins with French inventor Cl ment Ader s remarkably prescient 1909 description of an aircraft carrier The book then explains how Britain led the world in the development of aircraft carrying ships soon to be followed by the United States and Japan While ship based aircraft operations in World War I had limited impact they foreshadowed the aircraft carriers built in the 1920s and 1930s The volume also describes the aircraft operating from those ships as well as the commanders

who pioneered carrier aviation Aircraft Carriers has benefited from the technical collaboration of senior carrier experts Captain Eric M Brown and General Minoru Genda as well as noted historians Robert M Langdon and Peter B Mersky Aircraft Carriers is heavily illustrated with more than 400 photographs some never before published and maps Volume II which is forthcoming from Potomac Books in the winter 2006 2007 ISBN 978 1 57488 665 8 will cover the period 1946 to the present

Asia Pacific Shipping ,2004      **Australian Coastal Wars** Doctor Tom Lewis,2025-09-30 For the first time acclaimed military historian Dr Tom Lewis OAM uncovers the full scale of World War II s forgotten battles along our coastline From German surface raiders laying deadly mines to Japanese submarines prowling offshore and enemy aircraft launching hundreds of attacks the war on the coast stretched across thousands of kilometres from Darwin to Hobart from Townsville to Melbourne This landmark book rewrites history revealing a long and brutal struggle between German and Japanese forces and those of Australia Britain and the United States Scores of ships were sunk thousands of lives lost yet much of this story remains unknown Among the tragedies are gripping accounts of heroism and heartbreak the sinking of the cruiser Sydney with 645 lives lost in a duel with the raider Kormoran a deadly mine explosion on a quiet South Australian beach and the haunting fate of a priest abducted and executed by an enemy floatplane crew There are also tales of misjudgement and misadventure like the flawed decisions during the Sydney midget submarine raids partly redeemed by the courage of small ship commanders whose bravery remains unrecognised Other stories are only now coming to light including the daring attack by two RAAF bombers on a Japanese submarine still lost off the coast of New South Wales Australian Coastal Wars reveals it all a sweeping and deeply human account of a war far closer to home than most Australians ever realised      **A Public Life** Zelman Cowen,Sir Zelman Cowen,2006 An outstanding scholar and constitutional lawyer Sir Zelman Cowen was professor and Dean of Melbourne University s law school by the age of 31 He revolutionised legal education in Australia and became one of the nation s best known public intellectuals addressing issues such as capital punishment and republicanism Keenly aware of social and technological change he has stimulated debate on many issues and has always been a vigorous voice for reason and humane values These are his absorbing memoirs They are a personal recollection of an outstanding career as well as a reflection of twentieth century history both Australian and international mdash as seen through the eyes of a man at the forefront of Australian public life for more than fifty years As a vice chancellor Sir Zelman weathered times of turbulent student dissent in the university system during the 1970s He was appointed Governor General of Australia in 1977 and in this role brought a touch of healing to a nation bitterly divided over the actions of his predecessor Sir John Kerr Sir Zelman went on to serve as head of his old Oxford college Oriel and as chair of the British Press Council      **Book Review Index** ,2001 Every 3rd issue is a quarterly cumulation      **Books Out Loud** ,2007      **Forthcoming Books** Rose Army,2000-06      **Books in Print Supplement** ,2002      The Engineer ,1898      *Nature* Sir Norman Lockyer,1896
