Mentoring in Action, 2006

Coaching And Mentoring At Work: Developing Effective Practice Connor, Mary, Pokora, Julia, 2012-01-01 The book explains how to get the most out of coaching and mentoring

Mentorship, Leadership, and Research Michael Snowden, Jamie P. Halsall, 2018-08-27 This insightful volume details the implementation and challenges of the Teaching Excellence Framework TEF developed in the UK to ensure equal access to higher education for all social classes It posits that a modern higher education institution requires a robust set of mechanisms specifically mentorship leadership and research to create high quality teaching and learning Noted contributors pose and answer key questions about the TEF in such areas as solution focused teaching mentoring for the job market and social science curriculum development using best practice examples in the field These ideas and strategies carry great potential to improve the caliber of teaching and learning in universities and with it students social mobility Among the topics covered Why have mentoring in universities Reflections and justifications Working with students as partners developing peer mentoring to enhance the undergraduate student experience The employers reach mentoring undergraduate students to enhance employability Learn it and pass it on strategies for educational succession Mentoring mentees to mentor Interdisciplinarity in higher education the challenges of adaptability Mentorship Leadership and Research will play a pivotal role in UK higher education since currently there is scant academic literature on practical tools to help universities to succeed at the TEF A resource with international implications it should interest sociologists of education and professionals in business strategy and leadership social work and community development Michael Snowden is a Senior Lecturer in Mentoring Studies at the University of Huddersfield UK Jamie P Halsall is a Reader in Social Sciences at the University of Huddersfield UK Given the recent introduction of the Teaching Excellence Framework TEF in the United

Kingdom this timely book outlines effective practices to help earn the Gold standard While considering TEF within the current climate of academic competition and critical evaluation a diverse group of experts lay out why mentoring is one highly effective answer to the TEF standards and without compromising productivity in other service and research agendas This book is a must read for academics and higher learning administrators alike Leda Nath Professor of Sociology University of Wisconsin

The Interviewer's Handbook Sandra Bunting, 2007 The Interviewer's Handbook advises on interview techniques for a variety of workplace situations including recruitment interviews performance appraisals attendance and absence management discipline and grievance management and accident investigation This book offers essential advice on the use of effective questioning techniques and how to get the most out of an interviewee It provides in depth guidance on the role that body language plays and examines the significance of listening techniques The Interviewer's Handbook also shows how to encourage dialogue and avoid conflict in sensitive situations Case studies and scenarios are provided throughout to illustrate these vital techniques and how they get the best out of the interviewee and interviewer

Mentoring Matters Rick Lewis, 2012-09-12 Mentoring Matters explains a reproducible model for maximizing the potential of leaders and helping them go the distance It gets behind the issues of leadership skills to address the leader as a person their spirituality emotional health key relationships vulnerabilities and rhythms of life This approach to mentoring is highly flexible so that it can be tailor made for each mentoring partnership not relying on a strict format or curriculum The mentor functions as a doctor of the soul pulling us back to our most noble intentions and perceptive insights The approach is formal and organised and highly effective

The SAGE Handbook of Mentoring David A. Clutterbuck, Frances K. Kochan, Laura Lunsford, Nora Dominguez, Julie Haddock-Millar, 2017-02-09 The SAGE Handbook of Mentoring provides a scholarly comprehensive and critical overview of mentoring theory research and practice across the world Internationally renowned authors map out the key historical and contemporary research before considering modern case study examples and future directions for the field The chapters are organised into four areas The Landscape of Mentoring The Practice of Mentoring The Context of Mentoring Case Studies of Mentoring Around the Globe This Handbook is a resource for mentoring academics students and practitioners across a range of disciplines including business and management education health psychology counselling and social work

Coaching for Women Entrepreneurs Carianne M. Hunt, Sandra L. Fielden, 2016-04-29 With update to date reviews of the current research and literature on women's entrepreneurship this is the first book of its kind to address entrepreneurial coaching for women as a development tool The authors provide a theoretical conceptual and applied perspective to explore the distinctive challenges facing this group before discussing the implementations and outcomes of coaching programmes in an entrepreneurial setting They conclude with strategies for future research and progress Students and scholars of business management entrepreneurship and gender studies will find the unique perspectives to be of interest This book will also be useful as a tool for small business service providers women

entrepreneurs policy makers and government officials

Everyone Needs A Mentor David Clutterbuck, 2014-01-27

Mentoring is the most cost efficient and sustainable method of fostering and developing talent within your organization. It can be used to stretch talented individuals, power diversity programmes and ensure that knowledge and experience is successfully handed down. As such, the benefits of a mentoring programme are numerous: the mentee receives a helping hand to identify and achieve goals and the mentor gets the satisfaction of helping others to develop. Organizations offering mentorship gain from improved employee performance and talent retention. *Everyone Needs a Mentor* explains what mentoring is, what various models there are and how these differ from coaching. It shows you how to make a business case for mentoring and then how to set up, run and maintain your own programme. This fully revised 5th edition of *Everyone Needs a Mentor* has been revised and updated to include a wealth of international case studies alongside developments in the field such as multinational mentoring, maternity mentoring and the impact of social media on mentoring. **Using People Skills**

in Training and Development Leslie Rae, 1998. This is a vital guide to developing and honing people skills in training and staff development. With detailed guidance on analysing human behaviour, the book also includes techniques for interviewing, team operation, coaching and mentoring. **The Routledge Doctoral Student's Companion** Pat Thomson, Melanie Walker, 2010-04-07. This book addresses a set of interlocking and overlapping big questions that sit behind the plethora of doctoral advice texts and run through the practice of knowledge identity work.

Academic Support Services and Strategies in Higher Education Velliari, Donna M., 2025-03-07. Higher education often involves academic challenges like course selection or financial aid navigation. Developing effective study skills, mastering time management, refining note-taking techniques and tackling complex course content demands dedication and proactivity. However, support services such as academic skills workshops and writing centers offer valuable assistance. In the absence of proper guidance, student decisions may hinder academic progress or financial stability. Uninformed course choices can misalign with career goals and poor financial planning may lead to unnecessary debt. Tailored advice, counseling and the utilization of free services like academic skills workshops become essential for empowering students to make informed choices and navigate higher education successfully. *Academic Support Services and Strategies in Higher Education* provides valuable insights into the aspects of successful higher education navigation for students, educators and those involved in shaping the higher education landscape. It examines the quality organization and administration of academic advisement and academic support systems. This book covers topics such as academic welfare, inclusive education and teacher training and is a useful resource for academicians, business owners, educators, economists, scientists and researchers. **The Value of Executive Coaching** Angela Mulvie, 2015-04-24. The explosive growth of coaching over the past decade has been accompanied by comparable growth in coach training as well as in membership of professional bodies representing the industry. Yet philosophical and intellectual debates over executive coaching and its measurable value and outcomes appear limited in much of the existing literature.

Many practitioners appear uncomfortable with the hard measurement of real return on investment preferring softer more qualitative approaches to evaluation To challenge the self perpetuating myth of value which has grown up around executive coaching The Value of Executive Coaching critically explores the discourses surrounding this aspect of leadership development and considers different ways of thinking about its growth development and application outside its established functionalist perspective Using case study evidence this exciting new text enhances our understanding of how and why the value proposition of executive coaching is perceived and perpetuated and provides readers with the opportunity to explore some of the issues which influence perceptions of value This book will be valuable reading for practising coaches and students on postgraduate coaching courses

Understanding Work-Based Learning John Mumford, 2016-02-24 This important book is for anyone who wants to make the most of work based learning employees employers educationalists policy makers and researchers It sheds light on ways of giving full time employees the chance to take up learning opportunities which are of the same level and rigour as those on offer to the full time student It approaches the subject from the perspective of the learner drawing on case studies to provide detailed insight It suggests that universities already have in place much of the machinery needed to support learners who are in work they just don't make enough use of it Look closely and you will find a substantial legacy of this kind of activity by universities This is a book about seizing opportunities In one volume Understanding Work Based Learning makes a valuable contribution to current employer engagement and learner demand debates and provides first hand learner experiences to guide existing and potential work based learners employers educationalists policy makers and researchers

Mentoring for Social Inclusion Helen Colley, 2003 This book offers a radically new theoretical analysis of mentoring based on award winning research The author draws upon detailed case studies providing a unique and vivid account of mentoring from the perspective of the participants

Developing Leaders by Executive Coaching Andromache Athanasopoulou, Sue Dopson, 2015 This book offers an overview of the executive coaching field what the coaching practice involves and who are its key stakeholders It assesses the empirical research on executive coaching outcomes and links the executive coaching field with the fields of leadership and leadership development

Organisational Learning Roderick Smith, 2016-04-28 Organizational Learning An Integrated HR and Knowledge Management Perspective draws on a broad and multi disciplinary base to look at the origins and practice of organizational learning It critically considers the nature of organizational knowledge as a social construct pedagogical issues around learning as individuals groups teams and whole organisations and technological issues around the development of knowledge based information systems Supporting case studies are provided throughout the book and readers will also benefit from a companion website which expands on the key themes of the text Organizational Learning will enable readers to develop and implement strategies for ensuring long term access to the embedded knowledge and experience of an organization This textbook will be invaluable reading for undergraduate and postgraduate students on organizational learning HRM and

knowledge management courses The Wiley-Blackwell Handbook of the Psychology of Coaching and Mentoring Jonathan Passmore, David Peterson, Teresa Freire, 2016-08-08 A state of the art reference drawing on key contemporary research to provide an in depth international and competencies based approach to the psychology of coaching and mentoring Puts cutting edge evidence at the fingertips of organizational psychology practitioners who need it most but who do not always have the time or resources to keep up with scholarly research Thematic chapters cover theoretical models efficacy ethics training the influence of emerging fields such as neuroscience and mindfulness virtual coaching and mentoring and more Contributors include Anthony Grant David Clutterbuck Susan David Robert Garvey Stephen Palmer Reinhard Stelter Robert Lee David Lane Tatiana Bachkirova and Carol Kauffman With a Foreword by Sir John Whitmore
