philosophy of this manual was to teach you how to pass the exam as opposed to reviewing the textbook. The context contains a review of each primary theory to Marriage Family Therapy as organized by the knowledge domains stated by the Association for Marital Family Therapy Regulatory Board. To further grasp how these theories are applied to families keeping in line with the application based nature of the licensing exam, the author has provided a glossary containing narratives of each approach applied to the same family vignette. To further differentiate this manual from the other available options, Part I contains an overview of the exam test taking strategies and study techniques to ensure that your preparations are effective and efficient. It will also move beyond theory and into the other knowledge domains covered on the exam as well as provide a thorough glossary of all key terms and primary interventions labeled by the theory in which they belong. Finally, the manual includes a Practice Exam with correct answers stated along with a rationale as to why each answer was correct or incorrect. Contents include: Part I About the Exam Test Taking Strategies Study Techniques; Part II The History of the Field of Marriage Family Therapy; Part III The Theory Practice of Marriage Family Therapy; Part IV Clinical Considerations Concepts; Part V The Practice Exam.
