Monstrous Adaptations Generic Thematic Mutations:

Monstrous adaptations Richard Hand, Jay McRoy, 2017-06-01 The fifteen groundbreaking essays contained in this book address the concept of adaptation in relation to horror cinema. Adaptation is not only a key cultural practice and strategy for filmmakers but it is also a theme of major importance within horror cinema as a whole. The history of the genre is full of adaptations that have drawn from fiction or folklore or that have assumed the shape of remakes of pre-existing films. The horror genre itself also abounds with its own myriad transformations and transmutations. The essays within this volume engage with an impressive range of horror texts from the earliest silent horror films by Thomas Edison and Jean Epstein through to important contemporary phenomena such as the western appropriation of Japanese horror motifs. Classic works by Alfred Hitchcock, David Cronenberg and Abel Ferrara receive cutting edge re-examination as do unjustly neglected works by Mario Bava, Guillermo del Toro and Stan Brakhage. Literature, Film, and Their Hideous Progeny Julie Grossman, 2015-09-01 This book posits adaptations as hideous progeny. Mary Shelley's term for her novel *Frankenstein*. Like Shelley's novel and her fictional Creature, adaptations that may first be seen as monstrous in fact compel us to shift our perspective on known literary or film works and the cultures that gave rise to them. **Gothic Film** Hand Richard J. Hand, 2020-03-02 Explores Gothic and horror film from early cinema to the present. Offers essays exploring Gothic film in the widest possible range of contexts. Extends the field of Gothic film by spanning diverse historical periods, international contexts and sub-genres. Structured into 3 sections on History, Traditions and Adaptations. Provides major new appraisals of key works alongside neglected topics. This anthology explores the resilience and ubiquity of the Gothic in cinema from its earliest days to its most contemporary iterations. Fifteen newly commissioned chapters by prominent scholars in the field of Gothic and cinema studies examine the myriad ways that filmmakers mobilise Gothic conceits across multiple film genres and in conjunction with several significant film styles. In the process the book contributes exciting new readings of canonical works of Gothic cinema as well as important new critical examinations of emerging horror subgenres. *Fifty Contemporary Film Directors* Yvonne Tasker, 2010-10-04 This book provides an accessible overview of each director's contribution to cinema incorporating a discussion of their career, major works and impact. **Law and Justice in Japanese Popular Culture** Ashley Pearson, Thomas Giddens, Kieran Tranter, 2018-06-27 In a world of globalised media, Japanese popular culture has become a significant fountainhead for images, narrative artefacts and identity. From Pikachu to instantly identifiable manga memes to the darkness of adult anime and the hyper-consumerism of product tie-ins, Japan has bequeathed to a globalised world a rich variety of ways to imagine, communicate and interrogate tradition and change the self and the technological future. Within these foci, questions of law have often not been far from the surface: the crime and justice of *Astro Boy*, the property and contract of *Pokémon*, the ecological justice of *Nausicaä*, Shinto's focus on order and balance and the anxieties of origins in J-horror. This volume brings together a range of global scholars to reflect on and critically engage with the place of

law and justice in Japan's popular cultural legacy It explores not only the global impact of this legacy but what the images games narratives and artefacts that comprise it reveal about law humanity justice and authority in the twenty first century

American Horror Film Steffen Hantke, 2010-09-30 Creatively spent and politically irrelevant the American horror film is a mere ghost of its former self or so goes the old saw from fans and scholars alike Taking on this undeserved reputation the contributors to this collection provide a comprehensive look at a decade of cinematic production covering a wide variety of material from the last ten years with a clear critical eye Individual essays profile the work of up and coming director Alexandre Aja and reassess William Malone s much maligned *FearDotCom* in the light of the torture debate at the end of President George W Bush s administration Other essays look at the economic social and formal aspects of the genre the globalization of the US film industry the alleged escalation of cinematic violence and the massive commercial popularity of the remake Some essays examine specific subgenres from the teenage horror flick to the serial killer film and the spiritual horror film as well as the continuing relevance of classic directors such as George A Romero David Cronenberg John Landis and Stuart Gordon Essays deliberate on the marketing of nostalgia and its concomitant aesthetic and on the curiously schizophrenic perspective of fans who happen to be scholars as well Taken together the contributors to this collection make a compelling case that American horror cinema is as vital creative and thought provoking as it ever was
