Moral Choices An Introduction To Ethics Moral Choices 2e:

Moral Choices Scott B. Rae, 2000 Rae's *Moral Choices* helps readers navigate the rough waters of today's ethical dilemmas assisting them in making decisions and judging right from wrong both as individuals in terms of society. He explores such issues as abortion, reproductive technologies, euthanasia, capital punishment, war, and sexuality. Includes a chapter on genetic technologies and human cloning. **Moral Choices** Scott Rae, 2018-10-16 Outlining the distinctive elements of Christian ethics, *Moral Choices* is the standard text for college ethics courses. Moral questions are at the core of life's most vital issues. But today we see a breaking down of humanity's ability to distinguish between right and wrong. After describing a seven-step procedure for thinking through ethical dilemmas, author Scott Rae uses case studies to address some of today's most challenging ethical and social issues. He guides students in thinking critically and biblically about issues including Abortion, Euthanasia, Capital Punishment, Sexual Ethics, War, Technologies including reproductive and genetic, Ethics and Economics, Creation Care, and Animal Rights, Gun Control, Race, Gender, and Diversity, Immigration, Refugees, and Border Control. This book also introduces other ethical systems and their key historical proponents including Plato, Aristotle, Augustine, Thomas Aquinas, and Immanuel Kant. With its unique union of theory and application and its well-organized, easy-to-use design, the fourth edition of *Moral Choices* also offers extensive updates, revisions, and three brand-new chapters all designed to help students develop a sound and current basis for making ethical decisions in today's complex, postmodern culture. **FEATURES** Relevant Case Studies throughout, Discussion questions at the end of each chapter, Sidebars with case studies for discussion, Recommended further reading. **Moral Choices** Scott B. Rae, 2009 Now in its third edition, this foremost college ethics text helps students form a basis for practical ethical decision making in contemporary culture. Substantial updates and revisions include a new chapter on ethics and economics, online resources for instructors, current case studies, new material on bioethics and stem cell research, and more. **Essentials of Catholic Radicalism** Corneliu C. Simuț, 2011 The book describes the fundamental tenets of Catholic Radicalism, defined as an understanding of Christianity from a perspective which dismisses the traditional supernatural image of God. The essentials of Catholic Radicalism are extracted from the works of Vito Mancuso, a lay Italian theologian whose intention is to rebuild Christian theology starting from the natural and physical reality of this world. Mancuso insists that he is a Catholic theologian despite his conviction that God should be seen today in atheistic terms which help us understand the world from a rational perspective. The use of reason in theology is compulsory for Mancuso in order for theology to make sense in the skeptical society of our times, which is characterized by a powerful lay consciousness. **Fundamental Christian Ethics** Daniel Heimbach, 2022-11-01 In *Fundamental Christian Ethics*, Daniel Heimbach draws from decades of research and scholarship to introduce the field of Christian ethics in a comprehensive manner while showing how it dialogues with modern-day ethical topics and issues.

Moral Choice Dolores L. Christie, 2013 This survey text for Christian ethics through a Catholic lens traces the sources

and traditions of contemporary ethical principles rules and norms It uses narrative in reaching out to students who seek to understand themselves as they face ethical decisions Stories are employed to reflect one's own life and its meaning as well as to prompt moral decision making The book gives full treatment to criteria needed for ethical decision making that students use in evaluating a series of contemporary issues including abortion end of life torture and others The book includes numerous pedagogic features including boxes questions key terms suggested readings and a glossary Publisher description

The Nature of Nature Bruce Gordon, William Dembski, 2014-04-29 The intellectual and cultural battles now raging over theism and atheism conservatism and secular progressivism dualism and monism realism and antirealism and transcendent reality versus material reality extend even into the scientific disciplines This stunning new volume captures this titanic clash of worldviews among those who have thought most deeply about the nature of science and of the universe itself Unmatched in its breadth and scope The Nature of Nature brings together some of the most influential scientists scholars and public intellectuals including three Nobel laureates across a wide spectrum of disciplines and schools of thought Here they grapple with a perennial question that has been made all the more pressing by recent advances in the natural sciences Is the fundamental explanatory principle of the universe life and self-conscious awareness to be found in inanimate matter or immaterial mind The answers found in this book have profound implications for what it means to do science what it means to be human and what the future holds for all of us

Moral Choices for Our Future Selves Eleonora Viganò, 2022-06-28 This book investigates the relationship between our present and future selves It focuses specifically on diachronic self-regarding decisions choices involving our earlier and later selves in which the earlier self makes a decision for the later self The author connects the scientific understanding of the neurobehavioral processes at the core of individuals' perceptions of their future selves with the philosophical reflection on individuals' moral relationship with their future selves She delineates a descriptive theory of the perception of the future self that is based on empirical evidence and that systematizes and integrates the current theoretical literature She then argues for the morality of prudence and interprets diachronic self-regarding decisions as decisions between two agents the earlier and later selves that belong to the realm of intergenerational ethics which regulates the relationship between contemporary people and future generations Finally the author provides a moral theory of prudence based on respect for one's agency This

theory identifies what the present and the future selves owe to one another in diachronic self regarding decisions Moral Choices for Our Future Selves will be of interest to scholars and students working in ethics moral psychology philosophy of mind and cognitive science **General Introduction to Ethics** William Kelley Wright,1929 *The Principles of New Ethics II* Wang Haiming,2020-10-29 From Descartes to Spinoza Western philosophers have attempted to propose an axiomatic systemization of ethics However without consensus on the contents and objects of ethics the system remains incomplete This fourvolume set presents a model that highlights a Chinese philosopher s insights on ethics after a 22 year study Three essential components of ethics are examined metaethics normative ethics and virtue ethics This volume is the first part of the discussion on normative ethics The author sets out to discuss morality and shows how the reasoning behind it can be both good and bad for human society from various perspectives A system of an ultimate standard of morality is introduced and it is shown that where there are conflicts between different moral norms that cannot be compromised people undoubtedly sacrifice less important moral norms to follow more fundamental and important moral norms or principles The ultimate standard of morality is also the ultimate value standard for the evaluation of the goodness or badness of state institutions Justice is the fundamental value standard to measure state institutions Equality is the most important justice The Chinese version of this set sold more than 60 000 copies and has exerted tremendous influence on the academic scene in the People s Republic The English version will be an essential read for students and scholars of ethics and philosophy in general

Human Dignity in Bioethics Stephen Dilley,Nathan J. Palpant,2013-01-25 Human Dignity in Bioethics brings together a collection of essays that rigorously examine the concept of human dignity from its metaphysical foundations to its polemical deployment in bioethical controversies The volume falls into three parts beginning with meta level perspectives and moving to concrete applications Part 1 analyzes human dignity through a worldview lens exploring the source and meaning of human dignity from naturalist postmodernist Protestant and Catholic vantages respectively letting each side explain and defend its own conception Part 2 moves from metaphysical moorings to key areas of macro level influence international politics American law and biological science These chapters examine the legitimacy of the concept of dignity in documents by international political bodies the role of dignity in American jurisprudence and the implications and challenges for dignity posed by Darwinism Part 3 shifts from macro level topics to concrete applications by examining the rhetoric of human dignity in specific controversies embryonic stem cell research abortion human animal chimeras euthanasia and palliative care psychotropic drugs and assisted reproductive technologies Each chapter analyzes the rhetorical use of human dignity by opposing camps assessing the utility of the concept and whether a different concept or approach can be a more productive means of framing or guiding the debate From Achilles to Superman Joseph J. McInerney,2025-07-25 Decades of surveys show us that the American public has lost faith in its leaders We don t really need survey data to know this is true Just peruse your favorite source of media and you will see a distrust in leaders from all sides of the political spectrum It may be the only thing that our divided country agrees about Even the leadership education experts have lost faith in the clients they are supposed to educate After spending billions of dollars per year on leadership education those educators observe that leaders have never been less respected or more distrusted than they are today How can we escape our leadership predicament We can start with a basic insight that trust or distrust in a leader is often based on the ethics of that leader Yet many people including our leaders struggle to articulate what ethics is even about much less how it relates to leadership This book fills that gap by describing how our story of ethics has developed over the last 2 500 years and how understanding that story will help leaders regain the trust of a public that wants and needs their leaders to be worthy of trust *Catholic Moral Theology and Social Ethics* Christina Astorga,2013-12-01 Proposing a new method for moral theology Christina Astorga seeks to recast our understanding of the discipline by drawing from the faith vision of the entire theological enterprise including scripture dogmatic theology social ethics and spirituality
