

Post-war Morris Minors survive in large numbers, but the passage of time since the first models were launched in 1948 means that many require full or partial restoration. The *Morris Minor Restoration Manual* provides a wealth of information about the model range, specifications, parts availability and the practical skills required to complete essential tasks. Showcasing skills gained in the restoration of a number of models, including a historically significant Morris 1000 two-door saloon, it gives advice and guidance on a range of specific restoration techniques, which are illustrated and explained in detail. Topics covered include:

- Structural repairs
- Paintwork preparation and application
- Engine and gearbox rebuilds
- Internal re-trimming.
- Component repair and refurbishment
- Specific restoration techniques for convertible, Traveller and light commercial variants.

Well-known author Ray Newell, a long-term owner and enthusiast of the Morris Minor marque, has worked collaboratively with experienced restorers and knowledgeable members of the Morris Minor Owners Club to not only oversee the completion of the ambitious restoration of the last Morris Minor two-door saloon to leave the production line in 1970, but also to provide detailed technical and practical advice for anyone undertaking the restoration of a Morris Minor.
