Parul University Study Material:

Parul Institute of Ayurved, Parul University, Vadodara, Gujarat Parul Institute of Ayurved, Parul University, Vadodara, Gujarat. ,2021-11-18 *Advances in Materials Engineering* Pramod Bhingole,Kamlesh Joshi,Surya Deo Yadav,Ankit Sharma,2025-01-27 The book presents select peer reviewed proceedings of the International Conference on Futuristic Advancements in Materials Manufacturing and Thermal Sciences ICFAMMT 2024 It covers latest research and developments in the field of material science and metallurgy Various topics covered in this book are material processing mechanical properties and material characterisation composite materials nanomaterials advanced engineering materials and technologies for space nuclear and aerospace applications The book also focuses on the optimisation of materials for required properties and recent trends in materials science and metallurgy This book is of great value for researchers and professionals working in the field of material science and metallurgy *Proceeding of International Conference Sthaviropakrama - 2021* Parul Institute of Ayurved, Parul University, Vadodara, Gujarat,2021-11-18 **Multidisciplinary Research in Arts, Science & Commerce (Volume-3)** Chief Editor- Biplab Audhya, Editor- Dr. Anita Konwar, Yellapragada A S Srinivas, Dr Sharad S Chavan, V. Geetha, Gopala B, Dr. S. Saravanan,2024-08-15 Recent Advances in Material, Manufacturing, and Machine Learning Rajiv Gupta,Devendra Deshmukh,Awanikumar P. Patil,Naveen Kumar Shrivastava,Jayant Giri,R.B. Chadge,2023-05-26 The role of manufacturing in a country s economy and societal development has long been established through their wealth generating capabilities To enhance and widen our knowledge of materials and to increase innovation and responsiveness to ever increasing international needs more in depth studies of functionally graded materials tailor made materials recent advancements in manufacturing processes and new design philosophies are needed at present The objective of this volume is to bring together experts from academic institutions industries and research organizations and professional engineers for sharing of knowledge expertise and experience in the emerging trends related to design advanced materials processing and characterization and advanced manufacturing processes *Beyond the Pill Strategies for Marketing Success for Pharma & FMCG Sector* Dr. Bijal Zaveri, Marketing is a dynamic and ever evolving field that requires constant adaptation and innovation to keep up with the changing times In today s world marketing strategies are more important than ever as businesses strive to stay ahead of the competition and meet the changing needs and preferences of consumers This book brings together a diverse range of topics related to marketing including consumer preferences AI and machine learning online gaming market segmentation and more Each chapter offers valuable insights and practical tips that can help businesses develop effective marketing strategies and reach their target audience Whether you are a marketing professional business owner or a student looking to learn about marketing this book has something for everyone With real life case studies and examples readers will learn from successful marketing campaigns and gain a deeper understanding of the factors that influence consumer behaviour The chapters in this book cover a wide range of topics from

the impact of AI and machine learning in marketing strategy to the influence of product packaging on consumer behaviour Each chapter offers unique perspectives and insights into the world of marketing providing readers with a comprehensive overview of this fascinating field The book will be an invaluable resource for our understanding of marketing concepts theories and practices The chapters have provided us with insightful and thought provoking discussions on various topics such as consumer behavior marketing strategies and emerging trends in the industry We hope this book will inspire you to think creatively and strategically about your marketing efforts and help you achieve your business goals We encourage you to read each chapter thoroughly take notes and apply the principles and techniques discussed to your marketing endeavors With the insights and knowledge gained from this book you will be better equipped to navigate the complex world of marketing and develop effective strategies that resonate with your target audience

Proceedings of The 7th International Conference on Mechanical, System and Control Engineering John Mo, Parames Chutima, 2025-05-25 This book comprises the proceedings of the 7th International Conference on Mechanical System and Control Engineering 2024 The contents of this volume focus on recent technological advances in the field of system dynamics and simulation precision mechanics production technology structural dynamics nanomaterial engineering cloud computing and services energy engineering and management etc This book proves a valuable resource for those in academia and industry

Recent Advances in Geotechnical Engineering, Volume 2 K. Premalatha, Vidya Bhushan Maji, M. Muttharam, R. G. Robinson, 2025-04-18 This book presents the select proceedings of the First Women Indian Geotechnical Conference WIGC 2024 showcasing the overarching theme of Geotechnics for Sustainable and Resilient Infrastructure The book presents cutting edge contributions from distinguished women geotechnical engineers and esteemed professors across the field of geotechnical engineering Encompassing a broad spectrum of topics the contributions in this volume cover pivotal areas such as geomaterial characterization sustainable waste management geoenvironmental engineering foundation engineering landslides and slope stability ground improvement soft clay engineering AI ML applications in geotechnical engineering and illuminating case studies in the field This book will prove useful to graduate students researchers academics and professional engineers working in geotechnical engineering civil engineering and geological engineering

 Maiti,2022-01-01 This book Vol I presents select proceedings of the first Online International Conference on Recent Advances
 in Computational and Experimental Mechanics ICRACEM 2020 and focuses on theoretical computational and experimental
 aspects of solid and fluid mechanics Various topics covered are computational modelling of extreme events mechanical
 modelling of robots mechanics and design of cellular materials mechanics of soft materials mechanics of thin film and multi
 layer structures meshfree and particle based formulations in continuum mechanics multi scale computations in solid
 mechanics and materials multiscale mechanics of brittle and ductile materials topology and shape optimization techniques
 acoustics including aero acoustics and wave propagation aerodynamics dynamics and control in micro nano engineering
 dynamic instability and buckling flow induced noise and vibration inverse problems in mechanics and system identification
 measurement and analysis techniques in nonlinear dynamic systems multibody dynamical systems and applications nonlinear
 dynamics and control stochastic mechanics structural dynamics and earthquake engineering structural health monitoring
 and damage assessment turbomachinery noise vibrations of continuous systems characterization of advanced materials
 damage identification and non destructive evaluation experimental fire mechanics and damage experimental fluid mechanics
 experimental solid mechanics measurement in extreme environments modal testing and dynamics experimental hydraulics
 mechanism of scour under steady and unsteady flows vibration measurement and control bio inspired materials constitutive
 modelling of materials fracture mechanics mechanics of adhesion tribology and wear mechanics of composite materials
 mechanics of multifunctional materials multiscale modelling of materials phase transformations in materials plasticity and
 creep in materials fluid mechanics computationalfluid dynamics fluid structure interaction free surface moving boundary and
 pipe flow hydrodynamics multiphase flows propulsion internal flow physics turbulence modelling wave mechanics flow
 through porous media shock boundary layer interactions sediment transport wave structure interaction reduced order
 models turbo machinery experimental hydraulics mechanism of scour under steady and unsteady flows applications of
 machine learning and artificial intelligence in mechanics transport phenomena and soft computing tools in fluid mechanics
 The contents of these two volumes Volumes I and II discusses various attributes of modern age mechanics in various

disciplines such as aerospace civil mechanical ocean engineering and naval architecture The book will be a valuable reference for beginners researchers and professionals interested in solid and fluid mechanics and allied fields

ICT: Applications and Social Interfaces Amit Joshi,Mufti Mahmud,Roshan G. Ragel,S. Kartik,2024-04-27 This book contains best selected research papers presented at ICTCS 2023 Eighth International Conference on Information and Communication Technology for Competitive Strategies The conference will be held in Jaipur India during 8 9 December 2023 The book covers state of the art as well as emerging topics pertaining to ICT and effective strategies for its implementation for engineering and managerial applications This book contains papers mainly focused on ICT for computation algorithms and data analytics and IT security The work is presented in five volumes

Recent Advances in Mechanical Infrastructure Ajit Kumar Parwani,PL. Ramkumar,Kumar Abhishek,Saurabh Kumar Yadav,2022-01-03 The book presents latest research based innovations in the field of mechanical infrastructure presented in the International Conference on Recent Advances in Mechanical Infrastructure ICRAM 2021 The broad research topics presented in this book are recent advances in thermal infrastructure This includes aerodynamics renewable energy computational fluid dynamics carbon dioxide capture and sequestration energy and thermo fluids fluid dynamics fuels and combustion heat and mass transfer internal combustion engine and refrigeration and air conditioning Recent advances in manufacturing infrastructure includes green manufacturing instrumentation and control material characterization manufacturing techniques rapid prototyping polymers and composites Recent advances in infrastructure planning and design includes applied mechanics bio mechanics computer aided engineering design finite element analysis industrial tribology machine design robotics and automation dynamics and vibration industrial engineering and optimization

Handbook of Research on Innovative Approaches to Information Technology in Library and Information Science Holland, Barbara,Sinha, Keshav,2024-01-18 In an era of rapid technological advancements libraries have evolved to cater to the changing needs and aspirations of users and society at large IT has emerged as a critical factor in this transformation empowering libraries to offer faster more efficient and highly convenient services to their users The Handbook of Research on Innovative Approaches to Information Technology in Library and Information Science is a comprehensive guide that delves into the dynamic relationship between libraries information centers and information technology IT Within the pages of this edited research handbook a team of esteemed scholars and experts in the field explore the multifaceted applications of IT in libraries and information centers They delve into the effective management of collections resources and operations shedding light on how technology can optimize these vital aspects of library services From information centers that curate and provide access to diverse information resources to the revolutionary impact of IT in digitizing libraries this handbook covers a wide range of topics relevant to contemporary library and information science This book address crucial themes such as artificial intelligence data science computer science information management metadata cybersecurity machine learning chatbots mobile services and robotics It explores the

integration of these cutting edge technologies within the realm of libraries examining how they enhance efficiency user experience and digital equity By addressing the challenges and opportunities presented by IT this handbook equips librarians information professionals researchers professors advanced students and practitioners with the knowledge and insights needed to navigate the rapidly evolving landscape of library and information science Proceeding of International Conference Sukhapraudha -2021 Parul Institute of Ayurved, Parul University, Vadodara, Gujarat ,2021-11-18 *Proceeding of International Conference- NIRJARA-2021* Parul Institute of Ayurved, Parul University, Vadodara, Gujarat ,2021-11-18
