Passing In The Night Michael Kingswood, 2011-08-06 A year long shift in the middle of the interstellar void can get pretty boring For the Fourth shift crew of the starliner Pericles enroute to Earth from one of the colony worlds the passage could best be called routine Until the forward sensors detect an unknown and unexpected object ahead What they find there in the endless night of space will forever change the universe for them and for the all mankind Assuming they survive to tell anyone about the encounter Keywords hard science fiction aliens first contact space travel space exploration space colonization close encounter suspense action novelette free freebie [Waves Passing in the Night](#) Lawrence Weschler, 2017-01-31 From Pulitzer Prize nominee Lawrence Weschler a fascinating profile of Walter Murch a film legend and amateur astrophysicist whose investigations could reshape our understanding of the universe For film aficionados Walter Murch is legendary a three time Academy Award winner arguably the most admired sound and film editor in the world for his work on Apocalypse Now The Godfather trilogy The English Patient and many others Outside of the studio his mind is wide ranging his passion pursued for several decades has been astrophysics in particular the rehabilitation of Titius Bode a long discredited 18th century theory regarding the patterns by which planets and moons array themselves in gravitational systems across the universe Though as a consummate outsider he s had a hard time attracting any sort of comprehensive hearing from professional astrophysicists Murch has made advances that even some of them find intriguing including a connection between Titius Bode and earlier notions going back past Kepler and Pythagorus of musical harmony in the heavens Unfazed by rejection ever probing Murch perseveres in the highest traditions of outsider science Lawrence Weschler brings Murch s quest alive in all its seemingly quixotic yet still plausible splendor probing the basis for how we know what we know and who gets to say The wholesale rejection of alternative theories has repeatedly held back the progress of vital science Weschler observes citing early twentieth century German amateur Alfred Wegener whose speculations about continental drift were ridiculed at first only to be accepted as fact decades later Theoretical physicist Lee Smolin says It is controversy that brings science alive and Murch s quest does that in spades His fascination with the way the planets and their moons are arranged opens up the field of celestial mechanics for general readers sparking an awareness of the vast and to us invisible forces constantly at play in the universe [Spaceships Passing in the Night](#) K. P. Kilbride, 2025-06-20 The evisceration of four space stations has left millions dead and the galaxy sick with terror Who destroyed them and when will they strike again Cue broadcaster Roz Dayne who already thought her life had fallen apart months ago long before she was at the centre of an interstellar investigation as the only apparent link between the disasters The court of public opinion has already decided her guilt and Roz is overcome with regret Regret for leaving her ex girlfriend regret for taking her dream job regret for everything that has led up to her being on the air before the attacks She just wants life to return to normal but normal is a lifetime ago With the help of one vintage detective two spirited bounty hunters and an
