Michigan. Legislature,1889      **The 71F Advantage** National Defense University Press,2010-09 Includes a foreword by  
Major General David A Rubenstein From the editor 71F or 71 Foxtrot is the AOC area of concentration code assigned by the  
U S Army to the specialty of Research Psychology Qualifying as an Army research psychologist requires first of all a Ph D  
from a research not clinical intensive graduate psychology program Due to their advanced education research psychologists  
receive a direct commission as Army officers in the Medical Service Corps at the rank of captain In terms of numbers the 71F  
AOC is a small one with only 25 to 30 officers serving in any given year However the 71F impact is much bigger than this  
small cadre suggests Army research psychologists apply their extensive training and expertise in the science of psychology  
and social behavior toward understanding preserving and enhancing the health well being morale and performance of  
Soldiers and military families As is clear throughout the pages of this book they do this in many ways and in many areas but  
always with a scientific approach This is the 71F advantage applying the science of psychology to understand the human  
dimension and developing programs policies and products to benefit the person in military operations This book grew out of  
the April 2008 biennial conference of U S Army Research Psychologists held in Bethesda Maryland This meeting was to be  
my last as Consultant to the Surgeon General for Research Psychology and I thought it would be a good idea to publish  
proceedings which had not been done before As Consultant I d often wished for such a document to help explain to people  
what it is that Army Research Psychologists do for a living In addition to our core group of 71Fs at the Bethesda 2008  
meeting we had several brand new members and a number of distinguished retirees the grey beards of the 71F clan Together  
with longtime 71F colleagues Ross Pastel and Mark Vaitkus I also saw an unusual opportunity to capture some of the history  
of the Army Research Psychology specialty while providing a representative sample of current 71F research and activities It  
seemed to us especially important to do this at a time when the operational demands on the Army and the total force were  
reaching unprecedented levels with no sign of easing and with the Army in turn relying more heavily on research psychology  
to inform its programs for protecting the health well being and performance of Soldiers and their families      **Industrial**
