Practical Theology and Majority World Epistemologies Alfred Brunson, Calida Chu, 2024-11-08 This book offers insights into the thinking of majority world practical theologians and introduces the reader to faith realities previously unknown in a quest to create a more inclusive and welcoming practical theological network Practical theologians are situated in all corners of the globe attempting to make sense of their lived experiences and of those around them from a faith perspective Historically practical theology tended to be constructed from academics situated in the West and indirectly marginalized those in and from the majority world Against this backdrop this book is a deliberate attempt to empower practical theological voices from the further corners of the global village based upon the conviction that sharing epistemologies creates an opportunity not only to learn about others and the contexts in which they live but from them enhancing the meaning making of practical theology in the present Cognisant that epistemology as a formal discipline does not always centre lived experience practical theology has historically prioritised the importance of wisdom worldview and a way of life for individual and collective knowing The diverse issues addressed in this work offers insights into the thinking of mainly Asian and African practical theologians and introduces readers to the faith realities previously unknown to create a more inclusive and welcoming practical theological network This book was originally published as a special issue of the journal Practical Theology

Paul Tillich and Psychology Terry D. Cooper, 2006 Paul Tillich more than any other theologian of the twentieth century maintained an energetic dialogue with psychology and especially psychotherapy This book explores what Tillich's theology has to offer psychologists and others working in the field of mental health spiritual development and pastoral counseling Tillich's interaction with Carl Rogers Erich Fromm Rollo May and other famous psychologists became an important part of his thinking Tillich frequently pushed psychologists to see the

underlying philosophical assumptions of their work This investigation of the underpinnings of psychotherapy then encouraged psychotherapists to become more aware of the ultimate questions about meaning purpose and ethics that informed their work Perhaps the greatest contribution this book offers is a careful narrative and analysis of the meetings of the New York Psychology Group which involved such figures as Tillich Fromm May Rogers Seward Hiltner Ruth Benedict and David Roberts to name just a few This important group which met from 1941 to 1945 dealt with issues that are very much with us today such as whether faith can be psychologically explained the meaning of transcendence the relationship between psychotherapy and ethics the appropriateness of self love and whether human love is parallel with Divine love

Christian Theology in Practice Bonnie J. Miller-McLemore, 2012-02-02 For the past fifty years scholars in both pastoral and practical theology have attempted to recapture human religious experience and practice as essential sites for theological engagement redefining in the process what theology is how it is done and who does it In this book Bonnie J Miller McLemore shows how this trend in scholarship has led to an expanded subject matter alternative ways of knowing and richer terms for analysis in doing Christian theology Tracing more than two decades of her own search for a more inclusive discipline one that truly grapples with theology in the midst of life Christian Theology in Practice shows not only where Miller McLemore herself has traveled in the field but also how pastoral and practical theology has developed during this time Looking forward Miller McLemore calls on the academy and Christian congregations to disrupt conventional theological boundaries and to acknowledge the multiplicity of shapes and places in which the wisdom of God appears
