**Paul Klee** Annie Bourneuf, 2015-07-20 The book offers a new original look at the great European modernist Paul Klee and the interplay of word and image in the work he produced after WWI when the European avant garde was at its most adamant Bourneuf asks why was it that Klee immersed himself in crossings of image and text at the same time that so much avant garde art focused fiercely on the visual She proposes that Klee created forms that hover between the pictorial and the written to provoke the viewer to look slowly and contemplatively a mode of viewing the artist saw as both analogous to reading and threatened by new technological media such as film mass printing telephones and radio Bourneuf demonstrates how Klee's concern for the literary aspects of visual art is both the motive for and the means of his ironic play with modernist art theories and practices

Marking Modern Movement Susan Funkenstein, 2020-10-26 Imagine yourself in Weimar Germany you are visually inundated with depictions of dance Perusing a women's magazine you find photograph after photograph of leggy revue starlets clad in sequins and feathers coquettishly smiling at you When you attend an art exhibition you encounter Otto Dix's six foot tall triptych Metropolis featuring Charleston dancers in the latest luxurious fashions or Emil Nolde's watercolors of Mary Wigman with their luminous blues and purples evoking her choreographies mystery and expressivity Invited to the Bauhaus you participate in the Metallic Festival and witness the school's transformation into a humorous shiny technological total work of art you costume yourself by strapping a metal plate to your head admire your reflection in the tin balls hanging from the ceiling and dance the Bauhaus signature step in which you vigorously hop and stomp late into the night Yet behind the razzle dazzle of these depictions and experiences was one far more complex involving issues of gender and the body during a tumultuous period in history Germany's first democracy 1918 1933 Rather than mere titillation the images copiously illustrated and analyzed in Marking Modern Movement illuminate how visual artists and dancers befriended one another and collaborated together In many ways because of these bonds artists and dancers forged a new path in which images revealed artists deep understanding of dance their dynamic engagement with popular culture and out of that a possibility of representing women dancers as cultural authorities to be respected Through six case studies Marking Modern Movement explores how and why these complex dynamics occurred in ways specific to their historical moment Extensively illustrated and with color plates Marking Modern Movement is a clearly written book accessible to general readers and undergraduates Coming at a time of a growing number of major art museums showcasing large scale exhibitions on images of dance the audience exists for a substantial general public interest in this topic Conversing across German studies art history dance studies gender studies and popular culture studies Marking Modern Movement is intended to engage readers coming from a wide range of perspectives and interests

**Contemporary Art and the Display of Ancient Egypt** Alice Stevenson, 2025-01-16 Artistic interventions are now a popular means of delivering fresh perspectives on museum displays including in galleries devoted to ancient Egypt Installations are commonly said to put the past and present into dialogue with each other offering external critical voices on the work of decolonisation Contemporary Art and the Display of Ancient Egypt argues that the contemporary and the ancient do not necessarily inform each other Instead they are mediated by and mediations of the museum that produces them Rather than explore how contemporary artists have been inspired by Egypt this book examines how they have shaped the language and discourse around study of the Egyptian past by looking at the wider field of public display in which both have been historically situated Building on this critical history of practice the book draws from experiments in bringing contemporary artistic sculptures conceptual pieces multimedia films sounds smells and performances into galleries at the British Museum in London the Egyptian Museum in Turin and the State Museum of Egyptian Art in Munich These are used to explore what contemporary art does in these spaces the motivations for inviting artists in and the legacies of those interventions It ends with a reflection on how academics and curators can be involved in the creative process and how artists contribute to academic research Praise for Contemporary Art and the Display of Ancient Egypt This is an important and innovative study on the recent history of incorporating art installations in galleries of Egyptian antiquities Offering a thoughtful critical analysis of the ways in which contemporary art and ancient artefacts are juxtaposed in museum settings the book calls for a more nuanced and politically engaged practice of collaboration between artists and Egyptologists Stephanie Moser University of Southampton Archaeologist Alice Stevenson provides a thoughtful consideration of the goals and intent behind contemporary art interventions in exhibitions of ancient Egyptian art She challenges the curators scholars and museum professionals who design these exhibitions to move beyond the simplistic ancient art contemporary art juxtaposition and instead use contemporary art interventions to create spaces for both artistic and academic insight and inspiration I look forward to such dialogue Kara Cooney UCLA

**Henri Bergson and Visual Culture** Paul Atkinson, 2020-10-15 What does it mean to see time in the visual arts and how does art reveal the nature of time Paul Atkinson investigates these questions through the work of the French philosopher Henri Bergson whose theory of time as duration made him one of the most prominent thinkers of the fin de si cle Although Bergson never enunciated an aesthetic theory and did not explicitly write on the visual

arts his philosophy gestures towards a play of sensual differences that is central to aesthetics This book rethinks Bergson s philosophy in terms of aesthetics and provides a fascinating and original account of how Bergsonian ideas aid in understanding time and dynamism in the visual arts From an examination of Bergson s influence on the visual arts to a reconsideration of the relationship between aesthetics and metaphysics *Henri Bergson and Visual Culture* explores what it means to reconceptualise the visual arts in terms of duration Atkinson revisits four key themes in Bergson s work duration time and the continuous gesture the ramification of life and durational difference and reveals Bergsonian aesthetics of duration through the application of these themes to a number of 19th and 20th century artworks This book introduces readers and art lovers to the work of Bergson and contributes to Bergsonian scholarship as well as presenting a new of understanding the relationship between art and time *Anthropologies of Entanglements* Christiane Voss,Lorenz Engell,Tim Othold,2023-08-24 Media and human modes of existence are always already intertwined and interdependent The notion of the anthropocene has further stimulated a new examination of ideas about human agency and responsibility Various approaches all emphasize relational concepts and the situatedness and embodiment of human and also non human existences and experiences Their common interest has shifted from any so called human nature to the multitude of cultural topographical technical historical social discursive and media formats with which human existences are entangled This volume brings together a range of thinkers from international backgrounds and puts these important reflections and ideas in the spotlight More specifically the volume explores the concept of anthropomedial entanglements It fosters an understanding of human bodies experiences and media as being immanently entangled and mutually constituting prior to any possible distinction between them The different contributions thus open up a dialogue between empirical case studies and media historical research on the one hand and the conceptual work of media and cultural philosophies and aesthetics on the other hand **Landscape and Nature in Scandinavian Art** MaryClaire Pappas,Tonje Haugland Sørensen,2025-04-16 This edited volume foregrounds new and vital scholarship shaping Scandinavian art historical research on the representations of the natural world Contributors deconstruct the interlinking of people and land through critical readings of the Scandinavian representation of nature bringing to the fore how the traditional focus on the landscape as a manifestation of temperament has tended to obfuscate critical approaches to the representation of the landscape Making interdisciplinary connections this volume redresses the imbalance in scholarship on the region that often emphasizes teleological national narratives and instead situates encounters with nature and the landscape in relationship to more interdisciplinary perspectives Each chapter serves as a specific case study on topics ranging from circumpolar exploration and colonial practices deconstructing National Romanticism myths and contemporary artistic responses to the history of the politics of land The book will be of interest to scholars working in art history visual culture nature studies and environmental history *Drawing as a Way of Knowing in Art and Science* Gemma Anderson-Tempini,2017-10-01 In recent history the arts and sciences have often been

considered opposing fields of study but a growing trend in drawing research is beginning to bridge this divide Gemma Anderson's *Drawing as a Way of Knowing in Art and Science* introduces tested ways in which drawing as a research practice can enhance morphological insight specifically within the natural sciences mathematics and art Inspired and informed by collaboration with contemporary scientists and Goethe's studies of morphology as well as the work of artist Paul Klee this book presents drawing as a means of developing and disseminating knowledge and of understanding and engaging with the diversity of natural and theoretical forms such as animal vegetable mineral and four dimensional shapes Anderson shows that drawing can offer a means of scientific discovery and can be integral to the creation of new knowledge in science as well as in the arts

*Mathematics and Art* Lynn Gamwell, 2016 This is a cultural history of mathematics and art from antiquity to the present Mathematicians and artists have long been on a quest to understand the physical world they see before them and the abstract objects they know by thought alone Taking readers on a tour of the practice of mathematics and the philosophical ideas that drive the discipline Lynn Gamwell points out the important ways mathematical concepts have been expressed by artists Sumptuous illustrations of artworks and cogent math diagrams are featured in Gamwell's comprehensive exploration Gamwell begins by describing mathematics from antiquity to the Enlightenment including Greek Islamic and Asian mathematics Then focusing on modern culture Gamwell traces mathematicians' search for the foundations of their science such as David Hilbert's conception of mathematics as an arrangement of meaning free signs as well as artists' search for the essence of their craft such as Aleksandr Rodchenko's monochrome paintings She shows that self reflection is inherent to the practice of both modern mathematics and art and that this introspection points to a deep resonance between the two fields Kurt Godel posed questions about the nature of mathematics in the language of mathematics and Jasper Johns asked What is art in the vocabulary of art Throughout Gamwell describes the personalities and cultural environments of a multitude of mathematicians and artists from Gottlob Frege and Benoît Mandelbrot to Max Bill and Xu Bing *Mathematics and Art* demonstrates how mathematical ideas are embodied in the visual arts and will enlighten all who are interested in the complex intellectual pursuits personalities and cultural settings that connect these vast disciplines

*Mouse Muse* Lorna Owen, 2014-11-18 A beautifully designed introduction to art history by way of artworks that feature the mouse from the ancient world to drawings by Picasso Disney and Art Spiegelman Across centuries and civilizations artists have used the mouse the planet's most common mammal after us to illustrate our myths and beliefs Mice have appeared as Japanese symbols of good luck or medieval emblems of evil in Arab fables Russian political satire and Nazi propaganda as scientific tools and to help us challenge the way we see nature With more than 80 rarely reproduced works including paintings by Hieronymus Bosch and Gustav Klimt a silkscreen by Andy Warhol a print by Hokusai a photograph by Andrzej Kertész a sculpture by Claes Oldenburg a video installation by Bruce Nauman a performance by Joseph Beuys and many more Lorna Owen has created an engaging presentation of an extraordinary range The pieces which represent every period of visual art

are accompanied by Owen's intriguing text about the story behind each work. She has combined her passion for art and her empathy for the unsung archetype of the animal kingdom to explain not only how or why the artist came to use the mouse as a subject but how the art in the end reveals more about us than it could ever reveal about this humble creature.

**Midcentury Modern Art in Texas** Katie Robinson Edwards, 2014-07-01 Winner Award of Merit for Non Fiction The Philosophical Society of Texas 2015 Before Abstract Expressionism of New York City was canonized as American postwar modernism the United States was filled with localized manifestations of modern art. One such place where considerable modernist activity occurred was Texas where artists absorbed and interpreted the latest most radical formal lessons from Mexico the East Coast and Europe while still responding to the state's dramatic history and geography. This barely known chapter in the story of American art is the focus of *Midcentury Modern Art in Texas*. Presenting new research and artwork that has never before been published, Katie Robinson Edwards examines the contributions of many modernist painters and sculptors in Texas with an emphasis on the era's most abstract and compelling artists. Edwards looks first at the Dallas Nine and the 1936 Texas Centennial which offered local artists a chance to take stock of who they were and where they stood within the national artistic setting. She then traces the modernist impulse through various manifestations including the foundations of early Texas modernism in Houston early practitioners of abstraction and non objectivity the Fort Worth Circle artists at the University of Texas at Austin Houston artists in the 1950s sculpture in and around an influential Fort Worth studio and to see how some Texas artists fared on a national scale the Museum of Modern Art's Americans exhibitions. The first full length treatment of abstract art in Texas during this vital and canon defining period *Midcentury Modern Art in Texas* gives these artists their due place in American art while also valuing the quality of Texan-ness that subtly undergirds much of their production.

**Animating Film Theory** Karen Redrobe, 2014-03-21 *Animating Film Theory* provides an enriched understanding of the relationship between two of the most unwieldy and unstable organizing concepts in cinema and media studies: animation and film theory. For the most part animation has been excluded from the purview of film theory. The contributors to this collection consider the reasons for this marginalization while also bringing attention to key historical contributions across a wide range of animation practices geographic and linguistic terrains and historical periods. They delve deep into questions of how animation might best be understood as well as how it relates to concepts such as the still the moving image the frame animism and utopia. The contributors take on the kinds of theoretical questions that have remained underexplored because as Karen Beckman argues scholars of cinema and media studies have allowed themselves to be constrained by too narrow a sense of what cinema is. This collection reanimates and expands film studies by taking the concept of animation seriously. Takahashi *Edgar Wind and Modern Art* Ben Thomas, 2020-12-10 This book presents the first comprehensive study of the philosopher and art historian Edgar Wind's critique of modern art. The first student of Erwin Panofsky and a close associate of Aby Warburg, Edgar Wind was unusual among the Warburgians for his sustained interest in modern art together with his support for contemporary artists. This culminated in his respected and influential book *Art and Anarchy* 1963 which seemed like a departure from his usual scholarly work on the iconography of Renaissance art. Based on extensive archival research and bringing to light previously unpublished lectures, *Edgar Wind and Modern Art* reveals the extent and seriousness of Wind's thinking about modern art and how it was bound up with theories about art and knowledge that he had developed during the 1920s and 30s. Wind's ideas are placed in the context of a closely connected international cultural milieu consisting of some of the leading artists and thinkers of the twentieth century. In particular, the book discusses in detail his friendships with three significant artists: Pavel Tchelitchew, Ben Shahn, and R. B. Kitaj. In the process, the existence of an alternative to the prevailing formalist approach of Alfred Barr and Clement Greenberg to modern art based on the enduring importance of the symbol is revealed.

**The Artist's Estate** Dr. Loretta Würtenberger, 2021-11-24 Andy Warhol bequeathed us the words: "Death can really make you look like a star." But death per se is not a catalyst for the relevance of an artist. What is of crucial importance is the proper management structure for the posthumous preservation and development of an artistic estate. The handbook by Loretta Würtenberger presents the possible legal framework, appropriate financing models, as well as the proper handling of the market, museums, and academia. Her business, Fine Art Partners, has advised artists and artists' estates for many years in their structuring and development of estate concepts, as well as in operative questions. Based on numerous international examples, the author explains the different alternatives for maintaining an artist's estate and makes recommendations on how to ideally handle work archives and mementos following the death of
