*Paul comes to us as a person from the past, historical scholarship has always tried to understand Paul as a person of his time, living and working within the diverse and multifaceted political, religious and cultural world in which he belonged. Thought up as a Greek speaking Jew in Rome whose probable education in Jerusalem, and suffering a leading position in the religious politics of the Diaspora, Paul opens the "second half" of his life revealing several facets, Jesus follower and Christian as an agent and apostle of Jesus Christ, as a founder of Christ preaching communities Paul is viewed by scholars as a Jewish rabbi and the young Christ preaching movement that would later on come to be known as Christianity.*

*The authors of this handbook seek to present Paul of Tarsus, the first Christian apostle, within his own time by using through his own writings. Based on the content of his epistles, We understand Paul's letters as the richest and most important source for reconstructing his person, his work, his communities and his religious interpretation of the world, as an author, his theology, his law view, Paul is regarded as having laid the foundations of Christian communities especially in the Western part of the Roman Empire - his cities such as Corinth, Philippi and Thessalonica - and as having shaped the faith, the hope, the love, the theology, and the ethics of these communities. At the same time, however, Paul remains one of the most influential forces of his time, contributing to the first century's Judaism and on equal footing with Plato of Alexandria and such figures.*

*This handbook is written from a Christian, non-confessional, theological perspective, mostly by New Testament scholars, but also by scholars of Christian and Church History. The book includes a careful consideration of Paul's Jerusalem as his religious and cultural background and previous education. The authors are aware of Jewish interpretations of Paul that differ from the Christian perspective'. The contributions present not only issues that are common research on Paul, but also offer substantial original contributions in particular topics. At the same time the authors stress towards a critical examination of Paul's person and work, and a general appreciation of his letters as the first documents of "the beginning of Christianity".*

*This handbook offers students their perspectives on approaches for studying Paul. The first consideration Paul's person and work within the political,*

G. Horrell, 2015-02-26 This tried and tested introduction to Paul needs little introduction of its own After considering Paul's importance and influence and the important sources for the study of Paul the volume covers the following key topics the earliest period of Christianity from Jesus to Paul Paul's life before and after his conversion his individual letters the major elements of his theology his attitude to Israel and the Jewish law perspectives on the Pauline assemblies including their socio economic location meeting places and attitudes towards women and Paul's legacy in the New Testament and beyond The volume has been revised throughout and fully updated with respect to bibliography and to presenting the latest debates surrounding Paul's thought in a manageable format including those around old and new perspectives with a new section on the radical new Jewish perspective and those related to the socio economic status and character of the Pauline assemblies The helpful study questions and reading lists have also been revised **Colometric Analysis of Paul's Letters** Priscille

Marschall, 2024-03-13 Priscille Marschall explores some stylistic aspects of Paul's letters in particular their oral oriented logic of structuration employing Chapters 10-13 of Second Corinthians as a case study The method of analysis draws upon the rhetorical treatises of the Greco Roman world *The Calling Metaphor in Paul's Epistles* Fiva Savković, 2025-08-04

1 Timothy, Volume 1 Paul S. Jeon, 2017-12-22 1 Timothy is one of the more controversial documents in the New Testament For years critical scholars have rejected Pauline authorship highlighted the apparent misogynistic quality of the text and argued against any coherence in the letter Jeon takes a fresh look at the letter incorporating many recent advancements in NT scholarship In detail he demonstrates the macro and micro chiasmic arrangement of the entire letter and explains how the presumed first century audience would have heard and responded to an oral performance of the letter In doing so Jeon offers a fresh challenge to more popular ways of mis understanding the letter and points a way forward for appropriating the letter both in academia and in the church Communal Participation in the Spirit Christopher G.

Foster, 2022-10-11 Christopher G Foster identifies Jewish mystical elements in the Dead Sea Scrolls and compares them with analogous features in the Corinthian correspondence to illuminate through differences and similarities how Paul advocates a

mystical and communal participation in the Spirit After defining early Jewish mysticism and introducing the method of heuristic comparison Part I identifies and investigates mystical elements in Dead Sea Scrolls Part II compares these findings with corresponding aspects in 1 and 2 Corinthians to demonstrate the largely corporate tenor of participation and transformation in and by the spirit for Paul      **Paul's New Perspective** Garwood P. Anderson,2016-09-29 The debate between the Old and New perspectives on Paul has reached a stalemate But what if Paul s own theological perspective developed over time Starting with the teaser that both camps are right but not all the time Garwood Anderson unfolds a new proposal for overcoming the deadlock infusing new energy into the quest for understanding Paul s mind and letters

**James among the Classicists** Sigurvin Lárus Jónsson,2021-06-07 This book gives attention to the language and style of the letter of James with a hypothesis about its rhetorical purpose in mind It focuses on what we can learn about the author of James by reading the text in light of a guiding research question How does the author establish and assert authority The letter builds literary authority for a number of purposes one of which is to address socioeconomic disparity a major concern for the author The author of James presents a speech in character in the shape of a letter to establish his ethos Ch 2 employing vocabulary and style to signal his education implicitly Ch 3 4 and includes himself in the categories of sage teacher and exegete explicitly Ch 5 From this standpoint the author can address the rich as equals rebuke them and admonish both rich and poor to receive God s wisdom Ch 6 The comparison with ancient literary criticism shows that the categories at play are the same The insight that language and ethos are inseparable categories in antiquity provides us with renewed ways to interpret the literary production of early Christianity Both James and the Classicists present a competing epic in the context of the early imperium the former with an Israelite piety that is superior to contemporary economic and moral categories and the latter with the supremacy of Greek culture as a foundation for Rome The letter of James emerges as a document that builds educational ethos as a balance against the rich and powerful a strategy that calls for a revision of both its rhetoric and socio economic situation      1 and 2 Thessalonians Nijay K. Gupta,2019-07-23 The study of Paul s Thessalonian letters is enjoying fresh interest today These texts are considered by many to be amongst the earliest extant Christian documents They are included in conversations about early Jewish and Christian apocalypticism New insights are coming from examination of the religious socio cultural and political contexts of Roman Thessalonica And looking back these letters have played an important role in the development of Christian eschatology This volumes serves as an up to date guide to these academic discussions and debates and much more This volume on 1 and 2 Thessalonians in the Zondervan Critical Introductions to the New Testament series offers a volume length engagement with subjects that normally only receive short treatments in biblical commentaries or in New Testament Introductions This volume addresses Authorship Date Audience Socio Historical Context Genre Purpose Integrity Textual History Greek Style Structure Argument Other Critical Issues Main Interpretive Issues Reception into the Canon Selected History of Interpretation Bibliography      **The Pauline Book and the**

**Dilemma of Ephesians** Benjamin J. Petroelje, 2022-09-08 Benjamin J Petroelje argues that how one reads Ephesians is a function of deeper questions about how to read the Pauline book Petroelje suggests the contemporary consensus that Ephesians depicts development of away from the real Paul is largely a construct of modern criticism rooted in shifting strategies about how to read a letter collection that developed in the 19th century Using Ephesians 3:1-13 as a point of analysis Petroelje theorizes that the text's image of Paul not only anticipates recent revisionist interpretations of Paul's Jewish identity and gentile gospel but also holds together tensions in the collection itself surrounding these questions By analysing ancient letter collections beside their own hermeneutical priorities and applying this method to the late antique and modern reception of the corpus Paulinum Petroelje is able to historicize the origins of the split of Paul's corpus revealing the constructed nature of the critical consensus on Ephesians and the effect that such modern reading strategies have on interpreting the letter Urging a return to reading Ephesians alongside Pauline co-texts Petroelje advocates for Ephesians as a crucial source for the study of Paul whether Paul wrote it or not

**Romans** Christian A. Eberhart, 2025-04-05 Can a feminist interpretation of Romans discover anything new In this volume Christian Eberhart pays special attention to the fact that Paul entrusted Phoebe a gentile woman with the task of delivering the letter to Rome There she would have been the person who recited it aloud and by heart in front of various audiences Yet as the leader of a congregation in Corinth Phoebe had likely also been involved in the process of composing the letter as some passages reveal This multifaceted engagement of a woman gives new meaning to the vision of human society in Romans that celebrates the full participation of women and men Jews and gentiles weak and strong and free and slave

*"True and Holy"* Leo Lefebure, 2014-04-10 When believers read the sacred texts of other religions through a hermeneutic of hostility the consequences can be deadly Christian history shows that the Bible is no exception In recent decades however many Christian traditions have radically refashioned their approach to other religious traditions and to biblical interpretation This new hermeneutics of generosity seeks to uncover what can be learned from other holy texts and the communities that treasure them and also seeks to find common ground on important issues such as human rights and religious liberty Lefebure offers Christian readings of Jewish Muslim Hindu and Buddhist holy texts that suggest new bases for friendship and understanding Noting the challenges and tensions in the relationship between Christians and these four other religious communities he also examines the specific issues involved in interpreting the Christian Bible in interreligious dialogue He concludes with a reflection on the experience of conversion in light of the theology of Bernard Lonergan and the mimesis theory of René Girard

*Urgency and Severity: Pauline Rationale for Expulsion in 1 Corinthians 5:1-13* David E. Bosworth, 2024-05-21 When Paul heard that a Christ follower in Corinth was in an incestuous relationship with his stepmother the apostle insisted the man be removed immediately from the congregation This dramatic response is surprising as Paul responds to other serious situations with much less vehemence Why did Paul react to the immoral man with such urgency and severity Using socio-cultural tools this study explains the importance of group identity and witness for Paul's ecclesiology The argument lays a foundation for contemporary readers to appraise contexts where an expulsive response to sin might be appropriate
