Marriage, Violence and the Nation in the American Literary West William R. Handley,2002-08-15 In *Marriage Violence and the Nation in the American Literary West* William R Handley examines literary interpretations of the Western American past Handley argues that although scholarship provides a narrative of western history that counters optimistic story of frontier individualism by focusing on the victims of conquest twentieth century American fiction tells a different story of intra ethnic violence surrounding marriages and families He examines works of historiography as well as writing by Zane Grey Willa Cather Wallace Stegner and Joan Didion among others to argue that these works highlight white Americans anxiety about what happens to American character when domestic enemies such as Indians and Mormon polygamists against whom the nation had defined itself in the nineteenth century no longer threaten its homes Handley explains that once its enemies are gone imperialism brings violence home in retrospective narratives that allegorise national pasts and futures through intimate relationships *Hell of a Vision* Robert L. Dorman,2012-10-11 The American West has taken on a rich and evocative array of regional identities since the late nineteenth century Wilderness wonderland Hispanic borderland homesteader s frontier cattle kingdom urban dynamo Native American homeland *Hell of a Vision* explores the evolution of these diverse identities

during the twentieth century revealing how Western regionalism has been defined by generations of people seeking to understand the West's vast landscapes and varied cultures Focusing on the American West from the 1890s up to the present Dorman provides us with a wide ranging view of the impact of regionalist ideas in pop culture and diverse fields such as geography land use planning anthropology journalism and environmental policy making Going well beyond the realm of literature Dorman broadens the discussion by examining a unique mix of texts He looks at major novelists such as Cather Steinbeck and Stegner as well as leading Native American writers But he also analyzes a variety of nonliterary sources in his book such as government reports planning documents and environmental impact studies Hell of a Vision is a compelling journey through the modern history of the American West a key region in the nation of regions known as the United States
