Sense, Sensibility and Sensation: the Marvelous Miniatures and Perfect Pastels of Laura Coombs Hills Diane Elizabeth Kelleher, 2023-05-10 Innovative and yet traditional Laura Coombs Hills 1859-1952 was renowned for both her miniatures on ivory and later her pastels of flowers Queen of Miniature Painters a veritable John Singer Sargent of miniature painting and Dean of Flower Pastels were merely some of the many accolades ascribed to this New England artist However Hills' accomplishments and contributions to America's art historical culture entailed so much more Sense Sensibility and Sensation The Marvelous Miniatures and Perfect Pastels of Laura Coombs Hills America's Lyrical Impressionist was conceived and written as an atypical art history book to better explore Hills' many contributions to American culture with a view toward a broader understanding of Hill's ethos Beyond the presentation of her unique biographical history as an independent woman entrepreneur this book explores Hill's role in perpetuating a sense of individualism associated more closely with the concepts of home hearth and honor of the nineteenth century than the psychological anomie associated with

the Modernism of the twentieth her own time In addition on the pages of this book will be found relevant discussions regarding Hills ties to Sense Sensibility and Sensation that is to the idea of individualism associated with nineteenth century miniatures and Walt Whitman s celebration of America the notion of beauty associated with Contemplative Romanticism espoused by Edmund Burke the sentiments of the Romance poets Lord Byron and Percy B Shelley as well as the nineteenth century color theories of Michel Chevreul favored by the Impressionists Moreover notions of democratic empiricism aesthetic lyricism and Hills passion for symphonic colors are all contributory factors which help to identity Laura Coombs Hills as what I have termed America s Lyrical Impressionist

Finding Your Style In Pastel Jean Hirons, 2012-10-25 As artists we have choices There are very few rules that apply across the board We can create highly realistic paintings or perhaps more expressive paintings or paintings that have very little basis in reality including those that are totally non representational We can record color as we see it or as we d like it to be As pastel artists we have even more choices We can use a wide variety of pastels strokes surfaces and techniques to create many different looks The choices we make form the framework of our individual style our signature as artists Any subscriber to The Pastel Journal realizes how varied the medium of pastel can be For the experienced artist these articles are stimulating offering possible ways to experiment with alternative approaches For the beginner the panoply of choices can be overwhelming Painting is primarily an intuitive process But intuition is gained through study and experience Part of my impetus in writing this book has been to create a more structured approach to help those fairly new to the medium understand its many possibilities The book is aimed at all levels of pastel artists Beginners will find a wealth of helpful information and intermediate artists will gain insight into how to take their work to another level and develop a style Many advanced artists teach pastel the organization of ideas and the exercises included should be of assistance I offer a variety of suggested approaches and sometimes make up terminology to describe my experiences with the medium The instructions in the book are based on my preferences and the guidance that I offer my students The diversity of styles and techniques evident in the paintings of contributing artists should make it clear however that there are many ways to successfully work in pastel Having acknowledged the many possibilities I want to note a few musts Representational paintings must be well drawn Poor drawing skills cannot be overcome with lovely color or great technique Likewise paintings must have strong compositions regardless of whether they are realistic abstracted or non representational Values must be properly interpreted to produce strong compositions and to use pastel to its full effect And finally pastel paintings must sing Whether the applications are light and airy or rich and painterly it should be clear that the artist is in control of the medium and is using it to produce his or her desired look For years I have resisted suggestions that I write a book As a landscape painter I knew that there were more authoritative books already available And the growing popularity of pastel has led to so many resources including online blogs a biennial convention and the wonderful Pastel Journal mentioned above What could I add to this My personal training in pastel has been from weeklong landscape workshops with some of the leading pastel

painters in the country As a teacher in a community college I am not teaching a particular style nor focusing on specific subject matter Some of my students work with the landscape but others do portraits or figurative work while others prefer still life or work abstractly In dealing with this mixture I ve realized that there are different ways to approach one s use of color and this formed my first idea for creating a book Furthermore as a teacher I ve spent time experimenting with different surfaces pastel brands and techniques in order to make suggestions to students to help them find the look they want to achieve I do not teach students to paint the way I do but instead try to share my experience and help them develop their own individual style *American Pastels in the Metropolitan Museum of Art* Metropolitan Museum of Art (New York, N.Y.),Doreen Bolger,1989 A catalogue and art historical overview of pastel painting in America from 1880 to 1930
