

# Implementing the Emergency Department Safety Checklist

West of England  
Patient Safety  
Collaborative

## Introduction

### Acknowledgements

This toolkit has been based on the ED Safety Checklist and Key Performance Indicators developed and tested by University Hospitals Bristol NHS Foundation Trust (UH Bristol) and the West of England Patient Safety Collaborative.

We would like to thank the team at UH Bristol for their work in the development of this project.

The UH Bristol pilot scheme was funded by the Health Foundation SHINE Innovation programme.

**NIHR** | Applied Research Collaboration West

NIHR CLAHRC West, now recommissioned as the NIHR Applied Research Collaboration West (ARC West), have completed an independent evaluation of the ED checklist. This toolkit has been updated in August 2019 to incorporate

### Adoption and spread

The safety checklist has been adopted by all six hospital trusts and the ambulance service in the West of England, who comprise the Emergency Department Collaborative:

- University Hospitals Bristol NHS Foundation Trust
- North Bristol NHS Trust
- Royal United Hospitals Bath NHS Foundation Trust
- Great Western Hospitals NHS Foundation Trust
- Gloucestershire Hospitals NHS Foundation Trust
- Western Area Health NHS Trust
- South Western Ambulance Service NHS Foundation Trust

Roll out to these other Emergency Departments was financially supported by the West of England Patient Safety Collaborative.

The ED Safety Checklist won **Best Patient Safety Initiative in A&E** award at the 2017 Patient Safety Awards.

The judges felt that this entry had a significant impact on patient safety in period of crowding in ED. It has already spread across multiple organisations and using established tools has potential for wider spread across the UK.
