**Reading Rainbow Guide to Children's Books** Twila Christensen Liggett, Cynthia Mayer Benfield, 1996 *The Community of the Book* John Young Cole, This is a selective listing of organizations that promote books and reading administer literacy projects and encourage the study of books Compiled by Carren O Kaston The Community of the Book focuses on national programs of special interest to the Center for the Book in The Library of Congress but should be of use to the entire book community The Emphasis is on organizations in the United States where recently there has been renewed

interest in educational reform in literacy and in the future of publishing The assumption underlining this unusual directory is that a community of the book does exist and that it can be mobilized to keep books and reading central in the life of Democratic societies The listings provide a richly detailed account of 89 major resource centers providing names of directors addresses telephone numbers and founding dates In addition each listing discusses the purposes of the organization examples of its activities publications sponsored and sources of fiscal support In short the volume is intended to serve as a national catalyst for stimulating public interest in books in particular and reading in general Cole provides a pellucid opening essay on the subject Is There a Community of the Book What is surprising is not his clear affirmative answer so much as the closely argued historical and analytical study of how this community has been deepened through the conscious activities of The Library of Congress The work concludes with a brief but valuable guide to other resources ranging from publishing broadcasting bookselling libraries and book collecting and culture
