Paul Graham Paul Graham, Andrew Wilson, Gillian Wearing, Carol Squiers, 1996-10-10 Notes by the artist interviews additional contributors **Paul Graham** David Chandler, 2009 Paul Graham is part of a remarkable generation who have come to dominate art photography today This book surveys Graham's work between 1981 and 2006 revealing the themes and issues which have come to define his oeuvre **The Cumulative Book Index**, 1989 A world list of books in the English language Creative Camera, 1986 Cruel and Tender Emma Dexter, Thomas Weski, 2003-08 Published to accompany the exhibition held at Tate Modern London 5 June 7 September and Museum Ludwig Cologne 29 November 2003 18 February 2004 **Canadian Books in Print. Author and Title Index**, 1975 **Europeanization, Care and Gender** H. Dahl, M. Keränen, A. Kovalainen, 2011-10-04 This collection addresses the complexity of care arrangements in contemporary Europe developing new insights into debates about the care crisis gender equality the division of work and the reconciliation of care and work **Making Gray Gold** Timothy Diamond, 2009-06-12 This first hand report on the work of nurses and other caregivers in a nursing home is set powerfully in the context of wider political economic and cultural forces that shape and constrain the quality of care for America's elderly Diamond demonstrates in a compelling way the price that business as usual policies extract from the elderly as well as those whose work it is to care for them In a society in which some two million people live in 16 000 nursing homes with their numbers escalating daily this thought provoking work demands immediate and widespread attention An unnerving portrait of what it's like to work and live in a nursing home By giving voice to so many unheard residents and workers Diamond has performed an important service for us all Diane Cole New York Newsday With Making Gray Gold Timothy Diamond describes the commodification of long term care in the most vivid representation in a decade of round the clock institutional life A personal addition to the troublingly impersonal national debate over healthcare reform Madonna Harrington Meyer Contemporary Sociology **Artbibliographies Modern**, 1998 **Whitaker's Cumulative Book List**, 1986 **Beyond Mothering Earth** Sherilyn Macgregor, 2011-11-01 Women's environmental activism is often described in maternalist terms as if motherhood and caring for the environment go hand in hand While feminists celebrate this connection women and all those who care for people and environments are facing increasing burdens and decreasing time for civic engagement In Beyond Mothering Earth MacGregor argues that celebrations of earthcare as women's unique contribution to the search for sustainability often neglect to consider the importance of politics and citizenship in women's lives Drawing on interviews with women who juggle private caring with civic engagement in quality of life concerns she proposes an alternative a project of feminist ecological citizenship that affirms the practice of citizenship as an intrinsically valuable activity while recognizing the foundational aspects of caring labour and natural processes that allow its specificity to flourish Beyond Mothering Earth provides an original and empirically grounded understanding of women's involvement in quality of life activism and an analysis of citizenship that

makes an important contribution to contemporary discussions of green politics globalization neoliberalism and democratic justice It will be of value to scholars and activists interested in the politics of environmental sustainability and the shifting meanings of citizenship in an increasingly vulnerable world **The British National Bibliography** Arthur James

Wells,1996 **The Oxford Handbook of Levinas** Michael L. Morgan,2019-04-10 Emmanuel Levinas 1906 1995 emerged as an influential philosophical voice in the final decades of the twentieth century and his reputation has continued to flourish and increase in our own day His central themes the primacy of the ethical and the core of ethics as our responsibility to and for others speak to readers from a host of disciplines and perspectives However his writings and thought are challenging and difficult The Oxford Handbook of Levinas contains essays that aim to clarify and engage Levinas and his writings in a number of ways Some focus on central themes of his work others on the ways in which he read and was influenced by figures from Plato Hobbes Descartes and Kant to Blanchot Husserl Heidegger and Derrida And there are essays on how his thinking has been appropriated in moral and political thought psychology film criticism and more and on the relation between his thinking and religious themes and traditions Finally several essays deal primarily with how readers have criticized him and found him wanting The volume exposes and explores both the depth of Levinas s philosophical work and the range of applications to which it has been put with special attention to clarifying why his interests in the human condition the crisis of civilization the centrality and character of ethics and morality and the very meaning of human experience should be of interest to the widest range of readers *Forthcoming Books* Rose Arny,2002-04 *Canadian Books in Print* ,2003 **Books in Print** ,1994

Just Methods Alison M. Jaggar,2015-11-17 The supplemented edition of this important reader includes a substantive new introduction by the author on the changing nature of feminist methodology It takes into account the implications of a major new study included for the first time in this book on poverty and gender in equality and it includes an article discussing the ways in which this study was conducted using the research methods put forward by the first edition This article begins by explaining why a new and better poverty metric is needed and why developing such a metric requires an alternative methodological approach inspired by feminism Feminist research is a growing tradition of inquiry that aims to produce knowledge not biased by inequitable assumptions about gender and related categories such as class race religion sexuality and nationality Just Methods is designed for upper level undergraduate and graduate students in a range of disciplines Rather than being concerned with particular techniques of inquiry the interdisciplinary readings in this book address broad questions of research methodology They are designed to help researchers think critically and constructively about the epistemological and ethical implications of various approaches to research selection and research design evidence gathering techniques and publication of results A key theme running through the readings is the complex interrelationship between social power and inequality on the one hand and the production of knowledge on the other A second and related theme is the inseparability of research projects and methodologies from ethical and political values **Art Index**
