Paul Gauguin The Mysterious Centre Of Thought:

Paul Gauguin Dario Gamboni, 2014-09-15 French artist Eug ne Henri Paul Gauguin 1848 1903 once reproached the Impressionists for searching around the eye and not at the mysterious centre of thought But what did he mean by this enigmatic phrase In this innovative investigation into Gauguin's art and thought Dario Gamboni illuminates Gauguin's quest for this mysterious centre and offers a fresh look at the artist s output in all media from ceramics and sculptures to prints paintings and his large corpus of writings Foregrounding Gauguin's conscious use of ambiguity Gamboni unpacks what the artist called the language of the listening eye Gamboni shows that the interaction between perception cognition and imagination was at the core of Gauguin's work and he traces a line of continuity in them that has been previously overlooked Emulating Gauguin's wide ranging curiosity with literature psychology theology and the natural sciences not to mention the whole of art history this richly illustrated book provides new insight into the life and works of this well known yet little understood artist Gauguin's Challenge Norma Broude, 2018-03-08 Several decades have now passed since postcolonial and feminist critiques presented the art historical world with a demythologized Paul Gauguin 1848 1903 a much diminished image of the artist hero who had once been universally admired as the father of modernist primitivism In this volume both long established and more recent Gauguin scholars offer a provocative picture of the evolution of Gauguin scholarship in the recent postmodern era as they confront and consider how the dismantling of the longstanding Gauguin myth positions us now in the 21st century to deal with and assess the life work and legacy of this still perennially popular artist To reassess the challenges that Gauguin faced in his own day as well as those that he continues to present to current and future scholarship they explore the multiple contexts that influenced Gauguin's thought and behavior as well as his art and incorporate a variety of interdisciplinary approaches from anthropology philosophy and the history of science to gender studies and the study of Pacific cultural history Dealing with a wide range of Gauguin's production they challenge conventional art historical thinking highlight transnational perspectives and offer clues to the direction of future scholarship as audiences worldwide seek to make multicultural peace with Gauguin and his art Broude has raised the bar of Gauguin scholarship ever higher in this groundbreaking volume which will be necessary reading for students and scholars of art history late 19th century French and Gauguin Gloria Lynn Groom, 2017-01-01 An unprecedented exploration of Pacific culture gender studies and beyond Gauguin's works in various media from works on paper to clay and furniture Paul Gauguin 1848 1903 was a creative force above and beyond his legendary work as a painter Surveying the full scope of his career spanning experiments in different media and formats clay works on paper wood and paint as well as furniture and decorative friezes this volume delves into his enduring interest in craft and applied arts reflecting on their significance to his creative process Gauguin Artist as Alchemist draws on extensive new research into the artist s working methods presenting him as a consummate craftsman one whose transmutations of the ordinary yielded new and remarkable forms Beautifully designed and illustrated this book includes

essays by an international team of scholars who offer a rich analysis of Gauguin's oeuvre beyond painting By embracing other art forms which offered fewer dominant models to guide his work Gauguin freed himself from the burden of artistic precedent In turn these groundbreaking creative forays especially in ceramics gave new direction to his paintings The authors insightful emphasis on craftsmanship deepens our understanding of Gauguin's considerable achievements as a painter draftsman sculptor ceramist and printmaker within the history of modern art Getty Research Journal, No. 13 Gail Feigenbaum, 2021-03-09 The Getty Research Journal features the work of art historians museum curators and conservators around the world as part of Getty's mission to promote the presentation conservation and interpretation of the world's artistic legacy Articles present original scholarship related to Getty collections initiatives and broad research interests This issue features essays on a Parthian stag rhyton and new epigraphic and technical discoveries gendered devotion and owner portraits in illuminated manuscripts from northern France around 1300 a technical analysis of heraldic devices in a missal from Renaissance Bologna a new social and collective practice of drawing among French architect pensionnaires of the 1820s and 1830s at Pompeii artist Malvina Hoffman's representations of race during her travels to Southeastern Europe as part of her work with the American Yugo Slav Relief Raimundo de Madrazo y Garreta s painting Reverie The Letter and the small world sensation as a methodology for global art history arguments that disprove the attribution of the I Paul Getty Museum's sculpture Head with Horns to artist Paul Gauguin Head with Horns and Gauguin's creative appropriation of objects and the unpublished first draft of critic Clement Greenberg's essay Towards a Newer Gauguin Belinda Thomson, 2021-04-06 This authoritative account of the life and work of Paul Gauguin one of Laocoon the most original artists of the late nineteenth century is revised and updated with color illustrations throughout Artist Paul Gauguin achieved a high public profile during his lifetime and was one of the first artists of his generation to achieve international recognition But his prominence has always been tangled up with the dramatic and problematic events of his life his self imposed exile on a remote South Sea island and his turbulent relationships with his peers as with the appeal of his art In this revised and updated edition art historian Belinda Thomson gives a comprehensive and accessible account of the life and work of one of the most complicated artists of the late nineteenth century Gauguin's painting sculpture prints and ceramics are discussed in the light of his public persona his relations with his contemporaries his exhibitions and their critical reception His private world beliefs and aspirations emerge through his extensive cache of journals letters and other writings Fully illustrated in color and drawing on the new more global conversation surrounding the artist Gauguin is the definitive volume on this controversial and often contradictory figure Gauguin and Polynesia Nicholas Thomas, 2024-02-01 Paul Gauguin is commonly regarded as one of the greatest modern artists He is renowned for resplendent mythic imagery from Oceania for a life of restless travel and for his supposed immersion in Polynesian life But he has long been regarded ambivalently and in recent years both Gauguin's sexual behaviour and his paintings have been

considered exploitative Gauguin and Polynesia offers a fresh view on the artist not from the perspective of European art history but from the contemporary vantage point of the region Oceania which he so famously moved to Gauguin s art is revealed for the first time to be richer and more eclectic than has been recognised. The artist indeed did invent enigmatic and symbolic images but he also depicted Polynesia's colonial modernity acknowledging the life of the time and the dignity and power of some of the Islanders he encountered Gauquin and Polynesia neither celebrates nor condemns an extraordinary painter who at times denounced and at other times affirmed the French empire that shaped his own life and the places he moved between It is a revelation of a formative artist of modern life and of multicultural worlds in the making Tales Linda Goddard, 2019-09-03 An original study of Gauguin's writings unfolding their central role in his artistic practice and negotiation of colonial identity As a French artist who lived in Polynesia Paul Gauguin 1848 1903 occupies a crucial position in histories of European primitivism This is the first book devoted to his wide ranging literary output which included journalism travel writing art criticism and essays on aesthetics religion and politics It analyzes his original manuscripts some of which are richly illustrated reinstating them as an integral component of his art The seemingly haphazard collage like structure of Gauguin's manuscripts enabled him to evoke the primitive culture that he celebrated while rejecting the style of establishment critics Gauguin's writing was also a strategy for articulating a position on the margins of both the colonial and the indigenous communities in Polynesia he sought to protect Polynesian society from civilization but remained implicated in the imperialist culture that he denounced This critical analysis of his writings significantly enriches our understanding of the complexities of artistic encounters in the French colonial context Publisher's description **Dark Tovs** David Hopkins, 2021-01-01 A wide ranging look at surrealist and postsurrealist engagements with the culture and imagery of childhood We all have memories of the object world of childhood For many of us playthings and images from those days continue to resonate Rereading a swathe of modern and contemporary artistic production through the lens of its engagement with childhood this book blends in depth art historical analysis with sustained theoretical exploration of topics such as surrealist temporality toys play nostalgia memory and 20th century constructions of the child The result is an entirely new approach to the surrealist tradition via its engagement with childish things Providing what the author describes as a long history of surrealism this book plots a trajectory from surrealism itself to the art of the 1980s and 1990s through to the present day It addresses a range of figures from Marcel Duchamp Giorgio de Chirico Max Ernst Hans Bellmer Joseph Cornell and Helen Levitt at one end of the spectrum to Louise Bourgeois Eduardo Paolozzi Claes Oldenburg Susan Hiller Martin Sharp Helen Chadwick Mike Kelley and Jeff Koons at the other On Modern Beauty Richard R. Brettell, 2019-06-11 A thought provoking examination of beauty using three works of art by Manet Gauguin and C zanne As the discipline of art history has moved away from connoisseurship the notion of beauty has become increasingly problematic Both culturally and personally subjective the term is difficult to define and nearly universally avoided In this insightful book Richard R Brettell

one of the leading authorities on Impressionism and French art of the nineteenth and early twentieth centuries dares to confront the concept of modern beauty head on This is not a study of aesthetic philosophy but rather a richly contextualized look at the ambitions of specific artists and artworks at a particular time and place Brettell shapes his manifesto around three masterworks from the collection of the J Paul Getty Museum douard Manet's Jeanne Spring Paul Gauguin's Arii Matamoe The Royal End and Paul C zanne s Young Italian Woman at a Table The provocative and wide ranging discussion reveals how each of these exceptional paintings though depicting very different subjects a fashionable actress a preserved head and a weary working woman enacts a revolutionary yet enduring icon of beauty **Res** Francesco Pellizzi, 2014-03-10 RES 63 64 includes Source and trace by Christopher S Wood Timelessness fluidity and Apollo s libation by Milette Gaifman A liquid history Blood and animation in late medieval art by Beate Fricke Guercino s wet drawing by Nicola Suthor The readymade metabolized Fluxus in life by David Joselit and other papers Painting with Monet Harmon Siegel, 2024-04-16 An examination of the paintings Monet made en plein air alongside his artist colleagues and the meaning and impact that this practice had on his fellow impressionists Paul Gauguin Anna Barskaya, 2011-07-01 Paul Gauguin was first a sailor then a successful stockbroker in Paris In 1874 he began to paint at weekends as a Sunday painter Nine years later after a stock market crash he felt confident of his ability to earn a living for his family by painting and he resigned his position and took up the painter's brush full time Following the lead of C zanne Gauguin painted still lifes from the very beginning of his artistic career He even owned a still life by C zanne which is shown in Gauguin's painting Portrait of Marie Lagadu The year 1891 was crucial for Gauguin In that year he left France for Tahiti where he stayed till 1893 This stay in Tahiti determined his future life and career for in 1895 after a sojourn in France he returned there for good In Tahiti Gauguin discovered primitive art with its flat forms and violent colours belonging to an untamed nature With absolute sincerity he transferred them onto his canvas His paintings from then on reflected this style a radical simplification of drawing brilliant pure bright colours an ornamental type composition and a deliberate flatness of planes Gauguin termed this style synthetic symbolism Gogh's Sunflowers Illuminated Ella Hendriks, Marije Vellekoop, Maarten Bommel, Muriel Geldof, 2025-10-01 Vincent van Gogh s Sunflowers are seen by many as icons of Western European art Two of these masterpieces the first version painted in August 1888 The National Gallery London and the painting made after it in January 1889 Van Gogh Museum Amsterdam have been the subject of a detailed comparison by an interdisciplinary team of experts The pictures were examined in unprecedented depth using a broad array of techniques including state of the art non invasive imaging analytical methods to look closely at and under the paint surface Not only the making but also the subsequent history of the works was reconstructed including later campaigns of restoration The study s conclusions are set out in this book along with the fascinating genesis of the paintings and the sunflower's special significance to Van Gogh More than 30 authors all specialists in the field of conservation conservation science and art history have contributed to the research and publication presenting

The Brain-Eye Eric Alliez, 2015-12-11 A detailed and inventive study of the thinking at work in modern painting drawing on a formidable body of scholarly evidence to challenge modernist and phenomenological readings of art history The Brain Eye presents a series of interlinked case studies in which philosophical thought encounters the hallucinatory sensations unleashed by painter researchers Rather than outlining a new philosophy of art The Brain Eye details the singular problems pursued by each of its protagonists Striking readings of the oeuvres of Delacroix Seurat Manet Gauguin and C zanne recount the plural histories of artists who worked to free the differential forces of colour discovered by Goethe in his Colour Theory in the name of a true hallucination and of a logic proper to the Visual A rigorous renewal of the philosophical thinking of visual art The Brain Eye explores the complex relations between concept and sensation theory and practice the discursive and the visual and draws out the political and philosophical stakes of the aesthetic revolution in modern painting Van Gogh's Bedrooms Louis van Tilborgh, David J. Getsy, 2016-01-01 Catalogus **the XIX Century** Gabriel Mourey,1928 bij de tentoonstelling van schilderijen die Van Gogh maakte van de slaapkamers in de 37 huizen waar hij gedurende zijn leven woonde Primitivism, Cubism, Abstraction Charles Harrison, Francis Frascina, Professor Francis Frascina, Gillian Perry, 1993-01-01 On art in the early 20th century A Forest of Symbols Andrei Pop, 2019-09-27 In this groundbreaking book Andrei Pop presents a lucid reassessment of those writers and artists in the late nineteenth century whose work merits the adjective symbolist For Pop this term denotes an art that is self conscious about its modes of making meaning and he argues that these symbolist practices which sought to provide more direct access to the viewer by constant revision of its material means of meaning making brushstrokes on a canvas words on a page are crucial to understanding the genesis of modern art The symbolists saw art not as a social revolution but a revolution in sense and in how we conceptualize the world At the same time the concerns of symbolist painters and poets were shared to a remarkable degree by theoretical scientists of the period especially by mathematicians and logicians who were dissatisfied with the strict empiricism dominant in their

disciplines and which made shared knowledge seem unattainable A crisis of sense made art and science look for conceptual foundations underlying the diverging subjective responses and perceptions of individuals Unlike other studies of this period Pop s focus is not on how individual artists may have absorbed bits of scientific theories but rather on the philosophical questions that were relevant to both domains The problem of subjectivity in particular of what in one s experience can and cannot be shared was crucial to the possibility of collaboration within science and to the communication of artistic innovation Pop s brilliant close readings of the literary and visual practices of Manet and Mallarm of drawings by Ernst Mach William James and Wittgenstein of experiments with color by Bracquemond and Van Gogh and of the philosophical systems of Frege and Russell add up to a startling but coherent picture of the symbolist heritage of modernity and its consequences

Landscape and Earth in Early Modernity Christine Göttler, Mia Mochizuki, 2025-10-01 Early modern views of nature and the earth upended the depiction of land Landscape emerged as a site of artistic exploration at a time when environments and ecologies were reshaped and transformed This volume historicizes the contingency of an ever changing elemental world reframing and reimagining landscape as a mediating space in the interplay between the natural and the artificial the real and the imaginary the internal and the external The lens of the unruly reveals the latent landscapes that undergirded their conception the elemental resources that resurfaced from the bowels of the earth the staged topographies that unsettled the boundaries between nature and technology and the fragile ecologies that undermined the status quo of human environs Landscape and Earth in Early Modernity Picturing Unruly Nature argues for an art history attentive to the vicissitudes of circumstance and attributes the regrounding of representation during a transitional age to the unquiet landscape
