Paul Nizan Committed Literature In A Conspiratorial World:

Paul Nizan W. Redfern, 2015-03-08 Sartre's friend and sometime rival Paul Nizan was a prototype of the angry young man. Ideologically a Marxist, politically a Communist, professionally a writer, endowed Sartre conceded with a sharper mind and greater literary ability than his own. Nizan diagnosed the ills of French society in the 1930s. His writings vilified by the Party, he left in September 1939, are being rediscovered in France. W. D. Redfern gives now the first full-length appraisal in English of his life and work. Nizan as a writer and a critical intelligence is seen in Mr. Redfern's analysis of his radical imagination and its deployment in his novels, polemical essays, journalism, and correspondence. His place among his contemporaries is also assessed. Mr. Redfern thus illuminates the political and literary worlds of the philosophical rebels: Bertolt Brecht, Friedrich Mann, the Communists, and idealists Aragon, Malraux, Weil in Paris during the 1920s and 1930s. Originally published in 1972, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. Historical Dictionary of French Literature John Flower, 2013-01-17. Almost all of us know French literature even if we don't know French because it is probably the second largest and certainly the most translated into English. And even if we don't read, we would have seen film and television versions, think *Count of Monte Cristo* and even a musical rendition *Les Mis*. So this is a particularly interesting volume in the literature series since it covers French literature.

from the earliest times to the present It is also a particularly rich literature espousing every genre from poetry to novel to biography to drama and adopting every style including realism and surrealism and expressing the views of all classes and political stands with recently strong feminist and gay strains Obviously the core dictionary section includes among its panoply of often substantial and detailed entries hundreds of authors dozens of significant works the various styles mentioned above and many others events that have impacted literature such as the Dreyfus Affair and the Algerian War and literary prizes The chronology manages to cover about 1 200 years of literary output And the introduction sets it all out neatly from one historical and literary period to the next The bibliography broken down by period and author directs us to further reading in both French and English *Encyclopedia of Modern French Thought* Christopher John

Murray, 2013-01-11 In this wide ranging guide to twentieth century French thought leading scholars offer an authoritative multi disciplinary analysis of one of the most distinctive and influential traditions in modern thought Unlike any other existing work this important work covers not only philosophy but also all the other major disciplines including literary theory sociology linguistics political thought theology and more **French Political Travel Writing in the Interwar Years**

Martyn Cornick, Martin Hurcombe, Angela Kershaw, 2017-02-10 This book studies travel writing produced by French authors between the two World Wars following visits to authoritarian regimes in Europe and the Union of Soviet Socialist Republics USSR It sheds new light on the phenomenon of French political travel in this period by considering the well documented appeal of Soviet communism for French intellectuals alongside their interest in other radical regimes which have been much less studied fascist Italy the Iberian dictatorships and Nazi Germany Through analyses of the travel writing produced as a result of such visits the book gauges the appeal of these forms of authoritarianism for inter war French intellectuals from a broad political spectrum It examines not only those whose political sympathies with the extreme right or extreme left were already publicly known but also non aligned intellectuals who were interested in political models that offered an apparently radical alternative to the French Third Republic This study shows how travel writing provided a space for reflection on the lessons France might learn from the radical political experiments of the inter war years It argues that such writing can usefully be read as a form of utopian thinking distinguishing this from colloquial understandings of utopia as an ideal location Utopianism is understood neither as a fantasy ungrounded in the real nor as a dangerously totalitarian ideal but in line with Karl Mannheim Paul Ricœur and Ruth Levitas as a form of non congruence with the real that it seeks to transcend The utopianism of French political travel writing is seen to lie not in the attempt to portray the destination visited as utopia but rather in the pursuit of a dialogue with radical political alterity **The Cambridge Companion to the French Novel**

Timothy Unwin, 1997-10-28 This volume offers a unique and valuable insight into the novel in French over the past two centuries In a series of essays acknowledged experts discuss a variety of topics including nineteenth century realism women and fiction popular fiction experiment and innovation war and the Holocaust the Francophone novel and postmodern fiction

They offer a challenging reassessment of major figures while deliberately reading traditional views of literary history against the grain. Theoretical discussion is combined with close reading of texts and exploration of context, comparison with other genres and other literatures, and reference to novels from earlier periods. This companionable introduction includes a chronology and guide to further reading. From it emerges a strong sense of the vitality and energy of the modern French novel and of the debates surrounding it.

The Spectrum of Political Engagement David L. Schalk, 2015-03-08 Why do artists, poets, philosophers, writers, and others who are usually classified as intellectuals leave the ivory tower to dirty their hands in the political arena? In an effort to illuminate the intellectual's struggle to come to grips with the issues raised by political involvement, David Schalk examines the life and thought of five intellectuals engaged in France during the period between 1920 and 1945. From communist to fascist, these figures—Paul Nizan, Jean-Paul Sartre, Emmanuel Mounier, Julien Benda, and Robert Brasillach—cover the full political spectrum, and Professor Schalk studies their diverse reactions to the social, political, and economic tensions of the interwar period. Broadly defining engagement as political involvement that is voluntary, conscious, and freely chosen, usually by intellectuals, the author poses the intellectual's dilemma in the following terms: When we are engaged, he writes, we fear that we are debasing our highest values; when we are not, we worry that we have become, in Paul Nizan's trenchant phrase, *mere chiens de garde* (watchdogs). He then investigates the origins and the popularization of the concept of engagement in the early 1930s, the arguments used to denounce it and to defend it, its different manifestations, and finally its effects on the socio-political actuality of the world. Originally published in 1979, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. Marxism and Totality Martin Jay, 1984 Totality has been an abiding concern from the first generation of Western Marxists most notably Lukács Korsch Gramsci and Bloch through the second exemplified by the Frankfurt School Lefebvre Goldmann Sartre Merleau Ponty and Della Volpe up to the most recent typified by Althusser Colletti and Habermas Yet no consensus has been reached concerning the term's multiple meanings expressive decentered longitudinal latitudinal normative or its implications for other theoretical and practical matters By closely following the adventures of this troublesome but central concept Marxism Totality offers an unconventional account of the history of Western Marxism

Jameson on Jameson Fredric Jameson, 2007-12-26 A collection of interviews with Fredric Jameson over a 20 year period

Methodology: Who Needs It? Martyn Hammersley, 2010-12-14 The literature on social science methods and the issues surrounding them has grown massively and continues to increase Yet many social scientists are ambivalent about methodology For some it plays a central perhaps even an all encompassing role while for others it is desirable only in small amounts or indeed is regarded as an irrelevance as a distraction from actually doing research In this book Hammersley argues that in large part this reflects and is part of a wider problem the gradual decline of a previously influential academic model of inquiry This has occurred as a result of ideological challenges and the erosion of the institutional conditions that support academic work He defends this model spelling out the demands it places upon social scientists and examining such issues as the proper role of methodology the nature of objectivity the false idea that social scientists should be intellectuals or social critics the dialectic of academic discussion the ethics of belief and the limits of academic freedom More broadly he also questions the role of the social research within society and what it means to be a social scientist in the 21st century

Hammersley's book is engagingly written and controversial. It tackles the major issues of contemporary social research methodology head on and is an essential read for anyone with an interest in this field. Understanding Henri Lefebvre Stuart Elden, 2004-03-01 Henri Lefebvre has been celebrated as one of the most influential social theorists of the twentieth century. Understanding Henri Lefebvre places Lefebvre in his historical and intellectual context and analyzes the extraordinary range of his work across politics, philosophy, history, literature, and culture. Particular emphasis is given to Lefebvre's trilogy of inspirational thinkers: Hegel, Marx, and Nietzsche; his links to contemporaries such as Heidegger, Arendt, and the Situationists; and his critiques of existentialism and structuralism. Analysis of his writings on cities are balanced with those on rural communities, the production of space connected to ideas of time and history, and everyday life linked to the festival and cultural revolution. Understanding Henri Lefebvre offers the most wide-ranging and reliable account of this central theorist available. *Visions of Political Violence* Vincenzo Ruggiero, 2019-07-24 In this book, Vincenzo Ruggiero offers a typology of different forms of political violence. From systemic and institutional violence to the behaviour of crowds to armed conflict and terrorism, Ruggiero draws on a range of perspectives from criminology, social theory, political science, critical legal studies, and literary criticism to consider how these forms of violence are linked in an interdependent field of forces. Ruggiero argues that systemic violence encourages more institutional violence, which in turn weakens the ability of citizens to set up political agendas for change. He advocates for a reduction of all types of violence, which can be enacted through fairer distribution of resources and the provision of political space for contention and negotiation. This book will be of interest to all those engaged in research on violence, terrorism, armed conflict, and the crimes of the powerful. It makes an important contribution to criminological and social theory. **Downcast Eyes** Martin Jay, 1993-10-01 Long considered the noblest of the senses, vision has increasingly come under critical scrutiny by a wide range of thinkers who question its dominance in Western culture. These critics of vision, especially prominent in twentieth-century France, have challenged its allegedly superior capacity to provide access to the world. They have also criticized its supposed complicity with political and social oppression through the promulgation of spectacle and surveillance. Martin Jay turns to this discourse surrounding vision and explores its often contradictory implications in the work of such influential figures as Jean-Paul Sartre, Maurice Merleau-Ponty, Michel Foucault, Jacques Lacan, Louis Althusser, Guy Debord, Luce Irigaray, Emmanuel Levinas, and Jacques Derrida. Jay begins with a discussion of the theory of vision from Plato to Descartes, then considers its role in the French Enlightenment before turning to its status in the culture of modernity. From consideration of French Impressionism to analysis of Georges Bataille and the Surrealists, Roland Barthes's writings on photography, and the film theory of Christian Metz, Jay provides lucid and fair-minded accounts of thinkers and ideas widely known for their difficulty. His book examines the myriad links between the interrogation of vision and the pervasive antihumanist, antimodernist, and counter-enlightenment tenor of much recent French thought. Refusing, however, to defend the dominant visual order, he calls instead

for a plurality of scopic regimes Certain to generate controversy and discussion throughout the humanities and social sciences Downcast Eyes will consolidate Jay s reputation as one of today s premier cultural and intellectual historians
