Principles of Microeconomics N. Gregory Mankiw, 2004. In writing this textbook, Mankiw has tried to put himself in the position of someone seeing economics for the first time. The

author's conversational writing style is superb for presenting the politics and science of economic theories to tomorrow's decision makers. Because Mankiw wrote it for the students, the book stands out among all other principles texts by encouraging students to apply an economic way of thinking in their daily lives. Receiving such a praise as perhaps the best ever textbook in economic principles, it's no wonder Mankiw's prize project has quickly become one of the most successful books ever to be published in the college marketplace. *Macroeconomics* William Boyes, 1999-01-01
