Samuel,2015-11-01 American history is ubiquitous underscoring everything from food to travel to architecture and design It is also emotionally charged frequently crossing paths with political and legal issues In Remembering America Lawrence R Samuel examines the place that American history has occupied within education and popular culture and how it has continually shaped and reflected our cultural values and national identity The story of American history Samuel explains is not a straight line but rather one filled with twists and turns and ups and downs its narrative path as winding as that of the United States as a whole Organized around six distinct eras of American history ranging from the 1920s to the present Samuel shows that our understanding of American history has often generated struggle and contention as ideologically opposed groups battled over ownership of the past As women and minorities gained greater power and a louder voice in the national conversation our perspectives on American history became significantly more multicultural bringing race gender and class issues to the forefront These new interpretations of our history helped to reshape our identity on both a national and an individual level Samuel argues that the fight for ownership of our past combined with how those owners have imparted history to our youth crucially affects who we are Our interpretation and expression of our country s past reflects how that self identity has changed over the last one hundred years and created a strong sense of our collective history one of the few things Americans all have in common *Brookings Papers on Education Policy: 2005* Diane Ravitch,2010-12-01 Contents include Test Based Accountability The Promise and the Perils Tom Loveless Brookings Can the Federal Government Improve Education Research Brian Jacob Harvard University and Jens Ludwig Georgetown University Realizing the Promise of Brand Name Schools Steven F Wilson Harvard University School Choice How an Abstract Idea Became a Political Reality Joseph P Viteritti Hunter College CUNY Education Reform and Content The Long View E D Hirsch Jr Core Knowledge Foundation Evidence Based Reading Policy in the United States How Scientific Research Informs Instructional Practices Reid Lyon and Vinita Chhabra National Institutes of Health and Sally E Shaywitz and Bennett A Shaywitz Yale University
