**Flip the Script** J. Griffith Rollefson, 2017-10-23 Hip hop has long been a vehicle for protest in the United States used by its primarily African American creators to address issues of prejudice repression and exclusion But the music is now a worldwide phenomenon and outside the United States it has been taken up by those facing similar struggles Flip the Script offers a close look at the role of hip hop in Europe where it has become a politically powerful and commercially successful form of expression for the children and grandchildren of immigrants from former colonies Through analysis of recorded music and other media as well as interviews and fieldwork with hip hop communities J Griffith Rollefson shows how this music created by black Americans is deployed by Senegalese Parisians Turkish Berliners and South Asian Londoners to both differentiate themselves from and relate themselves to the dominant culture By listening closely to the ways these postcolonial citizens in Europe express their solidarity with African Americans through music Rollefson shows we can literally hear the hybrid realities of a global double consciousness

plastics social justice regenerative farming Sustainability related trends such as plant based foods and electric vehicles are showing steep growth and creating tomorrow s superbrands Impossible TESLA This book is packed with up to date learnings case examples and trends covering everything from eco labelling transparency and the circular economy to rebound effects sustainable finance blockchain and regenerative farming A core message being that to drive sustainability marketers firstly do really need to properly understand sustainability its many applications and implications Secondly to be effective marketers need to understand what it means to their consumers and other significant audiences Hence the book takes a long hard look at what was driving all the protests boycotts and petitions in 2019 and what ideas causes and platforms caught the public imagination The ultimate goal is to go beyond marketing that simply looks good to marketing that does good This book helps in achieving that goal by showing the reader how to Uncover strategies for sustainable marketing that actually deliver on green and social objectives not just greenwashing Reconceptualise marketing and business models and learn to recognise the commercial strategies and approaches that are no longer fit for purpose Learn how hot topics like the climate crisis biodiversity social justice single use plastics and supply chain transparency influence green and social marketing Read about numerous examples and case studies from both brand leaders and challengers that have developed innovations and fresh creative approaches to green and social marketing Get practical tools models facts strategies workshop and project processes and business case rationales so that you can build your own plans and proposals This book is intended to assist marketers by means of clear and practical guidance through a complex transition towards meaningful marketing that makes a positive creative impact on the climate crisis and on improving human life in troubled times Aimed both at big companies that are trying to be good and good companies that are trying to be big

**History of International Relations** Erik Ringmar, 2019-08-02 Existing textbooks on international relations treat history in a cursory fashion and perpetuate a Euro centric perspective This textbook pioneers a new approach by historicizing the material traditionally taught in International Relations courses and by explicitly focusing on non European cases debates and issues The volume is divided into three parts The first part focuses on the international systems that traditionally existed in Europe East Asia pre Columbian Central and South America Africa and Polynesia The second part discusses the ways in which these international systems were brought into contact with each other through the agency of Mongols in Central Asia Arabs in the Mediterranean and the Indian Ocean Indic and Sinic societies in South East Asia and the Europeans through their travels and colonial expansion The concluding section concerns contemporary issues the processes of decolonization neo colonialism and globalization and their consequences on contemporary society History of International Relations provides a unique textbook for undergraduate and graduate students of international relations and anybody interested in international relations theory history and contemporary politics

Science and Technology in World History James E. McClellan III, Harold Dorn, 2015-12-15 Arguably the best general history of science and technology ever published Tracing the relationship between science and technology

from the dawn of civilization to the early twenty first century James E McClellan III and Harold Dorn's bestselling book argues that technology as applied science emerged relatively recently as industry and governments began funding scientific research that would lead directly to new or improved technologies McClellan and Dorn identify two great scientific traditions the useful sciences which societies patronized from time immemorial and the exploration of questions about nature itself which the ancient Greeks originated The authors examine scientific traditions that took root in China India and Central and South America as well as in a series of Near Eastern empires in late antiquity and the Middle Ages From this comparative perspective McClellan and Dorn survey the rise of the West the Scientific Revolution of the seventeenth century the Industrial Revolution and the modern marriage of science and technology They trace the development of world science and technology today while raising provocative questions about the sustainability of industrial civilization This new edition of *Science and Technology in World History* offers an enlarged thematic introduction and significantly extends its treatment of industrial civilization and the technological supersystem built on the modern electrical grid The Internet and social media receive increased attention Facts and figures have been thoroughly updated and the work includes a comprehensive Guide to Resources incorporating the major published literature along with a vetted list of websites and Internet resources for students and lay readers

**The Cinema of Richard Linklater** Rob Stone, 2018-04-10 From Slacker 1991 a foundational work of independent American cinema to the *Before* trilogy Richard Linklater's critically acclaimed films and aesthetic ambition have earned him a place as one of the most important contemporary directors In this second edition of *The Cinema of Richard Linklater* Rob Stone shows how Linklater's latest films have redefined our understanding of his work He offers critical discussions and analysis of all of Linklater's films including *Before Midnight* 2013 and *Everybody Wants Some* 2016 as well as new interviews with Linklater and a chapter on *Boyhood* 2014 hailed as one of the best films of the twenty first century Stone explores the theoretical practical contextual and metaphysical elements in Linklater's filmography especially his experimentation with cinematic representations of time and growth He demonstrates that fanciful lives and lucid dreams are as central as alternative notions of America and time to Linklater's films Stone also considers Linklater's collaborative working practices his deployment of such techniques as rotoscoping and his innovative distribution strategies Thoroughly revised updated and extended the book includes analysis of all of Linklater's films including *Dazed and Confused* 1993 *Waking Life* 2011 and *A Scanner Darkly* 2006 as well as his documentaries short films and side projects

Hebrew languages in south and south east Asia including Hindi Tamil Burmese and Thai as well as in east Asia including Chinese Japanese and Korean reflections on ancient languages such as Sumerian Egyptian Linear B and Mayan a final chapter which sets out a typology of writing systems All of the languages covered are contextualised by authentic illustrations including road signs personal names and tables to demonstrate how theoretical research can be applied to the real world Taking a unique geographical focus that guides the reader on a journey across time and continents this book offers an engaging introduction for students approaching for the first time the phonetics of writing systems their typology and the origins of scripts

**How Twitter Made Him Great Again** Laura Maya, 2018-10-28 Upon the initial declaration of his candidacy few people gave the reality television star a chance of success in the presidential election Late night show hosts made jokes the media speculated on his possible early exit and rival politicians treated him with disdain However the adept use of Twitter served to strengthen the campaign branding him with populist appeal while garnering an increasing base that thrived on his nationalist anti immigrant rhetoric For both the Republican primary and the general election Twitter served as the great equalizer Additionally his ever growing base of followers allowed him to communicate directly with the world circumventing news coverage This was particularly critical in the creation of a brand that painted the media as purveyors of fake news creating dissonance and encouraging the acceptance of a false narrative Astonishingly the people listened allowing the narrative to be changed Furthermore the simplicity of Twitter allowed the campaign to thrive The candidate could respond to critics with a simple click leaving an overly simplistic retort that could be retweeted by his millions of followers This further helped to create a narrative Twitter allowed his tweets to largely go viral His more outrageous tweets garnered even more sharing and retweets on the platform yielding more free publicity While other candidates focused on traditional campaign methods Twitter kept the reality television star constantly in the spotlight frequently his leading stories were on the nightly news headline Twitter essentially allowed him to channel his brash style into an easy to digest public image of an entrepreneurial businessman who has of non political background an outsider focused on translating his business success into significant governmental reform as he starts his new journey venture into the White House
