Cowan, 2005 In *Cyberhenge* Douglas E Cowan brings together two fascinating and virtually unavoidable phenomena of contemporary life the Internet and the new religious movement of Neopaganism For growing numbers of Neopagans Wiccans Druids Goddess worshippers and others the Internet provides an environment alive with possibilities for invention innovation and imagination From angel channeling biorhythms and numerology to e covens and cybergroves where neophytes can learn everything from the Wiccan Rede to spellworking Cowan illuminates how and why Neopaganism is using Internet technology in fascinating new ways as a platform for invention of new religious traditions and the imaginative performance of ritual This book is essential reading for students and scholars of new religious movements and for anyone interested in the intersections of technology and faith What Do Pagans Believe? Graham Harvey, 2013-08-29 Paganism is among the fastest growing religions in the world It is most commonly expressed in the celebration of seasonal festivals such as the solstices through the use of magic and in attempts to make changes in the world or in individual consciousness Among the number of different paths to paganism are Druidry Wicca Heathenry and Goddess Spirituality all of which celebrate nature Paganism engages with some of the chief concerns of this age ecology and feminism for example It draws on ancient sources but allows individuals to explore their current relevance At its heart Paganism encourages people to live respectfully alongside all life and not to raise humanity above any other species Graham Harvey explores Paganism s appeal and gives a clear insight into its key beliefs Her Hidden Children Chas Clifton, 2006 The history of any religious movement can get murky But the history of American Paganism with so many invented lineages so many solitary practitioners so much resistance to staid definition so much hiddenness is especially hard to decipher But
