a historical sociological point of view to describe how the nation's emerging literary field helped pave the way for the constitutional entrenchment of this right in 1994. On the basis of institutional and poetological analyses of all the legal trials concerning literature that were held in South Africa during the period 1910-2010, it describes how the battles fought in and around the courts between literary, judicial and executive elites eventually led to a constitutional exception for literature. As the South African judiciary displayed an ongoing orientation towards both English and American law in this period, the analyses are firmly placed in the context of developments occurring concurrently in these two legal systems.
