Evolving Multicultural Education for Global Classrooms Gordon, Richard Keith, Ahmed, Kawser, Hosoda, Miwako, 2021-06-18 Multicultural education is a construct that has been very useful for many years in harboring sensitivities teachers need in addressing diverse students Now the discipline needs refreshing In the global society the idea of multicultural education a decidedly Western formation needs to expand its conceptual boundaries Salient issues in multicultural education such as individual identities social justice and equity are bedrock concerns of multicultural educators These concepts are considered necessary but not sufficient in shaping an evolving model of multicultural education The complexity of humans and modern and emerging societies requires a broadened scope of the understanding of contemporary multicultural theory and practice Evolving Multicultural Education

for Global Classrooms addresses multicultural education from a comprehensive viewpoint that acknowledges the historical benefit of multicultural education and recognizes a need to inform the discipline with a broader viewpoint. As most knowledge on multicultural education comes from a Western perspective and the scholarship on the topic is weakening, the chapters in this book present new practices and classroom applications that are internationally transferable. Topics covered include teacher education, social justice, educational equity and inclusion, online education and cultural sensitivities. This book is ideally intended for teachers, educational theorists, sociologists of education, inservice and preservice teachers, administrators, teacher educators, practitioners, researchers, academicians and students interested in a fresh global perspective on multicultural education.

From Pedagogy to Andragogy Leslie A. Cordie, 2025-06-20. Featuring contributions from experts across various countries, this book explores how higher education systems are adapting to the specific needs of adult learners while engaging with global trends. *Transform Your Math Class Using Asset-Based Teaching for Grades 6-12* Michael D. Steele, Joleigh Honey, 2024-07-30. Foster a love of mathematics by creating a more inclusive and empowering learning environment through asset-based teaching. An asset-based perspective on math education means starting with what students already know instead of focusing on what's missing. This approach elevates student thinking and reasoning skills. In this way, educators acknowledge that all students bring prior experiences, strengths, talents and resources to the learning process and can contribute meaningfully in an authentic learning environment. *Transform Your Math Class Using Asset-Based Teaching for Grades 6-12* provides insight into asset-based perspectives in mathematics education to create an environment where all students feel valued and capable of being doers of mathematics. In the book, Michael Steele and Joleigh Honey highlight the importance of using language, instructional routines and systemic structure that positively impact student engagement, their math identity and ultimately their outcomes. Providing a wealth of knowledge and practical strategies that can be used to transform math classrooms into inclusive, supportive and empowering learning environments, this book introduces an asset

based perspective that focuses on students strengths assets and potential to learn mathematics Includes a variety of frameworks and tools that teachers can use to build and grow their sense of asset based perspectives Offers strategies for promoting a growth mindset in mathematics encouraging productive struggle in math and promoting equitable math instruction Supports teachers in reflecting on their decisions self awareness and self management Includes a companion online study guide to support teachers individually or as part of a professional learning community Adopting asset based perspectives is about movement over time not about flipping a switch This book paves the path for an asset based journey that ultimately helps to transform our math classrooms and advance all students learning and development **Reinventing**

Intercultural Education Neal Dreamson,2016-11-25 Most existing books in the fields of multicultural or intercultural education have been written based on anthropologists cultural dimensions which presume culture is a fixed entity Reinventing Intercultural Education is the first book to review multiple cultures and religions from a metaphysical understanding It argues that intercultural value interactions can be managed and taught in a way that facilitates individuals to reveal how they are metaphysically positioned within intercultural value networks This book proposes a metaphysical understanding of interculturality by reviewing popular cultural and religious narratives found in multicultural society By doing so it develops an alternative pedagogy for multicultural education founded on the concept of intercultural hermeneutics Beginning with a critical review of multicultural policies and existing models of multicultural education Dreamson advocates the necessity of an intercultural approach to multicultural education He then moves on to argue for the methodological aspects of interculturality by reviewing and adopting philosophical hermeneutics theories Throughout the book it is argued that values incarnated as a cultural framework are networked and interact via our minds to sustain our intercultural realities Furthermore when intercultural interactions transpire which is the goal of multicultural education we can see a larger part of the world that in turn helps us cultivate ourselves for further intercultural interactions The book should be of great interest to academics researchers and postgraduate students engaged in the study of multicultural education the philosophy of education religious pluralism religious education cultural studies theology and indigenous education **Handbook of Inclusive Learning and Teaching in Business and Management** Martyna Śliwa,Lisa
