## Online Cycling Futures Research Into Practice:

**Cycling Futures** Regine Gerike, John Parkin, 2016-03-09 Pointing the way to the future of research and development in relation to cycling as a mode of transport this book investigates some of the significant recent developments in the technology provision for and take up of cycling in various parts of the world Tensions at the heart of the nature of cycling remain on the one hand cycling is frequently viewed as being a risky activity while on the other hand it is seen as being a way of allowing populations to live healthier lives Reviewing this dichotomy the authors in this book consider the ways that cycling is planned and promoted This is done partly in relation to these issues of risk and health but also from the broader perspective of behavioural response to the changing nature of cycling A section on methodologies is also included which outlines the current state of the art and points a way to future research *Cycling Futures* Regine Gerike, John Parkin, 2018

**Cycling Societies** Dennis Zuev, Katerina Psarikidou, Cosmin Popan, 2021-02-15 This book examines emerging debates and questions around cycling to critically analyse and challenge dominant framings and prevalent conventions of good cycling *Cycling Societies* brings to light the plurality of voices and forms of cycling in other societies revealing the diversity and complexity of cycling across different socio political regimes geographies and cultures It presents case studies from five continents and demonstrates the need of thinking comparatively about cycling and urban environments The book pivots around the three themes of innovations inequalities and governance and engages a diversity of voices world renowned academics in the field of cycling and urban mobility cycling activists and transportation consultants Synthesising academic contributions with policy briefs this innovative book will be of great interest to students scholars and practitioners of sustainable transportation urban planning and mobility studies **Cycling Futures** Regine Gerike, 2015 *Cycling Pathways* Henk-Jan Dekker, 2025-10-01 In an effort to fight climate change many cities try to boost their cycling levels They often look towards the Dutch for guidance However historians have only begun to uncover how and why the Netherlands became the premier cycling country of the world Why were Dutch cyclists so successful in their fight for a place on the road *Cycling Pathways The Politics and Governance of Dutch Cycling Infrastructure 1920 2020* explores the long political struggle that culminated in today's high cycling levels Delving into the archives it uncovers the important role of social movements and shows in detail how these interacted with national provincial and urban engineers and policymakers to govern the distribution of road space and construction of cycling infrastructure It discusses a wide range of topics ranging from activists to engineering committees from urban commuters to recreational cyclists and from the early 1900s to today in order to uncover the long and all but forgotten history of Dutch cycling governance *Walking, Cycling and Active Travel As Part of Physical Activity and Public Health Systems* Paul Kelly, Jason M. R. Gill, Jessica Bourne, Justin Richards, Deborah Salvo, 2024-04-09 **Just Climate Futures** Carolyn Snell, Lucie Middlemiss, Kelli Kennedy, Emily Morrison, Anne Owen, Samanthi Themini, Tania Carregha, Yekaterina Chzhen, 2025-08-14 If we are to meet Net Zero targets both climate

policies and our daily lives require significant change The transition towards Net Zero will lead to inevitable trade offs between social economic and environmental objectives and this transition could disproportionately impact households already struggling with poverty and precarity This book takes a deep dive into the ways families and communities are or could be impacted by the implementation of climate policy It demonstrates that participation in Net Zero requires people to be economically culturally socially and politically engaged and provides a practical roadmap to encourage and support a truly just transition

*Community Carsharing and the Social-Ecological Mobility Transition* Luca Nitschke, 2022-07-14 This book investigates how practices of community carsharing are influencing everyday mobility It argues that hegemonic practices of automobility are reconfigured through practices of community carsharing thereby challenging capitalist mobilities in the realm of everyday life Through a detailed empirical study of practices of community carsharing and its practitioners in the rural regions around Munich Germany this book reveals how the practice contributes to the emergence of alternative automobile practices meanings identities and subjectivities It also explores the embedding of automobility into its ecological context the connection of function and community in practices of community carsharing and the changing of ownership relations through a process of commoning mobility This reconfiguration of everyday practices of automobility takes place through processes of everyday resistance re embedding and commoning and ultimately results in the emergence of an alternative mobility culture thereby facilitating the dissemination of an alternative common sense of community carsharing This book on community carsharing provides a valuable insight into carsharing in rural settings and exemplifies how carsharing specifically and sharing mobilities in general can contribute to a social ecological mobility transition The work will be of particular interest to scholars and practitioners working in mobility studies and mobilities

**International Encyclopedia of Transportation**, 2021-05-13 In an increasingly globalised world despite reductions in costs and time transportation has become even more important as a facilitator of economic and human interaction this is reflected in technical advances in transportation systems increasing interest in how transportation interacts with society and the need to provide novel approaches to understanding its impacts This has become particularly acute with the impact that Covid 19 has had on transportation across the world at local national and international levels Encyclopedia of Transportation Seven Volume Set containing almost 600 articles brings a cross cutting and integrated approach to all aspects of transportation from a variety of interdisciplinary fields including engineering operations research economics geography and sociology in order to understand the changes taking place Emphasising the interaction between these different aspects of research it offers new solutions to modern day problems related to transportation Each of its nine sections is based around familiar themes but brings together the views of experts from different disciplinary perspectives Each section is edited by a subject expert who has commissioned articles from a range of authors representing different disciplines different parts of the world and different social perspectives The nine sections are structured around the following themes Transport Modes Freight

Transport and Logistics Transport Safety and Security Transport Economics Traffic Management Transport Modelling and Data Management Transport Policy and Planning Transport Psychology Sustainability and Health Issues in Transportation Some articles provide a technical introduction to a topic whilst others provide a bridge between topics or a more future oriented view of new research areas or challenges The end result is a reference work that offers researchers and practitioners new approaches new ways of thinking and novel solutions to problems All encompassing and expertly authored this outstanding reference work will be essential reading for all students and researchers interested in transportation and its global impact in what is a very uncertain world Provides a forward looking and integrated approach to transportation Updated with future technological impacts such as self driving vehicles cyber physical systems and big data analytics Includes comprehensive coverage Presents a worldwide approach including sets of comparative studies and applications

**Poststructural Policy Analysis** Carol Bacchi, Susan Goodwin, 2025-08-12 This book offers a distinctive approach to policy analysis and a refreshing and politically engaged way of thinking about policy It clearly articulates a Foucault influenced poststructural perspective on policy and policy analysis for researchers students and policy makers As a guide to practice the book introduces a critical analytical approach to policy analysis called What's the Problem Represented to be WPR Instead of treating policy as simply the government's best efforts to address problems this analytic strategy highlights how policies produce problems as particular sorts of problem and how governing takes place through these problematisations First published in 2016 the book describes the conceptual and theoretical underpinnings of the WPR approach to policy analysis in a detailed and accessible manner It features examples of application of the approach with topics as diverse as obesity economic policy migration drug and alcohol policy and gender equality In this second edition the authors centralise a complementary analytic strategy for poststructural policy analysis poststructural interview analysis PIA This edition integrates this material as a new chapter which sets out PIA as a novel approach to poststructural interview analysis and includes examples of PIA applications The new chapter provides excellent guidance to undertake interview analysis in a manner congruent with the poststructural precepts set out in the book Emerging Wireless Technologies and the Future Mobile Internet Dipankar Raychaudhuri, Mario Gerla, 2011-03-07 This book provides a preview of emerging wireless technologies and their architectural impact on the future mobile Internet The reader will find an overview of architectural considerations for the mobile Internet along with more detailed technical discussion of new protocol concepts currently being considered at the research stage The first chapter starts with a discussion of anticipated mobile wireless usage scenarios leading to an identification of new protocol features for the future Internet This is followed by several chapters that provide in depth coverage of next generation wireless standards ad hoc and mesh network protocols opportunistic delivery and delay tolerant networks sensor network architectures and protocols cognitive radio networks vehicular networks security and privacy and experimental systems for future Internet research Each of these contributed

chapters includes a discussion of new networking requirements for the wireless scenario under consideration architectural concepts and specific protocol designs many still at research stage

**Internet of Things, Infrastructures and Mobile Applications** Michael E. Auer, Thrasyvoulos Tsiatsos, 2020-09-10 This book gathers papers on interactive and collaborative mobile learning environments assessment evaluation and research methods in mobile learning mobile learning models theory and pedagogy open and distance mobile learning life long and informal learning using mobile devices wearables and the Internet of Things game based learning dynamic learning experiences mobile systems and services for opening up education mobile healthcare and training case studies on mobile learning and 5G network infrastructure Today interactive mobile technologies have become the core of many if not all fields of society Not only do the younger generation of students expect a mobile working and learning environment but also the new ideas technologies and solutions introduced on a nearly daily basis also boost this trend Discussing and assessing key trends in the mobile field were the primary aims of the 13th International Conference on Interactive Mobile Communication Technologies and Learning IMCL2019 which was held in Thessaloniki Greece from 31 October to 01 November 2019 Since being founded in 2006 the conference has been devoted to new approaches in interactive mobile technologies with a focus on learning The IMCL conferences have since become a central forum of the exchange of new research results and relevant trends as well as best practices The book s intended readership includes policymakers academics educators researchers in pedagogy and learning theory schoolteachers further education lecturers practitioners in the learning industry etc

**Consumer Tribes in Tourism** Christof Pforr, Ross Dowling, Michael Volgger, 2020-11-18 This book adopts a collectivist perspective on special interest tourism consumption bringing together research on special interest tourism and niche tourism as well as more recent research into the interdisciplinary applications of the sociological concept of neo tribes It promotes a shift in perspective away from special interest tourism understood as a sum of similarly motivated individuals to a collective view of special interest tourists who share common characteristics e g shared values beliefs and mutual interests and group structures This approach provides a better understanding of groupings that are not unified by a common tourism motivation but brought together by otherwise conditioned commonalities in actual behavior triggered by supply side contexts e g Airbnb The book considers tourism micro segments as consumer tribes i e as symbolic communities in which individuals are embedded and loosely bound together As there is limited research on the collectivist perspective on special interest tourism consumption in the first part the book s conceptual theoretical discourse contributes to a better understanding of groupings in tourism behavior but also collectives that are not unified by a common tourism motivation Presenting international examples the book explores in Part 2 the group culture of a range of tourist tribes by describing emerging tourism micro segments identifying shared identities and analyzing their collective mechanisms

**Social Practices, Intervention and Sustainability** Yolande Strengers, Cecily Maller, 2014-11-13 In an era of dramatic environmental change social change is desperately needed to curb burgeoning

consumption Many calls to action have focused on individual behaviour or technological innovation with relative silence from the social sciences on other modes and methods of intervening in social life This book shows how we can go beyond behaviour change in the pursuit of sustainability Inspired by the practice turn in consumption studies this interdisciplinary book looks through the lens of social practice theory to explore important and timely questions about how to intervene in social life It discusses a range of applied sustainability topics including energy consumption housing provision water demand transport climate change curbside recycling and smart grids seeking to redefine what intervention is how it happens and who or what can intervene to address the growing list of environmental calamities facing contemporary societies These issues are explored through a range of specific case studies from Australia the UK and the US providing theoretical insights that are of international relevance The book will be of interest to researchers and students in the fields of sociology consumption studies environmental studies geography and science and technology studies as well as policy makers and practitioners seeking to intervene in social life for sustainability

**Real Estate and GIS** Richard Reed,Chris Pettit,2018-07-17 Real Estate and GIS focuses on the application of geographic information systems GIS and mapping technologies in the expanding property and real estate discipline Whilst a thorough understanding of location is understood to be fundamental to the property discipline real estate professionals and students have yet to harness the full potential of spatial analysis and mapping in their work This book demonstrates the crucial role that technological advances can play in collecting organising and analysing large volumes of real estate data in order to improve decision making International case studies chapter summaries and discussion questions make this book the perfect textbook for property and applied GIS courses Property and real estate professionals including surveyors valuers property developers urban economists and financial analysts will also find this book an invaluable guide to the understanding and application of GIS technology within a real estate industry context

*Cycling Futures* Regine Gerike,John Parkin,2016-03-09 Pointing the way to the future of research and development in relation to cycling as a mode of transport this book investigates some of the significant recent developments in the technology provision for and take up of cycling in various parts of the world Tensions at the heart of the nature of cycling remain on the one hand cycling is frequently viewed as being a risky activity while on the other hand it is seen as being a way of allowing populations to live healthier lives Reviewing this dichotomy the authors in this book consider the ways that cycling is planned and promoted This is done partly in relation to these issues of risk and health but also from the broader perspective of behavioural response to the changing nature of cycling A section on methodologies is also included which outlines the current state of the art and points a way to future research

**Handbook of Research on Pathways and Opportunities Into the Business of Esports** Andrews, Sharon,Crawford, Caroline M.,2021-06-25 Esports have attracted considerable attention over the past few years and become an industry that is projected to continue to increase rapidly Intersecting with the esports industry are organizations and businesses that develop and support the esports game experience Included is the entrepreneurial spirit of

gamers who are interested in creating their own career paths through capturing and posting gaming microassists on different public venues that are driven by advertising dollars invitational competition monetary winnings and other forms of marketing their expertise for financial gain All these organizations and industries form satellites of career opportunities as well as opportunities for research and enhanced forward leaning study Such career opportunities can be explicitly addressed within the structure of university degree and micro credential certificate programs some of which have begun to offer esports directed degrees but most of which have not yet moved from esports clubs into a recognition of the business and industry monetization of esports The Handbook of Research on Pathways and Opportunities Into the Business of Esports addresses the intersection of esports gaming and the business and industry of esports rather than an exploration of the video games themselves It is the supporting and intersecting industry driven by esports and the vast opportunities this brings that are the foci of this book Covering topics including digital learning esport marketing curriculum and gaming culture this text is essential for business professionals industry analysts entrepreneurs managers coaches marketers advertisers brand managers university and college administrators faculty and researchers students professors and academicians *Usability of Complex Information Systems* Michael Albers,Brian Still,2010-10-15 Why do enterprise systems have complicated search pages when Google has a single search box that works better Why struggle with an expense reimbursement system that is not as easy as home accounting software Although this seems like comparing apples to oranges as information and communication technologies increasingly reach into every industry **Urban Ecology** Pramit Verma,Pardeep Singh,Rishikesh Singh,A. S. Raghubanshi,2020-07-14 Urban Ecology covers the latest theoretical and applied concepts in urban ecological research This book covers the key environmental issues of urban ecosystems as well as the human centric issues particularly those of governance economics sociology and human health The goal of Urban Ecology is to challenge readers thinking around urban ecology from a resource based approach to a holistic and applied field for sustainable development There are seven major themes of the book emerging urban concepts and urbanization land use land cover change urban social ecological systems urban environment urban material balance smart healthy and sustainable cities and sustainable urban design Within each section key concepts such as monitoring the urbanization phenomena land use cover urban soil fluxes urban metabolism pollution and human health and sustainable cities are covered Urban Ecology serves as a comprehensive and advanced book for students researchers practitioners and policymakers in urban ecology and urban environmental research planning and practice Includes global case studies from over 14 countries providing a first hand account of recent applications Covers the phenomena of sustainable transport nutrient recovery and human health among many others Examines environmental issues as well as social ecological systems and governance *Routledge Handbook of Social Futures* Carlos López Galviz,Emily Spiers,2021-11-22 Featuring chapters from an international range of leading and emerging scholars this Handbook provides a collection of cutting edge interdisciplinary research that sheds new light on

contemporary futures studies Engaging with key defining questions of the early twenty first century such as climate change big data AI the future of economics education mental health cities and more the Handbook provides a review and synthesis of futures scholarship highlighting the role that societies can and should play in their making While the various chapters demonstrate how futures emerge and take shape in particular places at particular times the distinctive insight provided by the volume overall is that futures thinking today must be social and contextual By presenting a range of futures work from contexts around the globe the Handbook contextualizes techniques forecasting backcasting scenario planning collaboration and co production to ask how different dimensions of the social are created and circulated in the process Through its thirty chapters the volume explores and interrogates narratives anticipations enactments ecologies collaborations prospections and so on to highlight which versions of the social are legitimized and which are encouraged and foreclosed This Handbook opens an important conversation about the centrality of the social in futures thinking By bringing arts humanities and social sciences scholars and practitioners into conversation with biologists environmental climate and computer scientists this volume seeks to encourage new pathways across between and within multiple disciplines to interrogate the futures we need and want The social must be our starting point if we are to steer our planet in a direction that supports good lives for the many everywhere
