Jeugdherinneringen Jan Ligthart, 2023-02-05 In Jeugdherinneringen verkent Jan Ligthart op een poëtische en introspectieve wijze de universum van de kindertijd waarbij hij zijn eigen jeugdherinneringen verweeft met bredere thema's zoals de groei naar volwassenheid en de verloren onschuld De literaire stijl van Ligthart is doordrenkt met melancholie en reflectie waardoor de lezer wordt uitgenodigd om mee te reizen door de nostalgische herinneringen die de fundamenten van zijn identiteit vormen De tekst is rijk aan observaties over het dagelijks leven en de sociale omgeving van zijn jeugd wat een authentieke blik biedt op de tijdsgeest van de 19e eeuw waarin de auteur zich bevond Ligthart s proza is niet alleen een herinnering aan zijn eigen verleden maar ook een diepgaande analyse van de menselijke psyche in relatie tot de kindertijd Jan Ligthart 1859-1916 was een prominente Nederlandse onderwijzer schrijver en pedagoog die vooral bekendstond om zijn betrokkenheid bij de opvoeding en ontwikkeling van jonge mensen Zijn ervaringen als onderwijzer in verschillende milieus gaven hem een unieke kijk op de wereld van kinderen Dit perspectief gecombineerd met zijn literaire talent maakte het voor Ligthart mogelijk om de complexiteit van de kindertijd vast te leggen Zijn werk heeft niet alleen een educatieve waarde maar biedt ook een emotionele resonantie die voortkomt uit zijn eigen levenservaringen en zijn pedagogische overtuigingen Jeugdherinneringen is een aanrader voor iedereen die geïnteresseerd is in de interactie tussen de kindertijd en de ontwikkeling van de mens De

Guarded Neutrality Susanne Wolf, 2013-06-20

Traditionally isolated from mainstream European affairs in 1914 the Dutch had no major allegiances that bound them to any one side of the conflict Geographically and economically caught between two of the major belligerents Great Britain and Germany the Netherlands was constantly vulnerable to attack from either side In adopting a position of neutrality at the beginning of the war the Dutch took a huge gamble The internment of approximately 50 000 foreign troops in the Netherlands some for almost the entire four years of the war provided an important showcase for the Dutch Government to demonstrate its adherence to international law and its impartiality towards the all of the belligerents

Other

Combatants, Other Fronts James Kitchen, Alisa Miller, Laura Rowe, 2011-01-18 The First World War is a subject that has fascinated the public as well as the academic community since the close of hostilities in 1918 Over the past thirty years in particular the historiography associated with the conflict has expanded considerably to include studies whose emphases range between the economic social cultural literary and imperial aspects of the war all coinciding with revisions to perceptions of its military context Nevertheless much of the discussion of the First World War remains confined to the experiences of a narrow collection of European armies on the battlefields of Northern France and Belgium This volume seeks to push the focus away from the Western Front and to draw out the multi spectral nature of the conflict examining forgotten theatres and neglected experiences The chapters explore the question of what total war meant for the lives of people around the world implicated in this momentous event broadening current debates on the First World War as well as developing reinforcing and refining the existing categories of analysis The chapters are grouped into sections that reflect neglected elements of the transnational interpretation of the conflict and aspects of the total war debate These encompass alternative forms of mobilisation issues of neutrality ideas of racial identity and the scope of violence The volume thus not only expands First World War studies but also contributes to the wider discourse on the shifting nature of warfare in the nineteenth and twentieth centuries With chapters by leading scholars and early career researchers this volume draws on a diverse range of original archival research undertaken across disciplinary and national boundaries The contributions to the volume provide an analysis of the conflict that draws out its full breadth and complexity The First World War demonstrated the critically important relationship between national mobilisation and total war and saw multiple mobilisations and re mobilisations of European populations This theme is explored at the national regional and local levels through examinations of the Sicilian province of Catania the role of science in France and Britain and the utilisation of the narrative of maritime heroism surrounding the British sailor Jack Cornwell For Europe's neutrals the First World War was often as total in its effects as for those states engaged in military operations Chapters analyse the diverse range of these experiences of neutrality from the

economy and people of the Netherlands to the attitudes of Switzerland's intellectuals. Racial interpretations of modern conflict have defined much of the historiography of total war. The complexities of racial analysis with respect to total war are highlighted in chapters dealing with white colonial internees in German East Africa, the treatment of prisoners of war in Europe and the recruitment of India's primitive peoples for service in labour units. The final section of the volume considers the scale and broad scope of the violence unleashed during the First World War. Chapters on the continuation of German naval war culture after the conflict, the shaping of personal narratives of the war in the Ottoman Empire and anti-alien violence among veterans in Canada serve to reinforce the extent to which the conflict affected wider aspects of twentieth century history around the globe. Other Combatants, Other Fronts sheds light on the diverse experiences of neutral and belligerent states and their combatants and civilians during the tumultuous events of 1914–18. This brings to the fore the extent to which the mechanisms of conflict developed during the struggle had a truly global reach and the impact this has had ever since in defining modern conflict. The collection reinforces the notion that although the First World War was a vast and often bewildering industrial conflict it was ultimately a very human phenomenon.

The Netherlands and World War I

Hubert van Tuyl van Serooskerken, 2021-10-01 During World War I the Netherlands was situated squarely between two warring great powers Britain and Germany and on the edge of the war zone itself. Isolationism was impossible strict neutrality was inadequate. The Netherlands nevertheless escaped the war mainly because of its own actions. This book is the story of the people who managed this escape. The first part of the book examines the pre-war situation, espionage against Germany and the mobilization of 1914. Succeeding chapters cover the military diplomatic balancing act during the war, the attempted revolution of 1918 and the near disaster at Versailles. The book concludes with a consideration of major issues. This work is intended to appeal to a broad audience including students of World War I, modern European history, diplomatic history, military history and peace studies.

Small Countries in a Big Power World: The Belgian-Dutch Conflict at Versailles, 1919

H.P. van Tuyl, 2016-11-21 When a devastated Belgium emerged from World War I some of its leaders had high hopes that the upcoming negotiations would enable achievement of a long cherished goal annexing parts of the Netherlands lost in the final 1839 settlement which had established the country. Belgium's strong historical and military arguments were bolstered by its courageous Great War image. Yet the Dutch proved ready and able to launch an energetic counterattack which ultimately stymied the Belgian campaign. This book explains why and how this happened and demonstrates that small states are active participants in their own destinies not just spectators or victims.
