Op De Bres Voor Neerlands Onafhankelijkheid:

May 1940 ,2010-04-27 In May 1940 the Netherlands were overrun by German armed forces The five day campaign might seem to be a prime example of Blitzkrieg which led shortly afterwards to the rapid and unexpected overthrow of France This book based on the newest scholarly research argues that this is too simple a view Even though the German assault on the Netherlands made use of tanks aircraft and airborne troops it was still a classic campaign against a weak opponent in a theater on the margins of Fall Gelb In many instances artillery and infantry were the decisive factors and it is debatable whether the bombing of Rotterdam can be seen as a precursor to the aerial terror campaigns against civilian populations that marked the later stages the Second World War Contributors are H Amersfoort H W van den Doel P H Kamphuis P M J de Koster C M Schulten and J W M Schulten *Oranje op de bres* Netherlands.
