Guide to Information Sources in Mathematics and Statistics Martha A. Tucker, Nancy D. Anderson, 2004-09-30 This book is a reference for librarians mathematicians and statisticians involved in college and research level mathematics and statistics in the 21st century We are in a time of transition in scholarly communications in mathematics practices which have changed little for a hundred years are giving way to new modes of accessing information Where journals books indexes and catalogs were once the physical representation of a good mathematics library shelves have given way to computers and users are often accessing information from remote places Part I is a historical survey of the past 15 years tracking this huge transition in scholarly communications in mathematics Part II of the book is the bibliography of resources recommended to support the disciplines of mathematics and statistics These are grouped by type of material Publication dates range from the 1800 s onwards Hundreds of electronic resources some online both dynamic and static some in fixed media are listed among the paper resources Amazingly a majority of listed electronic resources are free

UFOs, Conspiracy Theories and the New Age David G. Robertson, 2016-02-25 How and why were UFOs so prevalent in both conspiracy theories and the New Age milieu in the post Cold War period In this ground breaking book David G Robertson argues that UFOs symbolized an uncertainty about the boundaries between scientific knowledge and other ways of validating knowledge and thus became part of a shared vocabulary Through historical and ethnographic case studies of three prominent figures novelist and abductee Whitley Strieber environmentalist and reptilian proponent David Icke and David Wilcock alleged reincarnation of Edgar Cayce the investigation reveals that millennial conspiracism offers an explanation as to why the prophesied New Age failed to arrive it was prevented from arriving by malevolent hidden others Yet millennial conspiracism constructs a counter elite a gnostic third party defined by their special knowledge An overview of the development of UFO subcultures from the perspective of religious studies UFOs Conspiracy Theories and the New Age is an innovative application of discourse analysis to the study of present day alternative religion

The Present Professor Elizabeth A. Norell, 2024-12-03 It s hard to learn when you re under stress and a lot harder when your teacher is struggling with stress too In a world where stress is unavoidable where political turmoil pandemic fallout and personal challenges touch everyone this timely book offers much needed guidance for cutting through the emotional static that can hold teachers back A specialist in pedagogical strategies with extensive classroom experience Elizabeth A Norell explains how an educator s presence or authenticity can be critical to creating transformational spaces for students And presence she argues means uncovering and understanding one s own internal struggles and buried insecurities stresses often left un confronted in an academic culture that values knowing over feeling Presenting the research on how and why such inner work unlocks transformational learning The Present Professor equips educators with the tools for crafting a more authentic presence in their teaching work At a time of crisis in higher education

as teachers struggle to find new ways to relate to think about and instruct students this book holds a key Implementing more inclusive pedagogies Norell suggests requires sorting out our own identities In short if we want to create spaces where students have the confidence comfort and psychological safety to learn and grow we have to create spaces where we do too The Present Professor is dedicated to that proposition and to helping educators build that transformational space

How to Publish Academic Books: A Guide to Publishing Monographs, Edited Volumes, Textbooks, and Theses Nitin Liladhar Rane,Saurabh Choudhary,Jayesh Rane,2024-12-05 The academic book publishing sector has a key function when it comes to knowledge production and dissemination across various disciplines For researchers scholars and educators the process of moving from concept to publication is rarely a trivial task and often involves the use of imagination perseverance and teamwork Publishing a monograph an edited volume or a textbook or turning your thesis into a book can be painful This book will help you demystify the world of academic book publishing offering authors a guide to navigating the complicated process with success This guide aims to provide authors with the knowledge of tools and resources needed to publish a book that reflects their research If you want a sneak peek into the workings of scholarly publishing it features advice from senior authors publishers and academics with an intimate familiarity with the academic publishing process Divided into chapters the book covers the major elements of the publishing journey steps to writing the proposal advice on working with publishers and challenges of the current moment like open access and new fields of study The first step to getting published is learning to write a scholarly manuscript or book proposal Writers need to know how to present their research in front of potential publishers It necessitates then not just a firm grasp on the work in question but a facility for conveying the relevance of the work and its potential to make a difference Therefore it is very important to tread carefully through the relationship with the publishers as the success of publishing partnerships relies heavily on trust collaboration and shared vision for the book Open access publishing for scientific journals has played an increasingly important role in the ever evolving academic world There are new ways for authors to disseminate their work and increase the accessibility of research through open access It is an exciting time to be an author but it is also a challenging time in terms of financial viability and finding new publishing models This section deeply studies the influence of open access so that authors can better develop books around it Many students work years on their theses and getting them published can greatly aid their academic careers It is not simply editing this means changing the format to suit for wider academic publication and conforming to the expectations of the publisher This book is a road map for authors making this transition For authors in emerging or interdisciplinary fields publishing can bring unique challenges There may not be established publishing pathways in these fields or the intended audience may be smaller and more specialized Despite these challenges there are great rewards to publishing in such fields and this book outlines strategies to achieve their success Authors will discover how to seek the ideal publisher determine their target market and how to frame their work to have a noteworthy effect in their area Technological advancements global trends and academic expectations have all combined to

shape the future of academic book publishing By the end of this book readers will be equipped with a fundamental understanding of the academic publishing process From preparing manuscripts and working with publishers to navigating new models of publishing this guide arms authors with practical advice and strategies to ensure their research becomes a published book It is our goal that this book helps those who hope to disseminate their research through publication of scholarly books

Virtual Mentoring for K-12 Literacy Instruction Paula Saine, 2018-10-12 There is no research based text that provides a model for teaching and learning in a virtual environment with literacy learners Therefore this book will focus on preparing challenging students to be successful independent learners for the twenty first century This will involve one where students are constructing their own meaning not only within the traditional brick and mortar environment with the assistant of the classroom teacher but also in an online environment scaffolded by a virtual tutor Today virtual environments are a common alternative space for students in K 12 to engage in meaningful online literacy learning with their tutors Boxie 2004 Hurst 2007 Williams Witte 2007

Learning to Listen/listening to Learn Lizbeth A. Barclay, 2011 Addresses the systematic development of skills in listening for and interpreting auditory information Listening skills are a crucial but often overlooked area of instruction for children who are visually impaired and may have multiple disabilities they relate to the expanded core curriculum for students and are essential to literacy independent travel and sensory and cognitive development AFB website

Internet Book Piracy Gini Graham Scott, 2016-03-22 The international battle against Internet pirates has been heating up Increasingly law enforcement is paying attention to book piracy as ebook publishing gains an ever larger market share With this threat to their health and even survival publishers and authors must act much like the music film and software giants that have waged war against pirates for the past two decades Now The Battle against Internet Piracy opens a discussion on what happens to the victims of piracy Drawing from a large number of interviews from writers self publishers mainstream publishers researchers students admitted pirates free speech advocates attorneys and local and international law enforcement officials the text speaks to such issues as Why pirates have acted and how they feel about it The conflict over constitutional rights and piracy The current laws surrounding Internet piracy Examples of cases taken against some pirates Alternatives to piracy Personal experiences of being ripped off The ways piracy affects different industries and how they've responded Author Gini Graham Scott prepares readers to arm themselves against these modern perils by learning about copyright infringement and how to prevent combat and end book piracy Allworth Press an imprint of Skyhorse Publishing publishes a broad range of books on the visual and performing arts with emphasis on the business of art Our titles cover subjects such as graphic design theater branding fine art photography interior design writing acting film how to start careers business and legal forms business practices and more While we don't aspire to publish a New York Times bestseller or a national bestseller we are deeply committed to quality books that help creative professionals succeed and thrive We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our
