**Struggling to Survive Barriers to Justice for Rape Victims in Rwanda**, 2004      **Survival October-November 2021: The Limits of Power** The International Institute for Strategic Studies (IISS), 2023-04-21 Survival the IISS's bimonthly journal challenges conventional wisdom and brings fresh often controversial perspectives on strategic issues of the moment In this issue Anatol Lieven argues that realist support for prudence and restraint in foreign policy does not equate to chauvinism isolationism and opposition to international cooperation Toby Dodge assesses that the United States attempt to comprehensively transform Afghanistan was based on its erroneous presumption that the liberal peacebuilding model was universally applicable Audrey Kurth Cronin contends that the logic of fighting terrorists far from the US homeland no longer holds as the US faces resource constraints and rising domestic terrorism Jens Ringsmose and Sten Rynning analyse the potential priorities and scope of NATO's next Strategic Concept and how it can bridge the Alliance's political military divide And eight more thought provoking pieces as well as our regular Book Reviews and Noteworthy column Editor Dr Dana Allin Managing Editor Jonathan Stevenson Associate Editor Carolyn West Assistant Editor Jessica Watson      **Survival December 2020-January 2021: A World After Trump** The International Institute for Strategic Studies (IISS), 2023-04-21 Survival the IISS's bimonthly journal challenges conventional wisdom and brings fresh often controversial perspectives on strategic issues of the moment In this issue Barry Posen argues that Europe is better placed to defend itself militarily than many including the IISS have portrayed it to be Kori Schake examines the prospects of Republican politics in a post Trump America Daniel Byman and Aditi Joshi call for protocols to curb the abuse of social media by malign agents and states Nigel Gould Davies explains Russia's stance on Belarus with reference to Moscow's long history of involving itself in its neighbours affairs And nine more thought provoking pieces as well as our regular book reviews and Noteworthy column Editor Dr Dana Allin Managing Editor Jonathan Stevenson Associate Editor Carolyn West Assistant Editor Jessica Watson      **Cultural Politics of Targeted Killing** Kyle Grayson, 2016-07-15 The deployment of remotely piloted air platforms RPAs or drones has become a defining feature of contemporary counter insurgency operations Scholarly analysis and public debate has primarily focused on two issues the legality of targeted killing and whether the practice is effective at disrupting insurgency networks and the intensive media and activist scrutiny of the policy processes through which targeted killing decisions have been made While contributing to these ongoing discussions this book aims to determine how targeted killing has become possible in contemporary counter insurgency operations undertaken by liberal regimes Each chapter is oriented around a problematisation that has shaped the cultural politics of the targeted killing assemblage Grayson argues that in order to understand how specific forms of violence become prevalent it is important to determine how problematisations that enable them are shaped by a politico cultural system in which culture operates in conjunction with technological economic governmental and geostrategic elements The book also demonstrates that the actors involved what they may be attempting

to achieve through the deployment of this form of violence how they attempt to achieve it and where they attempt to achieve it are also shaped by culture The book demonstrates how the current social relations prevalent in liberal societies contain the potential for targeted killing as a normal rather than extraordinary practice It will be of great use for academic specialists and graduate students in international studies geography sociology cultural studies and legal studies      **Forsaken Females** Andrea Parrot,Nina Cummings,2006-06-02 Forsaken Females describes the varied types of brutalization women experience through the life course as well as historical and theoretical perspectives of global violence against women The book illuminates the diverse ideologies and cultural conditions that condone and perpetuate violence      *Rwanda, Struggling to Survive* Shiva Eftekhari,Human Rights Watch (Organization),2004 Recommendations Background Barriers to justice for sexual violence crimes Government response International legal standards Conclusion      **Debating Terrorism and Counterterrorism** Stuart Gottlieb,2025-04-15 This innovative text now in its third edition focuses students on engaging and informative debates on the most crucial issues in the field of terrorism and counterterrorism Leading scholars practitioners and think tank experts provide original essays that juxtapose pro and con arguments on hotly contested topics of clear importance to the understanding of the past present and future of terrorism and counterterrorism These include disagreements over the evolving nature of terrorist organizations whether terrorism is ever justified the role of poverty as a root cause of terrorism whether militant jihadism or far right extremism poses the greater terror threat the likelihood of nuclear terrorism whether military or non military solutions should lead counterterrorism efforts the utility of international organizations in helping to combat terrorism and whether trade offs with civil liberties are necessary to protect national security in an age of mass casualty terrorism The book's editor frames all twelve debate chapters six each for terrorism and counterterrorism with incisive headnotes providing historical context and highlighting the critical stakes involved for each topic By the book's end readers will have a sophisticated grasp of the terrorism challenges conundrums and counter options being considered and contested in academic departments and policy circles in the United States and around the world      Ethics and Terrorism Max Taylor,John Horgan,2021-11-24 This book provides a unique insight into the ethical issues and dilemmas facing practitioners and researchers of terrorism and counterterrorism Ethics play a central if largely unrecognised role in most if not all issues relevant to terrorism and political violence These are often most noticeable regarding counterterrorism controversies while often virtually absent from discussions about academic research practice At a minimum ethical issues as they relate to terrorism have rarely been explicitly addressed in a direct or comprehensive manner The chapters in this edited volume draws on the experience of both practitioners and researchers to explore how a regard to ethical issues might influence and determine research and practice in counter terrorism and in our understanding of terrorism Ethics and Terrorism recognizes that there are conflicting and often irreconcilable perspectives from which to view terrorism and terrorism research In calling for greater attention to these issues the goal is not to resolve problems but to explore and

clarify the assumptions and dilemmas that underpin our understanding of the personal institutional and societal ethical boundaries and constraints around terrorism and responses to it This book will be of value to practitioners and researchers and to policy makers and the broader interested community The chapters in this book were originally published as a special issue of the journal *Terrorism and Political Violence*

*Sensible Politics* William A. Callahan, 2020 Visual images are everywhere in international politics But how are we to understand them In *Sensible Politics* William A Callahan uses his expertise in theory and filmmaking to explore not only what visuals mean but also how visuals can

**Professional Journal of the United States Army**, 1983 **Winfred Rembert** Winfred Rembert, Bartholomew F. Bland, 2012 **Transatlantic Relations after the Russian-Ukrainian War** Lorenzo Cladi, 2025-06-30 This book provides a neorealist explanation of transatlantic relations and explores key issues at the forefront of the relationship between the US and its European allies in the context of the Russia Ukraine war Transatlantic relations involving the relationship between the United States and its European counterparts are an essential feature and a cornerstone of the foreign policy of many states Whilst the transatlantic allies share a relationship that has been in place since 1945 the re-election of Donald J Trump as US President the continuing war between Russia and Ukraine and unsettled issues around European strategic autonomy all pose questions on the state of the partnership This book utilises a neorealist theoretical framework to tackle these questions It argues that transatlantic relations continue to prosper and European states remain dependent on the US for their security which is made viable and necessary by means of dealing with collective threats to the security of transatlantic allies of which the Russian invasion of Ukraine is the most obvious recent manifestation The book also deals with other notable case studies of transatlantic relations such as the French intervention in Mali and the US withdrawal from Afghanistan This book will be of interest to students of European security Foreign Policy and International Relations **Territory and Power in Constitutional Transitions** George Anderson, Sujit Choudhry, 2019-03-07 This collection of essays surveys the full range of challenges that territorial conflicts pose for constitution making processes and constitutional design It provides seventeen in depth case studies of countries going through periods of intense constitutional engagement in a variety of contexts small distinct territories bi communal countries highly diverse countries with many politically salient regions and countries where territorial politics is important but secondary to other bases for political mobilization Specific examples are drawn from Iraq Kenya Cyprus Nigeria South Africa Sri Lanka the UK Scotland Ukraine Bolivia India Spain Yemen Nepal Ethiopia Indonesia Aceh the Philippines Mindanao and Bosnia Herzegovina While the volume draws significant normative conclusions it is based on a realist view of the complexity of territorial and other political cleavages the country's political geometry and the power configurations that lead into periods of constitutional engagement Thematic chapters on constitution making processes and constitutional design draw original conclusions from the comparative analysis of the case studies and relate these to the existing literature both in

political science and comparative constitutional law This volume is essential reading for scholars of federalism consociational power sharing arrangements asymmetrical devolution and devolution more generally The combination of in depth case studies and broad thematic analysis allows for analytical and normative conclusions that will be of major relevance to practitioners and advisors engaged in constitutional design      *The Routledge International Handbook of Psychosocial Resilience* Updesh Kumar,2016-08-05 Psychological resilience has emerged as a highly significant area of research and practice in recent years finding applications with a broad range of different groups in many settings Contemporary discourse is not limited to ways of effective coping with adversity but also introduces mechanisms that can lead to enhanced capacity after dealing with difficult circumstances and recognises the importance of enriching the field with varied perspectives The Routledge International Handbook of Psychosocial Resilience is a comprehensive compendium of writings of international contributors that takes stock of the state of the art in resilience theory research and practice The Routledge International Handbook of Psychosocial Resilience covers the many different trajectories that resilience research has taken in four parts Part One delineates the Conceptual Arena by providing an overview of the current state of theory and research exploring biological psychological and socio ecological perspectives and discussing various theoretical models of personal and social resilience The Psychosocial Correlates of resilience are discussed further in Part Two from personal and personality correlates socio environmental factors and the contextual and cultural conditions conducive to resilient behaviour In Part Three Applied Evidences are introduced in order to build upon the theoretical foundations in the form of several case studies drawn from varied contexts Examples of resilient behaviour range from post disaster scenarios to special operation groups orphaned children and violent extremism Finally Part Four Proposed Implications and Resilience Building sums up the issues involved in discussing post traumatic growth wellbeing and positive adaptation in the varied contexts of personal familial organizational and societal resilience The volume provides a comprehensive overview of resilience theory practice and research across disciplines and cultures from varied perspectives and different populations It will be a key reference for psychiatrists psychologists psychotherapists and psychiatric social workers in practice and in training as well as researchers and students of psychology sociology human development family studies and disaster management      Resources in Education ,1997      *Dangerous Thinking in the Age of the New Authoritarianism* Henry A. Giroux,2015-11-17 Giroux probes the depth and range of forces pushing the United States into a new form of authoritarianism one that connects the Orwellian surveillance state with the forms of ideological control made famous by Aldous Huxley Addressing how neoliberalism or the new market fundamentalism is shaping a range of registers from language and memory to youth and higher education Giroux explores how education in a variety of spheres is transformed into a type of miseducation perpetuated through what he calls a disimagination machine one that reproduces the present by either distorting or erasing the past But Giroux is not content to focus on how matters of politics subjectivity power and desire are colonized through forms of miseducation he is also

concerned with the educative nature of politics as the practice of freedom and how the emphasis on critique must be matched by a politics and discourse of resistance hope and possibility This becomes particularly evident in his chapters on Noam Chomsky and Howard Zinn Thinking Dangerously makes clear that at the heart of the struggle for a radical democracy is the reviving of the radical imagination as the basis for new forms of political and collective struggle Probing these issues through a series of interrelated essays and important interviews Giroux provides an accessible layered and sustained example of how thinking dangerously is central to and connected with the struggle over the radical imagination and the fight to fulfill the promise of a radical democracy
