represents an inhibiting force the cohesiveness of which determines the extent to which societal resistance against internet censorship might succeed Through detailed studies of Malaysia Thailand and Indonesia Competitive Political Regime and Internet Control shows that online transgressiveness and civil society capacity collectively shape the outcomes of internet control In this way the book provides a new framework for understanding the practice of internet control which has become a hot topic in the study of internet politics and regime types more generally It also speaks to the broad literature on Southeast Asian politics as well as that on democratization

Laxer, S. Halperin, 2003-04-30 This volume critically examines the promise of a global civil society Exploring issues in cases of diverse social justice movements the contributors show that a global civil society is still far from emerging and its promotion may even harm the realization of grassroots democracy The Internet is an exciting new means for activists to communicate internationally and citizens movements increasingly co ordinate campaigns through transnational advocacy networks but most effective civic action still takes place at national and local levels **Zionist Israel and Apartheid South Africa** Amneh Badran, 2009-09-10 This book is a comparison of two ethnic national apartheid states South Africa and Israel which have been in conflict and how internal dissent has developed In particular it examines the evolution of effective white protest in South Africa and explores the reasons why comparably powerful movements have not emerged in Israel The book reveals patterns of behaviour shared by groups in both cases It argues that although the role played by protest groups in peace building may be limited a tipping point or magic point can become as significant as other major factors It highlights the role played by intermediate variables that affect the pathways of protest groups such as changes in the international system the visions and strategies of resistance movements and their degree of success the economic relationship between the dominant and dominated side and the legitimacy of the ideology in power apartheid or Zionism Although the politics and roles of protest groups in both cases share some similarities differences remain Whilst white protest groups moved towards an inclusive peace agenda that adopts the ANC vision of a united non racial democratic South Africa the Jewish Israeli protest groups are still by majority entrenched in their support for an exclusive Jewish state And as such they support separation between the two peoples and a limited division of mandatory Palestine Eretz Israel This timely book sheds light on a controversial and explosive political issue Israel being compared to apartheid South Africa Collective Unravelings of the Hegemonic Web Becky L. Noël Smith, Katherine Becker, Libbi R. Miller, Natasha S. Reid, Michele D. Sorensen, 2014-08-01 *Collective Unravelings of the Hegemonic Web* represents the culmination of work that emerged from 2013 Curriculum Pedagogy annual conference The notion of the hegemonic web is the defining theme of the volume In this collection authors struggle to unravel and take apart pieces of the complex web that are so deeply embedded into normative ways of thinking being and making meaning They also grapple with understanding the role that hegemony plays and the influence that it has on identity curriculum teaching and learning Finally scholars included in this volume

describe their efforts to engage and undergo counter hegemonic movements by sharing their stories and struggles

Intelligence on the Frontier Between State and Civil Society Karen Lund Petersen, Kira Rønn, 2020-06-29

Intelligence on the Frontier Between State and Civil Society shows how today's intelligence practices constantly contest the frontiers between normal politics and security politics and between civil society and the state. Today's intelligence services face the difficult task of having to manage the uncertainties associated with new threats by inviting civil actors in to help while also upholding their own institutional authority and responsibility to act in the interest of the nation. This volume examines three different perspectives: Managerial practices of intelligence collection and communication, the increased use of new forms of data, i.e. of social media information, and the expansion of intelligence practices into new areas of concern, for example cybersecurity and the policing of misinformation. This book accurately addresses these three topics and all chapters shine more light on the inclusion and exclusion of civil society in the secret world of intelligence. By scrutinizing how intelligence services balance the inclusion of civil society in security tasks with the need to uphold their institutional authority, *Intelligence on the Frontier Between State and Civil Society* will be of great interest to scholars of Security Studies and Intelligence Studies. The chapters were originally published as a special issue of *Intelligence and National Security*.
