advanced scholars seeking an introduction to the field Bound by Bondage Nicole Saffold Maskiell, 2022-08-15 During the first generations of European settlement in North America a number of interconnected Northeastern families carved out private empires In Bound by Bondage Nicole Saffold Maskiell argues that slavery was vital to the rise of this aristocracy and those dynastic families built prestige through mastery creating manorial estates and expansive trading networks from the Northeast to the South the Caribbean and beyond Members of this elite class including mayors governors and presidents were among the largest slaveholders in the North with power aspirations uniting Anglo and Dutch families Using original research drawn from archives across several continents in multiple languages Maskiell traces the origins of these private empires from the founding of Northeastern colonies to the eve of the Revolutionary War She reveals a multiracial Early America where enslaved traders woodsmen millers maids bakers and groomsmen developed expansive networks of their own that challenged the power of the elites helping in escapes in trade and in simple camaraderie Bound by Bondage adds a new chapter to early North American history linking Northern networks of merit to slavery **Inca Apocalypse** R. Alan Covey, 2020 Inca Apocalypse develops a new perspective on the European invasions of the Inca realm and the way that the Spanish transformation of the Andes relates to broader changes occurring in the transition from medieval to early modern Europe The book is structured to foreground some of the parallels in the imperial origins of the Incas and Spain as well as some of the global processes affecting both societies during the first century of their interaction The Spanish conquest of the Inca empire was more than a decisive victory at Cajamarca in 1532 it was an uneven process that failed to bring to pass the millenarian vision that set it in motion yet it succeeded profoundly in some respects The Incas and their Andean subjects were not passive victims of colonization and indigenous complicity and resistance actively shaped Spanish colonial rule As it describes the transformation of the Inca world Inca Apocalypse attempts to build a more global context than previous accounts of the Spanish Conquest and it seeks not to lose sight of the parallel changes occurring in Europe as Spain pursued state projects that complemented the colonial endeavors in the Americas New archaeological and archival research makes it possible to frame a familiar story from a larger historical and geographical scale than has typically been considered The new text will have solid scholarly foundations but a narrative intended to be accessible to non academic readers

Bioarchaeologists Speak Out Jane E. Buikstra, 2018-10-26 Bioarchaeologists who study human remains in ancient historic and contemporary settings are securely anchored within anthropology as anthropologists yet they have not taken on the pundits the way other subdisciplines within anthropology have Popular science authors frequently and selectively use bioarchaeological data on demography disease violence migration and diet to buttress their poorly formed arguments about general trends in human behavior and health beginning with our earliest ancestors While bioarchaeologists are experts on these subjects bioarchaeology and bioarchaeological approaches have largely remained invisible to the public eye Current issues such as climate change droughts warfare violence famine and the effects of disease are media mainstays and are

subjects familiar to bioarchaeologists many of whom have empirical data and informed viewpoints both for topical exploration and also for predictions based on human behavior in deep time The contributions in this volume will explore the how and where the data has been misused present new ways of using evidence in the service of making new discoveries and demonstrate ways that our long term interdisciplinarity lends itself to transdisciplinary wisdom We also consider possible reasons for bioarchaeological invisibility and offer advice concerning the absolute necessity of bioarchaeologists speaking out through social media

The People Are King S. Elizabeth Penry, 2019-10-17 In the sixteenth century in what is now modern day Peru and Bolivia Andean communities were forcibly removed from their traditional villages by Spanish colonizers and resettled in planned self governed towns modeled after those in Spain But rather than merely conforming to Spanish cultural and political norms indigenous Andeans adopted and gradually refashioned the religious practices dedicated to Christian saints and political institutions imposed on them laying claim to their own rights and the sovereignty of the collective The People Are King shows how common Andean people produced a new kind of civil society over three centuries of colonialism merging their traditional understanding of collective life with the Spanish notion of the common to demand participatory democracy S Elizabeth Penry explores how this hybrid concept of self rule spurred the indigenous rebellions that erupted across Latin America in the eighteenth century not only against Spanish rulers but against native hereditary nobility for acting against the will of the comuneros Through the letters and documents of the Andean people themselves The People Are King gives voice to a vision of community based democracy that played a central role in the Age of Atlantic Revolutions and continues to galvanize indigenous movements in Bolivia today

Embodying the Sacred Nancy E. van Deusen, 2017-12-07 In seventeenth century Lima pious Catholic women gained profound theological understanding and enacted expressions of spiritual devotion by engaging with a wide range of sacred texts and objects as well as with one another their families and ecclesiastical authorities In Embodying the Sacred Nancy E van Deusen considers how women created and navigated a spiritual existence within the colonial city's complex social milieu Through close readings of diverse primary sources van Deusen shows that these women recognized the divine or were objectified as conduits of holiness in innovative and powerful ways dressing a religious statue performing charitable acts sharing interiorized spiritual visions constructing autobiographical texts or offering their hair or fingernails to disciples as living relics In these manifestations of piety each of these women transcended the limited outlets available to them for expressing and enacting their faith in colonial Lima and each transformed early modern Catholicism in meaningful ways
