Chaos Imagined Martin Meisel, 2016-01-05 The stories we tell in our attempt to make sense of the world our myths and religion literature and philosophy science and art are the comforting vehicles we use to transmit ideas of order But beneath the quest for order lies the uneasy dread of fundamental disorder True chaos is hard to imagine and even harder to represent In this book Martin Meisel considers the long effort to conjure depict and rationalize extreme disorder with all the passion excitement and compromises the act provokes Meisel builds a rough history from major social psychological and cosmological turning points in the imagining of chaos He uses examples from literature philosophy painting graphic art science linguistics music and film particularly exploring the remarkable shift in the eighteenth and nineteenth centuries from conceiving of chaos as disruptive to celebrating its liberating and energizing potential Discussions of Sophocles Plato Lucretius Calderon Milton Haydn Blake Faraday Chekhov Faulkner Wells and Beckett among others are matched with incisive readings of art by Brueghel Rubens Goya Turner Dix Dada and the futurists Meisel addresses the revolution in mapping energy and entropy and the manifold effect of thermodynamics He then uses this chaotic frame to elaborate on purpose mortality meaning and mind

An Excursion through Chaos Stuart Walton, 2021-01-14 From its original meaning as a gaping void or the emptiness that precedes the whole of creation chaos has taken on the exclusive meaning of confusion pandemonium and mayhem This definition has become the overarching word to describe any challenge to the established order be it railway strikes or political dissent any unexpected event is routinely described in the media and popular parlance as chaos In his incisive new study Stuart Walton argues that this is a pitifully one dimensional view of the world as he looks to many of the great social political artistic and philosophical advances that have emerged from periods of disorder and from the refusal to think within the standard paradigms Exploring this worldview Walton contends that we are superstitious about states of affairs in which anything could happen because we have been taught to prefer the imposition of rules in every aspect of our lives from our diets to our romances Indeed in An Excursion through Chaos he demonstrates how it is these very restrictions that are responsible for the alienation that has characterised postwar society a state of disengagement that could have been avoided if we had taken a less fearful attitude towards the unravelling of order

British Literature and Technology, 1600-1830 Kristin M. Gärten, Aaron R. Hanlon, 2023-01-13 British Literature and Technology 1600 1830 examines the relationship between literature and technology in two directions not only the impact of technology on Enlightenment British literature but also the impact of literature on conceptions of attitudes toward and implementations of technology in the period

Understanding the Politics of Pandemic Emergencies in the time of COVID-19 Mika Aaltola, 2022-05-04 This book reviews the political significance of COVID 19 in the context of earlier pandemic encounters and scares to understand the ways in which it challenges the existing individual health domestic order international health governance actors and more fundamentally the circulation based modus operandi of the present world order It argues that

contagious diseases should be regarded as complex open ended phenomena with various features and are not reducible merely to biology and epidemiology They are as such fundamentally politosomatic namely that they disrupt agitate and trigger large scale processes because individual somatic level anxieties stem from individuals sensing immediate danger through the networks of their local and global connectedness The author further argues that pandemics have somatic effects in political expressions that transform the epidemic into national security dramas which should not for the sake of efficient health governance be treated as aspects extraneous to the disease itself The book highlights that when a serious infectious disease spreads a threat is very often externalized into a culturally meaningful foreign entity Pandemics tend to be territorialized nationalized ethnicized and racialized This book will be of key interest to scholars and students of global health and governance pandemic security epidemics history of medicine geopolitics international relations and general readers interested in the COVID 19 pandemic **The London Journal: and Weekly Record of Literature, Science, and Art**

Weaver,2018-08-30 In this book John A Weaver suggests curriculum studies scholars need to engage more in science matters It offers a review of science studies writing from Ludwick Fleck and Thomas Kuhn to Philip Mirowski The volume includes chapters on the rhetoric of science with a focus on the history of rhetoric and economics then on the rhetoric of models statistics and data a critique of neoliberalism and its impact on science policy and the foundations of democracy Harry Collin s and Robert Evans theory of expertise followed by chapters on feminism with a focus on the work of Sharon Traweek Karen Barad and Vinciane Despret postcolonial thought with attention paid to the work of Daniela Bleichmar Londa Schiebinger Judith Carney Sylvia Wynter Paul Gilroy and Sandra Harding and a final chapter on Nietzsche s philosophy of science Each section is introduced by an interlude drawing on autobiographical connections between curriculum studies and science studies Science-fiction Studies ,1993 **Modern Irish Literature and the Primitive Sublime** Maria McGarrrity,2024-03-13 Modern Irish Literature and the Primitive Sublime reveals the primitive sublime as an overlooked aspect of modern Irish literature as central to Ireland s artistic production and the wider global cultural production of postcolonial literature A concern for and anxiety about the primitive persists within modern Irish culture The otherness within and beyond Ireland s borders offers writers from the Celtic Revival through independence and partition to post 9 11 a seductive call through which to negotiate Irish identity Ultimately the disquieting awe of the primitive sublime is not simply a momentary recognition of Ireland s primitive indigenous history but a repeated rhetorical gesture that beckons a transcendent elation brought about by the recognition of the troubled ritualistic and sacrificial Irish past to reveal a fundamental aspect of the capacity to negotiate identity viewed through another but intimately reflective of the self within the long emerging twentieth century Irish nation Storizen Magazine December 2024 | Preeti Shenoy Saurabh
