Textbooks and War Eugenia Roldán Vera,Eckhardt Fuchs,2018-10-04 This volume reflects on the role played by textbooks in the complex relationship between war and education from a historical and multinational perspective asking how textbook content and production can play a part in these processes It has long been established that history textbooks play a key role in shaping the next generation s understanding of both past events and the concept of friend and foe Considering both current and historical textbooks often through a bi national comparative approach the editors and contributors investigate various important aspects of the relationships between textbooks and war including the role wars play in the creation of national identities whether the country is on the winning or losing side the effacement of international wars to highlight a country s exceptionalism or the obscuring of intra national conflict through the ways in which a civil war is portrayed This pioneering book will be of interest and value to students and scholars of textbooks educational media and the relationships between curricula and war **The Leader** Charles B. every leader is an instructive life story. It often promotes a public image that inspires others to live by it. And sometimes even to live or to die for it. As leadership qualities and image issues gain significance in the public discourse, the psychological study of leadership is a critical factor in any discussion. With its trenchant insights into leaders past and present, *The Leader: Psychological Essays*, Second Edition, updates a pioneering text in this field and provides a solid basis for ongoing dialogue on this important subject. Within the context of the ever-evolving disciplines of psychoanalysis and psychodynamics, this thought-provoking volume examines the lives of several prominent leaders from ancient Greece through the start of the 21st century. The authors explore how these leaders imposed their individual missions and mystiques on others, thereby fulfilling and sometimes creating distinct needs in their followers. The volume brings into vivid focus issues with the potential for devastating consequences on the global stage. Coverage includes Biblical times, ancient Greeks, and the seeds of leadership in Lincoln during the 1850s, leading a dividing nation; Thomas A. Kohut on Kaiser Wilhelm II and the German national character; George W. Bush's atonement/redemption narratives and the American Dream; Bin Laden, man and myth; a study of paranoid leadership and its implications for future politics and policy. This must-have Second Edition is indispensable reading for researchers, professors, and graduate students across many disciplines, including political psychology, psychoanalysis, history, and political science, psychiatry, anthropology, and personality and social psychology. It is important reading for anyone with an interest in the life stories of leaders past and present and how they affect our world even long after they are gone.

Where Are the Workers? Robert Forrant, Mary Anne Trasciatti, 2022-06-28. The labor movement in the United States is a bulwark of democracy and a driving force for social and economic equality. Yet its stories remain largely unknown to Americans. Robert Forrant and Mary Anne Trasciatti edit a collection of essays focused on nationwide efforts to propel the history of labor and working people into mainstream narratives of US history. In Part One, the contributors concentrate on ways to collect and interpret worker-oriented history for public consumption. Part Two moves from National Park sites to murals to examine the writing and visual representation of labor history. Together, the essayists explore how place-based labor history initiatives promote understanding of past struggles, create awareness of present challenges, and support efforts to build power, expand democracy, and achieve justice for working people. A wide-ranging blueprint for change, *Where Are the Workers?* shows how working-class perspectives can expand our historical memory and inform and inspire contemporary activism. Contributors: Jim Beachesne, Rebekah Bryer, Rebecca Bush, Conor Casey, Rachel Donaldson, Kathleen Flynn, Elijah Gaddis, Susan Grabski, Amanda Kay Gustin, Karen Lane, Rob Linn, Erik Loomis, Tom MacMillan, Lou Martin, Scott McLaughlin, Kristin O.
