### **Exploring Mathematics Through Play in the Early Childhood Classroom**

Amy Noelle Parks, 2015-04-28 This practical book provides pre and inservice teachers with an understanding of how math can be learned through play The author helps teachers to recognize the mathematical learning that occurs during play to develop strategies for mathematizing that play and to design formal lessons that make connections between mathematics and play Common Core State Standards are addressed throughout the text to demonstrate the ways in which play is critical to standards based mathematics teaching and to help teachers become more familiar with these standards Classroom examples illustrate that unlike most formal tasks play offers children opportunities to solve nonroutine problems and to demonstrate a variety of mathematical ways of thinking such as perseverance and attention to precision This book will

help put play back into the early childhood classroom where it belongs Book Features Makes explicit connections to play and the Common Core State Standards in Mathematics Offers many examples of free play activities in which mathematics can be highlighted as well as formal lessons that are inspired by play Provides strategies for making assessments more playful helping teachers meet increasing demands for assessment data while also reducing child stress Includes highlight boxes with recommended resources questions for reflection key research findings vocabulary lesson plan templates and more This is one of those books that I wish I had written It is smart readable relevant and authentically focused on children From the Foreword by Elizabeth Graue Sorenson Professor of Early Childhood Education University of Wisconsin In this deceptively easy to read book Amy Parks explains two things that could make a world of difference in early childhood and elementary classrooms Mathematics isn't something in a workbook it's a fascinating part of the real world And playing in school isn't a luxury it's an essential context for learning about all sorts of things including mathematics Through vignettes of children learning mathematics as they play Parks helps teachers recognize their answerability to the moment eschewing someone else's determination of best practice in favor of what works with actual children eager to learn mathematics Rebecca New School of Education University of North Carolina at Chapel Hill *Investigating Mathematics with Young Children* Rosemary
