One Thousand Kikuyu Proverbs At Nairobi:

Female Genital Mutilation in Africa Daniel Njoroge Karanja,2003-06 Beyond Dichotomies Elisabeth

Mudimbe-Boyi,2012-02-01 Beyond Dichotomies examines literary texts cultural production and concrete local practices within the context of modernity and globalization by focusing on the ways in which some societies confront the complexity of cultures reflected in new forms of knowledge narratives and subjectivities The contributors explore how particular societies negotiate the relations between the global and the local and use a geographical comparative perspective combined with an interdisciplinary approach to offer a diversity of views and illuminate the cultural impact of globalization on different societies around the world Africa Asia Europe and the Americas These societies face complex questions regarding people s histories identities and cultures that embody the ambivalence contradictions and anxieties generated by the process of globalization The contributors provide a compelling conclusion for a rethinking and reconfiguration of cultures and intercultural relations in today s global world in which dichotomized representations coexist with a discourse of globalization

Cultural Production and Change in Kenya Kimani Njogu,2007-06-15 *Art Culture and Society* Vol 1 is the first in a series of

books to be published by Twaweza Communications on the relationship between art and society with special reference to Kenya. It is part of a cultural leadership initiative being undertaken by the organization through a reexamination of the arts as they are produced and studied. This volume brings together important reflections on the arts and is a major step in encouraging dialogue on the relationship between creativity and the human condition in the region. Significantly, it creates a space for university-based academics to engage in dialogue with artists and writers based outside institutions of higher learning. The conversations will bridge the gap between the two domains for knowledge production and enrich creative enterprise in Kenya in theory and practice. As the essays in this collection show, the present global situation demands a way to conceptualise and theorise an ever-growing cultural interconnectedness sometimes manifested in art and interconnectedness that draws from a myriad of cultures and experiences. Through the bridges of contact and cultural exchange, distant images are mediated and brought closer to us. They are reinterpreted and modified. In the final analysis, culture is shown to be an important aspect of human creativity, but separateness and boundedness is contested. Instead, culture is shown to be malleable and fluid. The essays bring in a new freshness to our reading of the creative arts coming out of Kenya.

Culture and Customs of Kenya Neal W. Sobania, 2003-06-30. Kenya, a land of safaris, wild animals, and Maasai warriors, perfectly represents Africa for many Westerners. This peerless single-source book presents the contemporary reality of life in Kenya, an important East African nation that has served as a crossroads for peoples and cultures from Africa, the Middle East, and East Asia for centuries. As such, it is a land rich in cultural and ethnic diversity where unique and dynamic traditions blend with modern influences. Students and general readers will be engrossed in narrative overviews highlighting Kenyan history as well as the beliefs, vibrant cultural expressions, and various lifestyles and roles of the Kenyan population. A chronology, glossary, and numerous photos enhance the narrative. Kenya today struggles with nation building. Its society comprises the haves and the have-nots and faces the challenges of the trend toward urbanization with its attendant disruption of traditional social structures. For Kenyans, the preserving of traditional cultures is as important as making the statement that Kenya is a modern nation. Chapters on the land, people, and history, religion, and worldview, literature, film, and media, art and architecture, cuisine, and traditional dress, gender roles, marriage, and family, and social customs and lifestyle are up to date and written by a country expert. A chronology, glossary, and numerous photos enhance the narrative.

Beyond Mediation Daniel Njoroge Karanja, 2020-09-29. This book offers narrative analysis theory as a vehicle to understand indigenous mediation. The conceptual basis for this manuscript is the undisputed urgent need to understand mediation from a conflict transformation perspective, highlighting the nexus between indigenous justice, forgiveness, and trauma healing. This book is based on the assumptions that local communities have the tools, capabilities that they need to build stable and enduring peaceful co-existence. These capacities have been weakened by the political elite and bankrupt, corrupt leadership approaches that must be rejected through empowerment and rigorous mediation brigades at the local level. The last chapter in the manuscript

proposes a research center for indigenous justice forgiveness and trauma healing in East Africa that will guarantee decades of scholarship and research around this subject in East Africa and beyond

Citizen Participation in Decision Making
Njogu, Kimani, 2014-01-16 This book is a result of public dialogue forums in pursuit of accountable and transparent governance in Kenya organized by Twaweza Communications with the support of Ford Foundation From the convenings it was evident that the stability of Kenya will be driven by the extent to which citizens feel fully included in the development agenda Quite often political leaders view the role of citizens in governance as restricted primarily to their participation in the electoral process This narrow view has led to arrogance and total disregard of citizens after poll results are announced Under the new political dispensation heralded by the promulgation of the Constitution of Kenya on August 27 2010 this trend must change and the sovereignty of the people in theory and practice must be reinscribed The publication raises important issues worth serious reflection It also suggests ways in which citizens can better participate in their own transformation Case studies highlighted in the book exemplify the importance building the Kenyan nation by addressing patterns of exclusion and glaring inequalities The topics covered include multipartism natural resource governance gender politics of identity marginalization of Coastal Kenya youth empowerment and investing in knowledge economy among others The book is a valuable addition to our understanding of the root political and social anxieties in Kenya and how these could be ameliorated

Funeral Rites Reformation for Any African Ethnic Community Based on the Proposed New Funeral Practices for the Agikuyu
Johnson Nganga Mbugua, 2016-06-17 This book has been written on the premise that the mode of coping with death of virtually all African ethnic communities has taken proportions and turns that are neither cultural scriptural nor necessary Current rites are complicated time consuming expensive and are leaving most families and their neighbors impoverished They have been extremely commercialized and a large number of Africans do not have resources to bury their dead the modern way Were the Agikuyu read Africans to curb numerous funeral demands which they deem necessary and customary when in actual fact they are not funerals for them would become cheaper faster and simpler would be decent enough for the dead would take care of those left behind and would be environmentally friendly How Africans in the Diaspora away from their ancestral homeland should cope with death is also addressed Also addressed is the issue of cremation It is shown that at the resurrection God will accord us new spiritual bodies which will have no bearing with the material substance of our earthly mortal bodies

Handbook of Research on Development and Religion
Matthew Clarke, 2013-01-01 With eighty percent of the world's population professing religious faith religious belief is a common human characteristic This fascinating and highly unique Handbook brings together state of the art research on incorporating religion into development studies literature and research The expert contributors illustrate that as religious identity is integral to a community's culture exclusion of religious consideration will limit successful development interventions it is therefore necessary to conflate religion and development to enhance efforts to improve the lives of the poor Issues addressed

include key tenets beliefs and histories of religions religious response to development concerns gender environment education microfinance humanitarian assistance and the role of faith based organisations and missionaries in the wider development context Practical case studies of countries across Africa Eastern Europe and the Pacific including Australia underpin the research providing evidence that the intersection between religion and development is neither new nor static By way of conclusion suggestions are prescribed for extensive further research in order to advance understanding of this nascent field This path breaking Handbook will prove a thought provoking and stimulating reference tool for academics researchers and students in international development international relations comparative religion and theology

Papers on Language and Culture: an African Perspective Mary Nyambura Muchiri, 2009-05-19 Most of the papers reproduced here have either been presented at a national or international conference and some have been published elsewhere I have obtained permission to republish because I think it is important to have them all together The idea came to me when I was asked during an interview why I wrote on such different topics as part of my scholarship The question was based on the different publications in which the person asking had found them I had to explain that they are all on language and culture two areas that are closely interrelated It occurred to me that having all the papers published in one volume would help show how they relate to one another and thereby provide a more meaningful dialogue on the general topic I therefore hope that although each paper stands alone use of cross referencing will provide a cumulative effect that is impossible when the papers are read as separate publications The last chapter is not a paper in the traditional sense in that it is just a list of words However it adds to the readers understanding of the Kikuyu language The semantic domains are a people groups way of understanding categorizing and labeling the world around them I hope it will be especially important as a source for future scholars who will want to analyze the culture and thought processes of their ancestors

Historical Dictionary of Kenya Robert M. Maxon, Thomas P. Ofcansky, 2014-09-09 Kenya has a long and complex history that began thousands of years ago Indeed some archaeologists contend that the country was the cradle of mankind or at the very least one of the places that was home to the earliest hominids In later centuries Kenya's strategic location astride the Indian Ocean and the East African littoral attracted numerous foreign peoples some of the most significant of which have been the Americans Arabs British Chinese French Germans and Portuguese Additionally Africans from throughout the subcontinent have settled in Kenya to escape conflict or political persecution while others wanted an opportunity to begin a new life As a result of being a gateway to the world the country traditionally has been one of the most important business cultural diplomatic and political centers in Africa Although it has maintained this reputation during the post independence period Kenya like most African countries has been plagued by an increasing array of complex economic political and social problems This third edition of Historical Dictionary of Kenya provides a starting point for those interested in any of the phases of Kenya's historical evolution This is done through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has 500
