Body, Gender and Purity in Leviticus 12 and 15 Dorothea Erbele-Küster, 2017-08-10 The so called purity laws in Leviticus 11-15 reflect a cultic and social view on the male and female body. These texts do not give detailed physiological descriptions. Instead, they prescribe what to do in the cases of skin disease, delivery, and woman's genital discharges, but the particular way of dealing with the body and the language used in Leviticus 12 and 15 ask for clarification. How do these texts construct the male and female body? Which roles does gender play within this language? By means of themes like menstruation and circumcision, the author unfolds the language used for the body in Leviticus and its interpretation history. The study provides material for a contemporary anthropology of bodies which relates the human sexed body to God's holiness.

Unruly Books Esther Brownsmith, Liv Ingeborg Lied, Marianne Bjelland Kartzow, 2024-12-12 This volume explores the idea of the unruly book from books now known by their titles alone to books that subverted structures of power and gender. The contributors show how these books functioned as sticky objects and they examine the story of what such books signified to the people who wrote, read, discussed, yearned for, or even prohibited them. The books examined are those of the first millennium of the Common Era and the writings of Judaism, Christianity, Islam, and related traditions. In particular, the contributors examine the bounty of books within this period that are hard to pin down, whether extant, lost, or imagined books that challenge modern scholars to reconceptualize our notions of books, biblical or otherwise, religion, manuscript culture, and intellectual history. Through the critical analyses presented in this volume, the contributors negotiate the diverse stories told by unruly books and show that by listening to the stories that books tell, we learn more about the worlds that imagined and discussed them.

On Femininities in the Song of Songs and Beyond Vita Daphna Arbel, 2022-01-13 Vita Daphna Arbel uses critical theories of gender to offer an alternative reading of the multilayered conceptualization of the Song of Songs's feminine protagonist, the most beautiful woman. Arbel treats the most beautiful woman as a culturally constructed and performed representation of woman and situates this representation within the cultural discursive contexts in which the Song partly emerged. She examines the gender norms and cultural ideologies it both reflects and constructs and considers the manner in which this complex representation disrupts rigid, ahistorical notions of femininity and how it consequently indirectly characterizes womanhood as dynamic and diverse. Finally, Arbel examines the reception and impact of these ideas on later conceptualizations of the Song of Songs' female protagonist with a heuristic examination of Mark Chagall's Song of Songs painting cycle, *Le Cantique des Cantiques*. These compositions, selected for their diverse depictions of the Song's protagonist, their impact on European art, and their vast popularity and bearing in the broader cultural imagination, illustrate a fascinating dialogue between the present and the past about the most beautiful woman and about multiple femininities.

Language and Masculinities Tommaso M. Milani, 2014-12-05 This volume showcases cutting edge research in the

linguistic and discursive study of masculinities comprising the first significant edited collection on language and masculinities since Johnson and Meinhof's 1997 volume. Overall the chapters are linked together by a critical analytical perspective that seeks to understand the relationships between discourse masculinities and power. Whereas some of the chapters offer detailed linguistically informed critiques of the ways in which old and new expressions of masculinities are complicit in the reproduction of men's hegemonic positions of power, others provide a more complex picture, one in which collusion and subversion go hand in hand. Contributions argue for the need for research on language and masculinities to expand its remit so as to engage with gay masculinities and unsettle gendered categories in order to consider the ways in which women, transgender and intersex individuals also perform a variety of masculinities. Finally, unlike Johnson and Meinhof's 1997 collection, this volume not only offers a wider and perhaps queerer perspective on the study of language and masculinities but also covers a broader geographical and socio-cultural spectrum, including work on Brazil, Israel, New Zealand, Singapore and South Africa.

Childhood and Sexuality Allison Moore, Paul Reynolds, 2017-10-25 This book explores how children engage with sex and sexuality Building on a conceptual and legal grounding in sexuality studies and the new sociology of childhood the authors debate the age of consent teenage pregnancy sexual diversity sexualisation sex education and sexual literacy paedophilia and sex in the digital age Whilst Moore and Reynolds recognise the necessity of child protection and safeguarding in the context of risk danger and harm they also argue that where these stifle children's sexual knowledge understanding expression and experience they contribute to a climate of fear ignorance and bad experiences or harms What is necessary is to balance safeguarding with enabling and encourage judicious understandings that advance from a rigid developmental model to one that recognises pleasure and excitement in children's nascent sexual lives Exploring that balance through their chosen issues they seek to encourage changed thinking in professional personal and academic contexts and speculate that children might teach adults something about the way they think about sex Childhood and Sexuality will be of interest to students scholars and professionals across a range of subjects and disciplines including sociology social work criminology and youth studies

Sex(uality) Education for Trans and Gender Diverse Youth in Australia Barrie Shannon, 2022-02-02 This book examines young trans and gender diverse Australians views of school based sex education The analysis is informed by a queer epistemology that acknowledges the systematic and institutional erasure of trans subjectivities through highly medicalised systems of categorisation Drawing on primary qualitative data the author emphasises the accounts of trans and gender diverse young people as they relate to sex education at school and how they undertake informal learning about sex gender and identity in other areas of their lives Ultimately the book problematises the assumption that the sex education classroom is the most appropriate vehicle for social justice education in relation to queer issues Queer issues and sex education tend to be packaged together discursively deliberately or by association in dominant media narratives However this discourse constrains queer identities to the realm of sex and health and therefore does not engage with the social citizenship of queer people Further this limits the capacity of schools and teachers to meaningfully explore diversity in the classroom as sex education is front and centre in the so called culture wars about gender sexuality youth and schools *The Routledge*
