**The Business of Martyrdom** Jeffrey W Lewis, 2012-04-15 The Business of Martyrdom is the only comprehensive history of suicide bombing from its origins in Imperial Russia to the present day It makes use of a framework from the history and philosophy of technology to explain the diffusion and evolution of suicide bombing over the past several decades It is primarily a work of synthesis meant to reach a broad audience and endeavors to integrate as much of the recent scholarly literature as possible including reconciling explanatory mechanisms that seem to be at odds with one another In addition this

book is able to draw on very recent changes in suicide bombing in the years 2008-2010 that allow it to have a slightly different perspective than earlier studies. For the first time the global number of suicide attacks has declined significantly for three years in a row. This book therefore has the advantage of addressing the phenomenon of suicide bombing as a bounded phenomenon with limits to its growth and diffusion. To this point the impression that suicide bombers are the smartest bombs yet created has been widespread but confined to the area of metaphor. Drawing well established ideas from the history of technology, *The Business of Martyrdom* argues that the metaphor should be taken literally. Suicide bombing is a technology that has been invented and re-invented at different times in different areas but always for the same purpose: resolving a mismatch in military capabilities between antagonists by utilizing the available cultural and human resources. Over the past several years analysts have produced a large number of monographs and articles examining suicide bombing. The best contributions in this new and growing literature have shed considerable light on the complexity of suicide bombing in practice, particularly regarding the structure of the organizations that deploy suicide bombers and the relationships between these organizations and the recruits whom they utilize in their attacks. Nevertheless, nagging inconsistencies and questions remain. These inconsistencies can be explained by examining suicide bombing as a technological system that integrates human beings, cultures, and devices and directs them toward specific ends. Such an analysis requires that neither the individual bombers nor their sponsoring organizations be the basic unit of discussion. Instead, the bombers must be understood as components within a much larger system that has been shaped by a host of social, cultural, and operational constraints throughout its existence. Integrating insights from the historical analysis of other technological systems with the recent literature specifically devoted to suicide bombing therefore allows *The Business of Martyrdom* to develop a fuller understanding of suicide bombing as a unified yet diverse phenomenon.

*Crossing Mandelbaum Gate* Kai Bird, 2011  
Pulitzer Prize winner Kai Bird's vivid memoir of an American childhood spent in the midst of the Arab-Israeli conflict in Jerusalem and Saudi Arabia.

*Divided City* Kai Bird, 2010-07-08  
*Crossing Mandelbaum Gate* is a vivid memoir of an American boy growing up in the midst of the Arab-Israeli conflict, three major wars and three decades of political upheavals in the Middle East. Set in Jerusalem (1956-1958), Beirut (1970), Saudi Arabia (1962-1965), Amman, and Cairo (1965-1967), Bird's book explains through a blend of memoir and history why the Western experience in the Middle East has been so turbulent. Through Bird's Zelig-like presence, the reader experiences the Suez War of 1956, the June 1967 War, and the Black September hijackings of 1970 that led to the Jordanian Civil War. Bird's memoir shows how all of these momentous events led to the rise and tragic downfall of a secular Arab nationalist ethos, only to be replaced by the rise of a fundamentalist, politically reactionary Islamist movement. The narrative history tells the stories of such illuminating figures as life-long Jerusalem resident George Antonius, author of *The Arab Awakening*, and his charismatic wife, Jordan's King Hussein, and his CIA connections; the businessman Salem bin Laden, Osama's older brother and a family friend; Saudi kings Faisal and Khalid.

President Nasser of Egypt and Leila Khaled the striking young Palestinian radical who hijacked one of the Black September planes The son of a U S Foreign Service officer Kai Bird spent his formative years with the Arabs but he ended up marrying the only daughter of two Holocaust survivors This Shoah survival story becomes a part of Bird s own personal narrative and provides him with a deeper understanding of the historical relationship between the destruction of European Jewry and the Arab Israeli conflict This extraordinary memoir by a Pulitzer prize winning historian sheds new light on all the wars of the Middle East fought in the name of identity **Israel/Palestine in World Religions** S. Ilan Troen,2024-04-24 The struggle over Israel Palestine is not just another contest by competing nationalisms or an instance of geopolitical competition It is also about control of sacred territory that involves local Jews Muslims and Christians as well as worldwide faith communities each with their own interests and stake in what transpires This balanced introduction to a complex subject presents the multiple positions within the great monotheistic traditions It demonstrates that the secular discourses in the public square concerning ownership privileges historical precedence political rights and justice that have allegedly replaced religious claims actually coexist with and often complement the theological It explores the century long tangle of secular and theological debates about Israel s legitimacy Whether readers support a Jewish state or are resolutely opposed the serious and substantial scholarship of this well reasoned and innovative book will contribute to a nuanced and better informed understanding of this persistent issue that has entered its second century on the international agenda **The New York Times Index** ,2007
