One Nation Ben Carson:

One Nation Ben Carson, MD, Candy Carson, 2014-05-20 Dear Reader In February 2013 I gave a speech at the National Prayer Breakfast Standing a few feet from President Obama I warned my fellow citizens of the dangers facing our country and called for a return to the principles that made America great Many Americans heard and responded but our nation's decline has continued Today the danger is greater than ever before and I have never shared a more urgent message than I do now Our growing debt and deteriorating morals have driven us far from the founders intent We've made very little progress in basic education Obamacare threatens our health liberty and financial future Media elitism and political correctness are out of control Worst of all we seem to have lost our ability to discuss important issues calmly and respectfully regardless of party affiliation or other differences As a doctor rather than a politician I care about what works not whether someone has an R or a D after his or her name We have to come together to solve our problems Knowing that the future of my grandchildren is in jeopardy because of reckless spending godless government and mean spirited attempts to silence critics left me no choice but to write this book I have endeavored to propose a road out of our decline appealing to every American's decency and common sense If each of us sits back and expects someone else to take action it will soon be too late But with your help I firmly believe that America may once again be one nation under God indivisible with liberty and justice for all Sincerely Ben Carson

the economy has been growing and productivity has been growing but trickle down values that we the American people promote pursuant to the Republican Party s conservative ideology have rigged the economy to continuously upwardly redistribute those revenues attributable to our increased productivity yielding a productivity wage disconnect resulting in increased concentration of income and wealth at the top in corporations and among older Americans beneficiaries of income from Social Security pensions and investments and continuing income due to delaying retirement and the lowest percentage

of GDP attributable to wages and highest attributable to profits since World War II But trickle down has not only distorted our economic thought it has also distorted our political thought our sociology and our concept of the rule of law The result has been that the trickle down policies promoted by the Republican Party are undermining our economy democracy institutions and health For further discussion contact author at johnjseip gmail com

America in the United States and the United States in America Gabriel Moran, 2018-08-28 America is five hundred years old the United States is

less than half that age The term America was coined in 1507 to refer to a continent and a dream of a new world People in the United States especially government leaders have a serious problem of regularly speaking as if their country were America Author Gabriel Moran reflects on the use of the word America in the United States from its beginning to the present He cites numerous examples to show the importance of distinguishing between the United States and America The result is a different way of perceiving and understanding the history of the United States This book is especially relevant to the current political division within the United States and some of the missteps in its foreign policy The failure to consistently distinguish between the nation of the United States and the continent and dream America underlies nearly every political cultural and economic problem that the country faces

The Mirage of Change in Nigeria Jonathan Onche Edeh, 2015-06-25 The entirety of this book is an awareness package geared toward first creating a psychological revolution upon which the vital steps toward an imminent genuine and violent revolution must be taken In its most simplest illustrations the author of the book makes a case for why the current purported change making wave in Nigeria does not have what it takes to transform the country but an imminent genuine and violent revolution where the controlling class of the society are displaced by the oppressed class of the Nigeria society who make up for over a hundred and thirty million persons The core objective is to ensure and guaranty the sustainability of Nigeria Statehood than give into a democratic process that lacks what it takes to keep Nigeria as one
