together essays to address the crisis of Higher Education today focusing on its neoliberalization Higher Education has been under assault for several decades as neoliberalism's preference for market based reforms sweeps across the US political economy The recent push for neoliberalizing the academy comes at a time when it is ripe for change especially as it continues to confront growing financial pressure particularly in the public sector The resulting cutbacks in public funding especially to state universities led to a variety of debilitating changes increases in tuition growing student debt more students combining working and schooling declining graduation rates for minorities and low income students increased reliance on adjuncts and temporary faculty and most recently growing interest in mass processing of students via online instruction While many serious questions arise once we begin to examine what is happening in higher education today one particularly critical question concerns the implications of these changes on the relationship of education to as yet still unrealized democratic ideals The 12 essays collected in this volume create important resources for students faculty citizens and policymakers who want to find ways to address contemporary threats to the higher education democracy connection This book was originally published as a special issue of *New Political Science* *The College Buzz Book* Carolyn C.

Wang, 2016-10-01 A volume on Theory and Practice of Adult and Higher Education or Foundations of Adult and Higher Education will appeal to both our graduate students and faculty as so many of them have been taking courses in both program areas and have been concerned with their defined areas of expertise Although theories and practices in Adult Education and in Higher Education are being used interchangeably there is a lack of scholarly work that connects existing theories and practices across the two fields The proposed ground breaking volume will cover topics theories practices in both fields of Adult Education and of Higher Education and in doing so will bring to the fore the connections that make these two fields truly inseparable The proposed volume will therefore generate new knowledge to share among faculty graduate students and other researchers who practice not only in Adult Education but also in Higher Education Teacher Education Policy in the United States Penelope M.
