The Ashgate Research Companion to Military Ethics James Turner Johnson, Eric D. Patterson, 2016-03-23 This Companion provides scholars and graduates serving and retired military professionals members of the diplomatic and policy communities concerned with security affairs and legal professionals who deal with military law and with international law on armed conflicts with a comprehensive and authoritative state of the art review of current research in the area of military ethics Topics in this volume reflect both perennial and pressing

contemporary issues in the ethics of the use of military force and are written by established professionals and respected commentators. Subjects are organized by three major perspectives on the use of military force: the decision whether to use military force in a given context; the matter of right conduct in the use of such force; and ethical responsibilities beyond the end of an armed conflict. Treatment of issues in each of these sections takes account of both present day moral challenges and new approaches to these, and the historical tradition of just war. Military ethics, as it has developed, has been a particularly Western concern, and this volume reflects that reality. However, in a globalized world, awareness of similarities and differences between Western approaches and those of other major cultures is essential. For this reason, the volume concludes with chapters on ethics and war in the Islamic, Chinese, and Indian traditions, with the aim of integrating reflection on these approaches into the broad consideration of military ethics provided by this volume.

Incorporating Indigenous Rights in the International Regime on Biodiversity Protection Federica Cittadino, 2019-08-12. In *Incorporating Indigenous Rights in the International Regime on Biodiversity Protection*, Federica Cittadino convincingly interprets the Convention on Biological Diversity (CBD) and its related instruments in light of indigenous rights and the principle of self-determination. Cittadino's harmonisation of these formally separated regimes serves at least two main purposes. First, it ensures respect for the human rights framework that protects indigenous rights whilst implementing the biodiversity regime. Second, harmonisation allows for the full operationalisation of the indigenous-related provisions of the CBD framework that concern traditional knowledge, genetic resources, and protected areas. Federica Cittadino successfully demonstrates that the CBD may allow for the protection of indigenous rights in ways that are more advanced than under current human rights law.

New to this Edition: Fully updated and includes a new chapter on Libya and the Arab Spring. Chapters on theory modernised to reflect changes in scholarship.

Non-Governmental Organisations in International Law Anna-Karin Lindblom, 2005. Even when governments have no democratic basis, they are regarded as the sole representatives of their populations on the international plane and take important decisions on their behalf. It is therefore important that other voices can be heard in international fora alongside governments. NGOs have an increasingly important legal and political role and use several different avenues for their work, such as lodging cases before international courts and other bodies and participating in international meetings and conferences. This book explores these possibilities for the participation of NGOs in international law.

The Ethics of Internet Research Heidi A. McKee, James E. Porter, 2009. Drawing from interviews with Internet researchers from across the globe who work in diverse disciplines and in

a wide array of online venues this book examines ethical issues and questions that Internet researchers may encounter throughout the research process Although the ethics of Internet research are complex the aim of the book is to provide a rhetorical case based process to aid researchers in ethical decision making In doing so the book provides Internet researchers with useful resources and heuristics for engaging in ethical practices interactions and problem solving for their research The Writers Directory ,2013 **Transnational Activism in the UN and the EU** Jutta Joachim,Birgit Locher,2008-11-04 Comparing non governmental organizations NGOs in the United Nations and the European Union across a range of different issue areas this volume examines how the choice of venue and institution affects the strategies of NGOs Despite significant differences with respect to their scope membership as well as their institutional rules the authors find that the UN and the EU have surprisingly similar effects on civil society organizations and regulate access in such a way that it significantly constrains the agency of NGOs Highlights include A comprehensive outline of the volume s main research questions situated within the existing literature on the topic Eight case studies of NGO involvement in the UN and the EU across a range of different areas including human rights the environment socio economic and security issues A theoretically grounded summary of case study findings challenging the findings of previous studies regarding the power of NGOs A discussion of the finding s implications for the broader literature as well as for studies relating to the EU and the UN in particular Transnational Activism in the UN and the EU will be of interest to students and scholars of International Relations European Studies and Global Politics Jutta Joachim is Associate Professor of Political Science at the University of Hannover Germany Birgit Locher is a Research Fellow at the Institute of Political Science at the University of T bingen Germany

Human Rights, Iranian Migrants, and State Media Shabnam Moinipour,2019-06-21 This book offers a detailed analysis of the Islamic Republic of Iran s approach towards human rights in the media It looks at the state owned and state controlled Islamic Republic of Iran Broadcasting IRIB employing content analysis and multimodal critical discourse analysis to explore its underlying strategies in portraying the international rights norms The book also features analysis of surveys and interviews of recent Iranian migrants to determine the extent to which the Iranian public is aware of human rights principles and their views on whether and how the international rights norms are portrayed on IRIB The Ashgate Research Companion to International Criminal Law Yvonne McDermott,2016-03-23 International criminal law is at a crucial point in its history and development and the time is right for practitioners academics and students to take stock of the lessons learnt from the past fifteen years as the international community moves towards an increasingly uni polar international criminal legal order with the International Criminal Court ICC at the helm This unique Research Companion takes a critical approach to a wide variety of theoretical practical legal and policy issues surrounding and underpinning the operation of international criminal law as applied by international criminal tribunals The book is divided into four main parts The first part analyses international crimes and modes of liability with a view to identifying areas which have been

inconsistently or misguidedly interpreted overlooked to date or are likely to be increasingly significant in future The second part examines international criminal processes and procedures and here the authors discuss issues such as victim participation and the rights of the accused The third part is a discussion of complementarity and sentencing while the final part of the book looks at international criminal justice in context The authors raise issues which are likely to provide the most significant challenges and most promising opportunities for the continuing development of this body of law As international criminal law becomes more established as a distinct discipline it becomes imperative for international criminal scholarship to provide a degree of critical analysis both of individual legal issues and of the international criminal project as a whole This book represents an important collective effort to introduce an element of legal realism or critical legal studies into the academic discourse

State Participation in International Treaty Regimes Srinivasan,2016-04-01 Why do some states resist entering into international treaty regimes while others demonstrate eagerness to participate Although factors such as degree of pressure exerted by international actors ambiguity in the treaty language and a regime's lack of teeth enforcement and sanctioning mechanism do affect participation this book investigates whether internal domestic factors may ultimately be responsible for influencing why a state resists or joins international treaty regimes The volume draws on United Nations treaty ratification data from three different issue areas arms control environment and human rights to study the participation patterns of democracies and non democracies in international treaty regimes Incorporating two in depth case studies on the United States and China the author traces the impact of domestic institutional structure state capacity and internal social norms on state decisions to resist or participate

The Globalization of Hate Jennifer Scheppe,Mark Austin Walters,2016-05-26 The Globalisation of Hate Internationalising Hate Crime is the first book to examine the impact of globalisation on our understanding of hate speech and hate crime Bringing together internationally acclaimed scholars with researchers policy makers and practitioners from across the world it critically scrutinises the concept of hate crime as a global phenomenon seeking to examine whether hate crime can or should be conceptualised within an international framework and if so how this might be achieved Beginning with the global dynamics of hate the contributors analyse whether hate crime can be defined globally whether universal principles can be applied to the phenomenon how hatred is spread and how it impacts upon our global society The middle portion of the book moves beyond the broader questions of globalisation to jurisdictional examples of how globalisation impacts upon our understanding of and also our responses to hate crime The chapters explore in greater detail what is happening around the world and how the international concepts of hate crime are being operationalised locally drawing out the themes of globalisation and internationalisation that are relevant to hate crime as evidenced by a number of jurisdictions from Europe the US Asia and Africa The final part of the book concludes with an examination of the different ways in which hate speech and hate crime is being combatted globally International law internet regulation and the use of restorative practices are evaluated as methods of addressing hate based

conflict with the discussions drawn from existing frameworks as well as exploring normative standards for future international efforts Taken together these innovative and insightful contributions offer a timely investigation into the effects of hate crime offering an interdisciplinary approach to tackling what is now a global issue It will be of interest to scholars and students of criminology sociology and criminal justice as well as criminal justice practitioners police officers and policy makers 1 Test Test Test test Legal Traditions of the World H.
