Online Inside Room Untold Irelands Government:

Inside the Room Eamon Gilmore, 2015-10-30 March 2011 Enda Kenny and Eamon Gilmore have just formed a coalition government between Fine Gael and Labour Ireland's banks are broken unemployment is heading for half a million the public finances are in deficit international lenders rate Ireland as junk and the country is in an IMF bailout As T naiste in the new Coalition Eamon Gilmore was at the heart of every major economic decision taken during his term and as Minister for Foreign Affairs and Trade was primarily responsible for restoring Ireland's international reputation and trade connections In his extraordinary political memoir of these dramatic and turbulent times Eamon Gilmore writes frankly about the political price the Labour Party has paid for some of their choices reflects on the circumstances that led to his own resignation and assesses the prospects for Ireland's continued recovery including the risks which could yet blow Ireland's economy off course

The European left and the financial crisis Michael Holmes, Knut Roder, 2019-08-27 This timely collection addresses key questions including How did political parties from the Left respond to the crisis What does the crisis mean for the relationship between the Left and European Integration and what does it mean for socialism as an economic political and social project

Strained Peace: Northern Ireland from Good Friday to Brexit Amanda Hall, 2024-09-30 As the United Kingdom continues to grapple with the aftermath of Brexit one corner of the Union has remained caught in the crosshairs Northern Ireland has been the subject of renewed scrutiny since 2016 as efforts to leave the European Union come up against the terms of the Good Friday Agreement and threaten the region's hard won peace The reasons for these challenges can be traced back to the Agreement itself as the negotiated settlement and its immediate aftermath set in place a strained peace This book examines the function and dysfunction of peace after 1998 to explain why its endurance cannot be taken for granted Strained peace stands apart from the traditional peace violence binary Structures of conflict and patterns of division are reiterated in the structures of peace Tensions might relax just as they might be inflamed by new challenges but the threat of a return to violence is never fully gone This book explores how such a condition developed between Good Friday and Brexit addressing variations in the quality of peace in the insecurity of official structures at Stormont the shifting role of community groups and the third sector and the adaptation of culture as a culture war replaced physical violence on the streets

Legacies of the Surveillance State Cliodhna Pierce, 2025-02-19 In an age of invasive technology and mass data collection how can we understand the true impact of surveillance on our lives and communities Legacies of the Surveillance State offers a chilling exploration of two historical surveillance societies East Germany and Northern Ireland during the 1970s and 1980s to provide a unique perspective on the human cost of surveillance Cliodhna Pierce delves into the chilling similarities in surveillance tactics used by these ideologically opposed regimes revealing the profound and lasting consequences for those living under constant scrutiny Through a comparative analysis and personal testimonies from those who lived through it Pierce uncovers the mechanisms of control the manipulation of information and the chilling effects on

individual liberties and community cohesion This book is a powerful reminder of the importance of vigilance in protecting our freedoms and a must read for anyone concerned about the growing reach of surveillance in our modern world It will appeal to scholars and students of surveillance studies sociology history political science policing and criminology security studies and science and technology studies

The Information Trade Alexis Wichowski, 2020-02-11 A timely compelling and expertly researched passport to the tech companies that rule today's digital landscape Blake Harris bestselling author of Console Wars and The History of the Future In this provocative book about our new tech based reality political insider and tech expert Alexis Wichowski considers the unchecked rise of tech giants like Facebook Google Amazon Apple Microsoft and Tesla what she calls net states and their unavoidable influence in our lives Rivaling nation states in power and capital today's net states are reaching into our physical world inserting digital services into our lived environments in ways both unseen and at times unknown to us They are transforming the way the world works putting our rights up for grabs from personal privacy to national security Combining original reporting and insights drawn from more than 100 interviews with technology and government insiders including Microsoft president Brad Smith Google CEO Eric Schmidt the former Federal Trade Commission chair under President Obama and the managing director of Jigsaw Google's Department of Counter terrorism against extremism and cyber attacks The Information Trade explores what happens we give up our personal freedom and individual autonomy in exchange for an easy plugged in existence and shows what we can do to control our relationship with net states before they irreversibly change our future

Local Citizenship in the Global Arena Sally Findlow, 2016-11-03 Local Citizenship in the Global Arena proposes a reconsideration of both citizenship and citizenship education moving away equally from prevailing global citizenship and fundamental British values approaches towards a curriculum for education that is essentially about creating cosmopolitan included and inclusive politically engaged citizens of communities local national and global Viewing education as both problem and solution Findlow argues that today's climate of rapid and unpredictable geopolitical and cultural re scoping requires an approach to citizenship education that both reflects and shapes society paying attention to relationships between the local and global aspects of political voice equality and community Drawing on a range of international examples she explores the importance and possibilities of a form of education that instead of promoting divisive competition educates about citizenship in its various forms and encourages the sorts of open and radical thinking that can help young people cross ideological and physical borders and use their voice in line with their own and others real long term interests Successive chapters develop this argument by critically examining the key elements of citizenship discourses through the interrelated lenses of geopolitical change nationalism the competition fetish critical pedagogy multiculturalism protest politics feminism and ecology and highlighting ways in which the situationally diverse lived realities of citizenship have been mediated by different forms of education The book draws attention to how we think of education's place in a world of combined globalisation localism anti state revolt and xenophobia It will be of key interest to

A Matter of Simple Justice Lee Stout, 2020-03-04 In August 1972 Newsweek proclaimed that the person in Washington who has done the most for the women's movement may be Richard Nixon Today opinions of the Nixon administration are strongly colored by foreign policy successes and the Watergate debacle Its accomplishments in advancing the role of women in government have been largely forgotten Based on the A Few Good Women oral history project at the Penn State University Libraries A Matter of Simple Justice illuminates the administration's groundbreaking efforts to expand the role of women and the long term consequences for women in the American workplace At the forefront of these efforts was Barbara Hackman Franklin a staff assistant to the president who was hired to recruit more women into the upper levels of the federal government Franklin at the direction of President Nixon White House counselor Robert Finch and personnel director Fred Malek became the administration's de facto spokesperson on women's issues She helped bring more than one hundred women into executive positions in the government and created a talent bank of more than a thousand names of qualified women The Nixon administration expanded the numbers of women on presidential commissions and boards changed civil service rules to open thousands more federal jobs to women and expanded enforcement of antidiscrimination laws to include gender discrimination Also during this time Congress approved the Equal Rights Amendment and Nixon signed Title IX of the Education Amendments into law

Featuring a new forward by Sara Eisen this updated edition of *A Matter of Simple Justice* celebrates the 100th anniversary of women's suffrage in the United States through the story of Barbara Hackman Franklin and those few good women and shows how the advances that were made in this time by a Republican presidency both reflected the national debate over the role of women in society and took major steps toward equality in the workplace for women **You're Hired!** Casey B.

Mulligan, 2020-09-03 Donald J Trump had essentially zero experience running for office and his candidacy for President of the United States was opposed by many in both parties that dominate American politics Nevertheless in 2016 the American people told him You're hired As an insider scholar and Chief Economist of the President's Council of Economic Advisers Casey Mulligan presents riveting first hand accounts of President Trump's engagement with policy and politics The struggle between Trump and a ruling class is skillfully presented by revealing business practices that President Trump is using to dismantle and reshape the Federal administrative state It proves that today's populism has some real substance but also acknowledges Trump's political incorrectness You're Hired brilliantly details the administration's successes and failures alongside the scandals and accurately portrays the approach and capabilities of our President and our government You will feel like an insider as you learn how Trump handles auto companies Senator Bernie Sanders immigration international aid the 2016 election Twitter and more that the news media has often failed to report or explain Rigorous evidence is detailed on assertions that the White House staff is in perpetual chaos which is directly attributable to the President Imperial Debris Ann Laura Stoler, 2013-05-10 *Imperial Debris* redirects critical focus from ruins as evidence of the past to ruination as the processes through which imperial power occupies the present Ann Laura Stoler's introduction is a manifesto a compelling call for postcolonial studies to expand its analytical scope to address the toxic but less perceptible corrosions and violent accruals of colonial aftermaths as well as their durable traces on the material environment and people's bodies and minds In their provocative tightly focused responses to Stoler the contributors explore subjects as seemingly diverse as villages submerged during the building of a massive dam in southern India Palestinian children taught to envision and document ancestral homes razed by the Israeli military and survival on the toxic edges of oil refineries and amid the remains of apartheid in Durban South Africa They consider the significance of Cold War imagery of a United States decimated by nuclear blast perceptions of a swath of Argentina's Gran Chaco as a barbarous void and the enduring resonance in contemporary sexual violence of atrocities in King Leopold's Congo Reflecting on the physical destruction of Sri Lanka on Detroit as a colonial metropole in relation to sites of ruination in the Amazon and on interactions near a UNESCO World Heritage Site in the Brazilian state of Bahia the contributors attend to present day harms in the occluded unexpected sites and situations where earlier imperial formations persist Contributors Ariella Azoulay John F Collins Sharad Chari E Valentine Daniel Gastón Gordillo Greg Grandin Nancy Rose Hunt Joseph Masco Vyjayanthi Venuturupalli Rao Ann Laura Stoler *The Parliamentary Monitor*, 2004 Library Literature, 1934 An index to library and information science The Speaker, 1893

Nagourney,2013-07-30 The definitive account of the gay rights movement Dudley Clendinen and Adam Nagourney's Out for Good is comprehensive authoritative and excellently written This is the definitive account of the last great struggle for equal rights in the twentieth century From the birth of the modern gay rights movement in 1969 at the Stonewall riots in New York through 1988 when the gay rights movement was eclipsed by the more urgent demands of AIDS activists this is the remarkable and until now untold story of how a largely invisible population of men and women banded together to create their place in America's culture and government Told through the voices of gay activists and their opponents filled with dozens of colorful characters Out for Good traces the emergence of gay rights movements in cities across the country and their transformation into a national force that changed the face of America forever Out for Good is the unforgettable chronicle of an important and nearly lost chapter in American history Condemned Graham Seal,2021-05-18 A powerful

account of how coerced migration built the British Empire In the early seventeenth century Britain took ruthless steps to deal with its unwanted citizens forcibly removing men women and children from their homelands and sending them to far flung corners of the empire to be sold off to colonial masters This oppressive regime grew into a brutal system of human bondage which would continue into the twentieth century Drawing on firsthand accounts letters and official documents Graham Seal uncovers the traumatic struggles of those shipped around the empire He shows how the earliest large scale kidnapping and transportation of children to the American colonies were quickly bolstered with shipments of the poor criminal and rebellious to different continents including Australia From Asia to Africa this global trade in forced labor allowed Britain to build its colonies while turning a considerable profit Incisive and moving this account brings to light the true extent of a cruel strand in the history of the British Empire **High Above** Chris Forrester,2011-08-27 Frequently it is suggested that the golden

age of television was during the period 1950 1960 It is true that television almost ruined Hollywood's fortunes during this period But if this was the authentic golden age then it was an age of black and white somewhat limited creativity poor reception lack of competition except in the United States and by and large public service broadcasting However if we take 1950 as a generic starting point for modern television broadcasting then we talk about a kind of prehistoric stage of the medium in which it remained for the best part of three decades The younger days of broadcasting were the 1980s the time when commercial television started on a large scale and in this youth was getting younger in terms of programming Luxembourg based SES Astra appeared on the scene at exactly this time Astra was instrumental in the dramatic developments in television that we have witnessed since then This is the story we want to tell in this book Without satellite technology and the success of satellite reception without the resulting mass market penetration of television sets and general economic prosperity we would not have the necessary base ingredients to make the great leap forward into digital into HDTV 3D television and the prospects of Ultra High Definition now in sight **Exploring Japaneseness** Ray T.

Donahue,2002-04-30 Today the Japanese nation faces an identity crisis as it attempts to contend with the misfortunes endured in the 1990s This collection of essays attempts to address the contemporary state of what it means to be Japanese It provides a multidisciplinary perspective **The British National Bibliography** Arthur James Wells,2007
