*Herder* Anik Waldow, Nigel DeSouza, 2017-03-24 J G Herder is enjoying a renaissance in philosophy and across the humanities This book offers important new insights into the complexity and depth of his thought This unprecedented collection fills a gap in the secondary literature highlighting the genuinely innovative and distinctive nature of Herder's philosophy Not only does Herder offer highly original answers to important philosophical questions such as the mind body problem and the role of sensibility in cognition and ethics he also opens up rich resources for thinking about the very nature of philosophy itself and its connections to other fields in the humanities and social sciences *Herder Philosophy and Anthropology* brings together a set of original essays that centre on the question at the heart of Herder's philosophical thought How can philosophy enable an understanding of the human being that does not narrowly focus on its rational and moral capacities but rather understands these in the context of its existence as a creature of nature that is fundamentally marked by a sensuous and affective openness and responsiveness to the world and other persons The first part of the volume examines the various dimensions of Herder's philosophical understanding of human nature through which he sought methodologically to delineate a genuinely anthropological philosophy The second part then examines further aspects of this understanding of human nature and what emerges from it the human animal distinction how human life evolves over space and time on the basis of a natural order the fundamentally hermeneutic dimension to human existence and the interrelatedness of language history religion and culture

**Play Among Books** Miro Roman, Alice\_ch3n81, 2021-12-06 How does coding change the way we think about architecture This question opens up an important research perspective In this book Miro Roman and his AI Alice\_ch3n81 develop a playful scenario in which they propose coding as the new literacy of information They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an infinite flow of real books Focusing on the intersection of information technology and architectural formulation the authors create an evolving intellectual reflection on digital architecture and computer science

**Beyond Ontological Blackness** Victor Anderson, 2016-10-06 In this study Victor Anderson traces instances of ontological blackness in African American theological religious and cultural thought arguing that African American critical thought has been trapped in a racial rhetoric that it did not create and which cannot serve it well Drawing together 18th and 19th century accommodationism and its assimilationist heirs with the movements of Black Power and Afrocentrism Anderson shows that all exhibit a similar structure of racial identity He suggests that it is time to move beyond the confines of the cult of black heroic genius to what Bell Hooks has termed postmodern blackness a racial discourse that leaves room to negotiate African American identities along lines of class gender sexuality and age as well as race

**History and Morality** Donald Bloxham, 2020 Should historians make value judgements about the past Many historians think not but Donald Bloxham contends that it is legitimate often unavoidable and frequently important History and Morality illuminates

how far tacit moral judgements infuse works of history and how strange those histories would look if the judgements were removed [Historical Abstracts](#) ,2000 **John Bull through foreign Spectacles** Antonia Gießmann-Konrads,2020-12-02

Seit Mitte des 19 Jahrhunderts entwickelte sich Humor in Deutschland in ein kommerzielles Produkt des Massenmarktes. Einen wesentlichen Anteil an dieser Entwicklung hatten politische Witzblätter wie der Berliner Kladderadatsch und die hier publizierten Karikaturen und Texte. England avancierte dabei zu einem programmatischen Bezugspunkt dieses Zeitschriftentyps und kann somit als repräsentative Sonde dienen, um zu Erkenntnissen über Mechanismen und Funktionsweisen der Humorproduktion im 19. und Anfang des 20. Jahrhunderts zu gelangen. Antonia Gießmann-Konrads fragt nach den Entstehungsbedingungen dieses englandspezifischen Humors in der Zeit vom Krimkrieg bis zum Burenkrieg. Wie funktionierte die Konstruktion von Fremd- bzw. Nationenbildern im Medium Humor? Wie entstand Humor im Spannungsfeld von öffentlicher Meinung, Politik, gesellschaftlichen Normen und Tabus? Was war wann, sag- und zeigbar und warum und welche soziale Funktion kam Humor in den verschiedenen Kontexten zu? [Arts & Humanities Citation Index](#) ,1995.
