One Body One Spirit Principles Of Successful Multiracial Churches:

One Body, One Spirit George Yancey, 2009-09-20 When the church began an amazing diversity of people from different geographic cultural and linguistic backgrounds gathered together to confess a common faith in Jesus Christ The apostle Paul cast a vision of one body where Jew and Gentile would worship together in unity The Revelation to John likewise foreshadows an eternal future where all nations will join together at the throne of the Lamb Sadly Christianity has not often lived up to this ideal The history of the church has been marked by continued segregation ethnic strife and racial division But at the dawn of a new millennium hopeful signs of change are emerging As society diversifies local churches find themselves interacting with people from every tribe and tongue But not every church is equipped to handle the realities of ethnic and racial diversity in their congregational life Sociologist George Yancey's groundbreaking research on multiracial churches offers key principles for church leaders who want to minister to people from a variety of racial and cultural backgrounds Insights from real life congregations provide concrete examples of how churches can welcome those who have been marginalized giving people of all heritages a sense of ownership and partnership in the life of the church Based on data from a landmark Lilly Endowment study of multiracial churches across America this volume offers insights and implications for church leadership worship styles conflict resolution and much more Here is an essential resource for pastors and church leaders committed to cultural ethnic and racial reconciliation in their congregations **One body, one spirit** George A.

to the Light of the World , **Plunging into the Kingdom Way** Tim Dickau,2011-01-01 What practices might a community of faith take up that will bear witness to the alternative world Jesus envisions and calls us towards That is the question that Grandview Calvary Baptist Church an initially small and fragile group of Christ followers has kept asking over the last twenty years Along the way this small group has spawned a vibrant community of faith that has traveled along four trajectories towards a shared life in community radical hospitality justice for the least and confession leading to transformation In a culture where individualism consumerism injustice and autonomy shape us all these practices have re shaped not only the people of this church but also the neighborhood they inhabit in the East side of Vancouver British Columbia For anyone wanting to recover ancient but newly shaped practices of the first disciples Plunging into the Kingdom Way offers renewed hope By relating their story in conversation with a host of theologians sociologists and philosophers Tim Dickau sparks the imagination for how you and your friends your community or your church can live out the radical vision of Jesus in your neighborhood today Plunge in and you will discover renewed hope that you can actually follow the way of Jesus today *The Oxford Handbook of Religious Diversity* Chad V. Church and Academy in Harmony Tony Blair, 2010-08-01 Why do church leaders and the leaders of their institutions of higher learning seem to speak different languages Why are relationships between church and academy so filled with tension and misunderstanding This insightful and provocative volume written by one with leadership experience in both camps explains those dynamics Tony Blair parses the cultural and theological trends that have created this gap in recent decades and notes how those same patterns yet offer hope for the future Blair delineates five models of more collaborative relationships between church and academy three of which are drawn from the creative positioning of existing institutions that serve as case studies and two of which describe the academy of the future For church and university leaders alike as well as all those who care about the relationship of these two essential institutions in the fulfillment of God's kingdom Church and Academy in Harmony offers a readable and intelligent analysis

Race and American Political Development Joseph E. Lowndes, Julie Novkov, Dorian T. Warren, 2012-11-12 Race has been present at every critical moment in American political development shaping political institutions political discourse public policy and its denizens political identities But because of the nature of race its evolving and dynamic status as a structure of inequality a political organizing principle an ideology and a system of power we must study the politics of race historically institutionally and discursively Covering more than three hundred years of American political history from the founding to the contemporary moment the contributors in this volume make this extended argument Together they provide an understanding of American politics that challenges our conventional disciplinary tools of studying politics and our conservative political moment's dominant narrative of racial progress This volume the first to collect essays on the role of race in American political history and development resituates race in American politics as an issue for sustained and broadened critical attention

This Side of Heaven Robert J. Priest, Alvaro L. Nieves, 2006-12-07 In recent years Christian scholars have become increasingly aware of their responsibility to recognize and respond to the challenges posed by ethnic and racial diversity Similarly historically white Christian colleges universities seminaries and congregations are struggling to transform themselves into communities that are welcoming to minorities and sensitive to their needs This collection of all new essays is meant to enable those who are engaged in these initiatives to understand the historical linkage of race ethnicity and Christianity and to explore the ways in which constructive change can be achieved The volume is the product of a long term study funded by the Wabash Center for Teaching and Learning in Theology In the course of this study it emerged that many Christian institutions now offer courses

on race and ethnicity but that there is very little relevant literature written from the standpoint of rigorous Christian scholarship This book is intended to fill that gap The authors address such questions as What has been the history of Christian churches and leaders in relation to slavery segregation and apartheid Which biblical texts and doctrines have historically been employed on behalf of racial projects and which are relevant to the racial and ethnic crises of our day How have religious leaders constructively engaged such crises How do congregations shape the values civic commitments understandings and sensitivities of their membership How can local congregations be sites for racial reconciliation and justice initiatives Are there positive models for how churches and other religious institutions have helped to bring healing to racial and ethnic tensions and divides How might Christians in the professions work to bring justice to business education government and other areas of society When good intentions fail to accomplish desired ends how do we analyze what went wrong Written by an interracial and interethnic team of scholars representing diverse disciplines this book will meet a pressing need and set a new standard for the discussion of race and ethnicity in the Christian context **Beyond Racial**

McSwain, 2013-05-30 Leading is a calling from God but that doesn't mean it is easy There are choices to be made about what your congregation believes how your church organizes for effective ministry and how your church serves the settings of which you are a part The good news is that others have gone before you Author Larry L McSwain's forty years of experience can help guide you through these choices Rooted in research The Calling of Congregational Leadership teaches a three pronged approach to congregational leadership being a good leader the knowledge needed by the leader and the managing of ministry leadership By using this practical holistic approach to leading congregations McSwain shows you how to use your church's potential for conveying the power of God in the lives you touch The Calling of Congregational Leadership is for those who seek to enlarge the understanding of their leadership to make their communities of faith more vital and more reflective of the mission of God in the world *Faith and Race in American Political Life* Robin Dale Jacobson, Nancy D. Wadsworth, 2012 Drawing on scholarship from an array of disciplines this volume provides a deep and timely look at the intertwining of race and religion in American politics The contributors apply the methods of intersectionality but where this approach has typically considered race class and gender the essays collected here focus on religion too to offer a theoretically robust conceptualization of how these elements intersect and how they are actively impacting the political
