On Guard Milton Lipson, 1975 A descriptive analysis of the industry by a specialist in security and investigation The author begins by explaining why the industry is very much a product of its history tracing the sorting out over two centuries of private versus public police functions His analysis covers the principal categories of private security The typical uses and abuses of security guards are discussed Personnel and training practices are examined and criticized In background and experience fraud investigators are seen as contributing greatly to the reputation and effectiveness of the industry The armored car segment is generally effective with most losses due to failure by employees to follow prescribed procedures Need is seen for improved security equipment especially in alarm systems Lipson is most critical of the lack of private security legislation He concludes that there is a need for an institute for private security independent of the industry for research evaluation as a teaching facility and as an aid to congress in suggesting regulatory legislation **The Human**

Up, Women of God Lisa Fahey, 2015-12-11 One day as I was sitting in church I began to look around at the diverse group of women seated around me the following questions raced about in my mind Do the women know that God is deeply in love with them That God is pursuing and longing to have a relationship with them Do they want more Do they know God has a specific purpose just for them In this compelling in depth study of Scripture and the Catechism we will dive into 1 John and 2 John to find answers to these questions Gods love for you is greater than your imagination can behold He wants you to consume his extreme love and bestow it upon those around you When one pours out the abundance of Gods love from their soul they will

be well on their way to a life full of purpose and meaning Our church and the world need women to rise up and be the women that God has designed and called us to be
