Phalen, 2013-11-05

In the early 20th century a new and distinctive concept of the audience rose to prominence The audience was seen as a mass a large collection of people mostly unknown to one another that was unified through exposure to media This construct offered a pragmatic way to map audiences that was relevant to industry government and social theorists In a relatively short period of time it became the dominant model for studying the audience Today it is so pervasive that most people simply take it for granted Recently media scholars have reopened inquiry into the meaning of audience They question the utility of the mass audience concept characterizing it as insensitive to differences among audience members inescapably bound up with discredited notions of mass society or serving only a narrow set of industrial interests The authors of this volume find that these assertions are often false and unwarranted either by the historical record or by contemporary industry practice Instead they argue for a rediscovery of the dominant model by summarizing and critiquing the very considerable body of literature on

audience behavior and by demonstrating different ways of analyzing mass audiences Further they provide a framework for understanding the future of the audience in the new media environment and suggest how the concept of mass audience can illuminate research on media effects cultural studies and media policy *Dictionary of Scripture and Ethics* Joel B. Green, Jacqueline Lapsley, Rebekah Miles, Allen Verhey, 2011-11 Leading scholars from the fields of biblical studies and ethics provide a one stop reference book on the vital relationship between Scripture and ethics *Communication Yearbook 14* James A. Anderson, 2012-03-22 The Communication Yearbook annuals publish diverse state of the discipline literature reviews that advance knowledge and understanding of communication systems processes and impacts across the discipline Sponsored by the International Communication Association each volume provides a forum for the exchange of interdisciplinary and internationally diverse scholarship relating to communication in its many forms This volume re issues the yearbook from 1991 **Theories of Human Communication** Stephen W. Littlejohn, Karen A. Foss, John G. Oetzel, 2016-12-22 The Eleventh Edition is organized around 1 elements of the basic communication model communicator message medium and beyond human communication and 2 communication contexts relationship group organization health culture and society A new chapter discusses four frameworks by which theories can be organized students can see how theories contribute to and are impacted by larger issues about the nature of inquiry To provide comprehensive up to date coverage of theories the authors surveyed articles in communication journals published over the last five years Each chapter covers an average of 13 theories half of which are new to this edition New areas covered include health social media and beyond human communication communication between humans and nature humans and objects humans and technology humans and the divine From the Source boxes give students a look at the theorists behind the theories their inspirations motivations and goals Written in an accessible style the book is ideal for upper division undergraduate classes and as a comprehensive summary of major theories for the graduate level *The Routledge Companion to the Cultural Industries* Kate Oakley, Justin O'Connor, 2015-05-22 The Routledge Companion to the Cultural Industries is collection of contemporary scholarship on the cultural industries and seeks to re assert the importance of cultural production and consumption against the purely economic imperatives of the creative industries Across 43 chapters drawn from a wide range of geographic and disciplinary perspectives this comprehensive volume offers a critical and empirically informed examination of the contemporary cultural industries A range of cultural industries are explored from videogames to art galleries all the time focussing on the culture that is being produced and its wider symbolic and socio cultural meaning Individual chapters consider their industrial structure the policy that governs them their geography the labour that produces them and the meaning they offer to consumers and participants The collection also explores the historical dimension of cultural industry debates providing context for new readers as well as critical orientation for those more familiar with the subject Questions of industry structure labour place international development consumption and regulation are all explored in terms of their

historical trajectory and potential future direction By assessing the current challenges facing the cultural industries this collection of contemporary scholarship provides students and researchers with an essential guide to key ideas issues concepts and debates in the field
