United Nations Educational Organizations,2010-06-30 The Digital NBA Steven Secular,2023-06-20 The National Basketball Association reaches a global audience via a multiplatform strategy that leverages its uncanny ability to connect fans to all things NBA Steven Secular brings readers inside the league s global operations and traces the history of the NBA s approach to sports media from its 1980s embrace of cable through the streaming revolution of the twenty first century As fans around the world stream games and other league content NBA teams incorporate foreign languages and cultures into broadcasts to boost their product s appeal to audiences in Brazil China and beyond Secular s analysis reveals how the NBA continues to transform itself into a wildly successful media producer and distributor more akin to a streaming studio than the sports leagues of old even as its media partners and sponsors erase any notion of sports as a civic good A timely look at a dynamic media landscape The Digital NBA shows how the games we love became content first and sport a distant second **Locked Out** Evan Elkins,2019-08-31 A rare insight into how industry practices like regional restrictions have shaped global media culture in the digital era This content is not available in your country At some point most media consumers around the world have run into a message like this Whether trying to watch a DVD purchased during a vacation abroad play an imported Japanese video game or listen to a Spotify library while traveling we are constantly reminded of geography s imprint on digital culture We are locked out Despite utopian hopes of a borderless digital society DVDs video games and streaming platforms include digital rights management mechanisms that block media access within certain territories These technologies of regional lockout are meant first and foremost to keep the entertainment industries global markets distinct But they also frustrate consumers and place territories on a hierarchy of

global media access Drawing on extensive research of media industry strategies consumer and retailer practices and media regulation Locked Out explores regional lockout s consequences for media around the globe Power and capital are at play when it comes to who can consume what content and who can be a cultural influence Looking across digital technologies industries and national contexts Locked Out argues that the practice of regional lockout has shaped and reinforced global hierarchies of geography and culture

The Nation on Screen Enric Castelló,Alexander Dhoest,2020-07-24 But we can still rise now runs a line of Scotland s unofficial national anthem Flower of Scotland and be the nation again who defeated the English King Edward II in 1314 at the Battle of Bannockburn These short lines tell us much about the concept of the nation Firstly the pronoun of the nation is we Secondly nationhood remains aspirational for some while it is entirely taken for granted for others Thirdly nations often trace their origins back to an implausibly dim and distant past Finally it points to the fundamentally discursive nature of the nation the nation appears not as something which simply is but as something which can be called into existence through talk official documents official and unofficial national anthems ceremonies and parades monuments and statuary press coverage and increasingly television This book which arose out of a conference held in Tarragona in 2007 focuses on the complex discourses of the nation to be found in the television systems of twelve different countries examining how these circulate in fiction in news and documentary including re enactment formats and in entertainment programmes adverts and the coverage of large scale sporting events The nation which emerges is everywhere and nowhere talked about endlessly but never finally grasped repeatedly staged and re enacted but lacking a foundational script In short it is a site of struggle The stakes are high since the nation when mobilised is a force to be reckoned with and the on going attempts to define it are many varied and often highly creative This book details many such events from the high drama of war reporting to the self mocking irony of ten second commercial spots

Rigoni,E. Saitta,2012-11-13 Through enhancing reflection on the treatment of cultural diversity in contemporary Western societies this collection aims to move the debate beyond the opposition between ethnicity and citizenship and demonstrate ways to achieve equality in multicultural and globalised societies      **Cultural Policies in the Era of the Korean Wave** Taeyoung Kim,2025-06-30 Cultural Policies in the Era of the Korean Wave explores how the state instrumentalises cultural industries despite the bulk of their production and delivery mechanisms becoming subject to the market logic and foreign stakeholders through an in depth study of the South Korean government s cultural industry policies Drawing on interviews with policymakers and producers in the Korean film music and television industries it investigates how the government s policy schemes ranging from funding programmes and public agencies established to promote cultural industries to the blacklisting of those opposing the administration s political agendas demonstrate the government s strong desire to influence cultural production The findings highlight how the state retains political power to instrumentalise cultural products even as market forces shape production mechanisms and genre characteristics that have become increasingly transnational This book sheds new light on how the state approves and reappropriates the doctrines of neoliberal globalisation to serve its interests in instrumentalising culture making it relevant for scholars and students in the areas of media and cultural policy media and cultural industries global media and Asian studies      Hausa Cinema of Northern Nigeria Abdalla Uba Adamu,2025-06-26 This historical account of cinema in Nigeria explores the transcultural transfer of media from India to Africa through films Hausa Cinema of Northern

Nigeria examines how the Hindi Cinema of India became the template for storytelling in the Hausa regional cinema of Northern Nigeria and explores the emergence of Indigenous language within cinema in this region. Such emergence created points of divergence with the Islamic public culture leading to censorship both within the entertainment industry and the newly re-introduced Shari'a government of Kano. Throughout this book Abdalla Uba Adamu explores the tension between Islamic society and the intrusion of transglobal media influences in cinema in Kano. He provides a deeper understanding of global media transnationalism and its impact on Muslim African popular culture. This book also discusses how the Muslim Hausa youth used the agencies of transglobal media technologies to transform the Hausa narrative style from a linear and didactic format to a complex configuration. By examining the Hausa film industry's history, Adamu challenges the notion of cultural and media imperialism and the dominance of media consumption in contemporary African societies.

**The Digital Nexus** Raphael Foshay, 2016-02-01

Over half a century ago in *The Gutenberg Galaxy* 1962 Marshall McLuhan noted that the overlap of traditional print and new electronic media like radio and television produced widespread upheaval in personal and public life. Even without collision, such co-existence of technologies and awareness brings trauma and tension to every living person. Our most ordinary and conventional attitudes seem suddenly twisted into gargoyles and grotesques. Familiar institutions and associations seem at times menacing and malignant. These multiple transformations, which are the normal consequence of introducing new media into any society, whatever, need special study. The trauma and tension in the daily lives of citizens as described here by McLuhan was only intensified by the arrival of digital media and the Web in the following decades. The rapidly evolving digital realm held a powerful promise for creative and constructive good, a promise so alluring that much of the inquiry into this new environment focused on its potential rather than its profound impact on every sphere of civic, commercial and private life. The totalizing scope of the combined effects of computerization and the worldwide network are the subject of the essays in *The Digital Nexus*, a volume that responds to McLuhan's request for a special study of the tsunami-like transformation of the communication landscape. These critical excursions provide analysis of and insight into the way new media technologies change the workings of social engagement for personal expression, social interaction and political engagement. The contributors investigate the terms and conditions under which our digital society is unfolding and provide compelling arguments for the need to develop an accurate grasp of the architecture of the Web and the challenges that ubiquitous connectivity undoubtedly delivers to both public and private life.

Contributions by Ian Angus, Maria Bakardjieva, Daryl Campbell, Sharone Daniel, Andrew Feenberg, Raphael Foshay, Carolyn Guertin, David J. Gunkel, Bob Hanke, Leslie Lindballe, Mark McCutcheon, Roman Onufrijchuk, Josipa G. Petruni, Peter J. Smith, Lorna Stefanick, Karen Wall.

**Whitewashing the Movies** David C. Oh, 2021-10-15

Including movies such as *Ghost in the Shell* and *Aloha*, media activists and critics have denounced contemporary decisions to cast White actors to play Asians and Asian Americans. The

purpose of this book is to theorize the popularly used concept of whitewashing in stories that subjectify White identities at the expense of Asian American stories and characters
