Michel Foucault's Archaeology Of Scientific Reason Modern European Philosophy Paperback September 29 1989:

Michel Foucault's Archeology of Scientific Reason Gary Gutting, 1990 Michel Foucault's Archeology of Scientific Reason, 1989 *Forthcoming Books* Rose Army, 1990 **Michel Foucault's Archaeology of Western Culture** Pamela Major-Poetzl, 2017-10-10 The author argues that Foucault's archaeology is an attempt to separate historical and philosophical analysis from the evolutionary model of nineteenth century biology and to establish a new form of social thought based on principles similar to field theory in twentieth century physics She examines Foucault's view of the relationship between power and knowledge and goes on to discuss the new concepts of space time subject and causality expressed in relativity theory quantum mechanics Saussurean linguistics and Foucault's literary essays Originally published in 1983 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value **The Archaeology of**

Knowledge Michel Foucault, 2012-07-11 Madness sexuality power knowledge are these facts of life or simply parts of speech In a series of works of astonishing brilliance historian Michel Foucault excavated the hidden assumptions that govern the way we live and the way we think The Archaeology of Knowledge begins at the level of things and moves quickly to illuminate the connections between knowledge language and action in a style at once profound and personal A summing up of Foucault's own methodological assumptions this book is also a first step toward a genealogy of the way we live now Challenging at times infuriating it is an absolutely indispensable guide to one of the most innovative thinkers of our time

Michel Foucault Clare O'Farrell, 2005-09-16 A truly magnificent book If there is a more comprehensive book on Foucault's work I have yet to see it I anticipate those teaching and taking courses on Foucault's work will find Clare O'Farrell's book to be an invaluable resource Barry Smart University of Portsmouth A marvellous introduction This volume captures the penetrating interdisciplinary concerns that have made Foucault a guide to so many beyond the frontiers of philosophy and history beyond the borders of the academic community itself This is an excellent introduction for the general reader to a passionate mind that continues to spread its influence James Bernauer Boston College Offers the best introduction to Foucault's philosophy Superb glossary of major terms excellent bibliography and chronology Summing Up Essential Upper level undergraduates through faculty researchers C E Reagan Kansas State University CHOICE Michel Foucault's work is one of the most influential sources of ideas in the humanities and social sciences today Clare O'Farrell offers a comprehensive and accessible introduction to Foucault's enormous diverse and challenging output Her book provides a range of practical tools and a reference work for readers who wish to understand and apply his ideas at both introductory and advanced levels This volume includes A discussion of Foucault's situation in the contemporary context exploring his role as an iconic thinker with clear explanations as to why his work is so difficult to come to grips with and also importantly why it

is of interest to so many people The location of Foucault s work within its own historical social and political setting Brief summaries in chronological order of all of Foucault s major works including the more recently published volumes of lectures The organization of Foucault s work around five interrelated assumptions which underpin his world view namely order history truth power and ethics Ideas for which he is well known such as archaeology genealogy discourse discipline and governmentality are discussed within the framework of these A chronology of Foucault s life work and times An extensive list of key concepts in Foucault s work with detailed references pointing to where the relevant material can be found in his writings A wide ranging list of resources and a bibliography of Foucault s work for easy consultation

Archaeology of Knowledge Michel Foucault,2002 Foucault s classic methodological statement [Foucault's Archaeology](#) David Webb,2012-11-28 Puts The Archaeology of Knowledge at the heart of Foucault s thoughtDavid Webb reveals the extent to which Foucault s approach to language in The Archaeology of Knowledge was influenced by the mathematical sciences adopting a mode of thought indebted to thinkers in the scientific and epistemological traditions By aligning his thought with the challenge to Kantian philosophy from mathematics and science in the late 19th and early 20th centuries he shows how Foucault established his own perspective on the future of critical philosophy [Michel Foucault: The Will to Truth](#) Alan Sheridan,2003-09-02 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company *The Order of Things* Michel Foucault,1971 **The Philosophy of Foucault** Todd May,2014-12-05 Michel Foucault s historical and philosophical investigations have gone through many phases the archaeological the genealogical and the ethical among them What remains constant however is the question that motivates them who are we Todd May follows Foucault s itinerary from his early history of madness to his posthumously published College de France lectures and shows how the question of who we are shifts and changes but remains constantly at or just below the surface of his writings By approaching Foucault s work in this way May is able to offer readers an engaging and illuminating way to understand Foucault Each of Foucault s key works Madness and Civilization The Archaeology of Knowledge The Order of Things Discipline and Punish and the multi volume History of Sexuality are examined in detail and situated in an historical context that makes effective use of comparisons with other thinkers such as Freud Nietzsche and Sartre Throughout this book May strikes a balance between sympathetic presentation and criticism of Foucault s ideas and in so doing exposes Foucault s contributions of lasting value The Philosophy of Foucault is an accessible and stimulating introduction to one of the most popular and influential thinkers of recent years and will be welcomed by students studying Foucault as part of politics sociology history and philosophy courses

[The Archeology of Knowledge](#) Michel Foucault,2017-05-11 This book is one of the many Islamic publications distributed by Mustafa Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world Mustafa Organization is a registered Organization that operates and is sustained through collaborative efforts of volunteers in many countries around the world and it welcomes your involvement and support Its objectives are

numerous yet its main goal is to spread the truth about the Islamic faith in general and the Shi a School of Thought in particular due to the latter being misrepresented misunderstood and its tenets often assaulted by many ignorant folks Muslims and non Muslims Organization s purpose is to facilitate the dissemination of knowledge through a global medium the Internet to locations where such resources are not commonly or easily accessible or are resented resisted and fought

The Foucault Reader Michel Foucault,1984 Michel Foucault was one of the most influential thinkers in the contemporary world someone whose work has affected the teaching of half a dozen disciplines ranging from literary criticism to the history of criminology But of his many books not one offers a satisfactory introduction to the entire complex body of his work The Foucault Reader was commissioned precisely to serve that purpose The Reader contains selections from each area of Foucault s work as well as a wealth of previously unpublished writings including important material written especially for this volume the preface to the long awaited second volume of The History of Sexuality and interviews with Foucault himself in the course of which he discussed his philosophy at first hand and with unprecedented candor This philosophy comprises an astonishing intellectual enterprise a minute and ongoing investigation of the nature of power in society Foucault s analyses of this power as it manifests itself in society schools hospitals factories homes families and other forms of organized society are brought together in The Foucault Reader to create an overview of this theme and of the broad social and political vision that underlies it

Michel Foucault Hubert L. Dreyfus,Paul Rabinow,1983 This book which Foucault himself has judged accurate is the first to provide a sustained coherent analysis of Foucault s work as a whole To demonstrate the sense in which Foucault s work is beyond structuralism and hermeneutics the authors unfold a careful analytical exposition of his oeuvre They argue that during the of Foucault s work became a sustained and largely successful effort to develop a new method interpretative analytics capable fo explaining both the logic of structuralism s claim to be an objective science and the apparent validity of the hermeneutical counterclaim that the human sciences can proceed only by understanding the deepest meaning of the subject and his tradition There are many new secondary sources on Foucault None surpass the book by Hubert Dreyfus and Paul Rabinow The American paperback edition contains Foucault s On the Genealogy of Ethics a lucid interview that is now our best source for seeing how he construed the whole project of the history of sexuality David Hoy

London Review of Books The Order of Things Michel Foucault,2012-04-18 In the work that established him as the most important French thinker since Sartre Michel Foucault offers startling evidence that man man as a subject of scientific knowledge is at best a recent invention the result of a fundamental mutation in our culture With vast erudition Foucault cuts across disciplines and reaches back into seventeenth century to show how classical systems of knowledge which linked all of nature within a great chain of being and analogies between the stars in the heavens and the features in a human face gave way to the modern sciences of biology philology and political economy The result is nothing less than an archaeology of the sciences that unearths old patterns of meaning and reveals the shocking arbitrariness of our received truths *Madness*

and Civilization Michel Foucault, 1973 Traces the literary philosophical and moral themes of madness as well as its social and theological impact in the sixteenth through eighteenth centuries

Foucault and the Human Subject of Science Garðar Árason, 2018-10-29 This book offers a clear analysis of Foucault's work on scientific knowledge and its relationship to individuals and society It suggests a way of using Foucault's tools for science criticism and resistance while avoiding the pitfalls of vulgar relativism or irrational anti science views Two cases of scientific conflict are considered The first considers left handers as subjects of science in particular studies which purport to show that left handers die on average younger than right handers The second case considers Icelanders as subjects of science in the context of a partly failed attempt to construct a genetic database encompassing the entire nation The book will be of interest to bioethicists and philosophers who are concerned with the interaction between science and its human subjects as well as scholars concerned with Foucault's work on science

Politics, Philosophy, Culture Michel Foucault, 1990 The late Michael Foucault left behind an impressive collection of interviews that demonstrate the breadth and diversity of his concerns and offer a unique opportunity to come to terms with the entire body of his work

Modernity and Crisis in the Thought of Michel Foucault Matan Oram, 2016-07-01 Few studies of Foucault have examined his thought from a sustained interdisciplinary perspective Through the interpretative prism of the concept of the Totality of Reason this book suggests an original analytical reading of Foucault's thought This book addresses Foucault's characterizations of the Enlightenment asking whether the developmental history of the modern conception of knowledge from the Renaissance to the Enlightenment warrants the conclusion he draws From the perspective of a critical evaluation of Foucault's thesis on the crisis of modernity the book examines whether Foucault the philosophical and social critic truly belongs to those intellectual trends known as a deconstruction and post modernism that advocate a wholesale rejection of the project of modernity demonstrating how a classification of this kind contributes to an impoverishment of our understanding of Foucault's thought This book will attract the attention of readers interested in Foucault and what is broadly perceived to be the crisis of modernity It will appeal to scholars and advanced students of sociology political philosophy and political science psychology philosophy interdisciplinary studies and cultural studies

Aesthetics, Method, and Epistemology Michel Foucault, 1998 The definitive edition of Foucault's articles interviews and seminars Few philosophers have had as strong an influence on the twentieth century as Michel Foucault His work has affected the teaching of any number of disciplines and remains twenty years after his death critically important This newly available edition is drawn from the complete collection of all of Foucault's courses articles and interviews and brings his most important work to a new generation of readers Aesthetics Method and Epistemology edited by James D Faubion surveys Foucault's diverse but sustained address of the historical forms and interplay of passion experience and truth
