Stalin's Soviet Justice David M. Crowe, 2019-06-13 From the show trials of the 1920s and 1930s to the London Conference this book examines the Soviet role in the Nuremberg IMT trial through the prism of the ideas and practices of

earlier Soviet legal history detailing the evolution of Stalin's ideas about the trial of Nazi war criminals Stalin believed that an international trial for Nazi war criminals was the best way to show the world the sacrifices his country had made to defeat Hitler and he together with his legal mouthpiece Andrei Vyshinsky maintained tight control over Soviet representatives during talks leading up to the creation of the Nuremberg IMT trial in 1945 and the trial itself But Soviet prosecutors at Nuremberg were unable to deal comfortably with the complexities of an open western style legal proceeding which undercut their effectiveness throughout the trial However they were able to present a significant body of evidence that underscored the brutal nature of Hitler's racial war in Russia from 1941-45 a theme which became central to Stalin's efforts to redefine international criminal law after the war Stalin's Soviet Justice provides a nuanced analysis of the Soviet justice system at a crucial turning point in European history and it will be vital reading for scholars and advanced students of the legal history of the Soviet Union the history of war crimes and the aftermath of the Second World War The Key to My Neighbor's House Elizabeth Neuffer, 2002-11-09 Looks at justice revenge and the erosion of a nation's social and political environment in the aftermath of genocide in Bosnia and Rwanda **Historical Origins of International Criminal Law** Morten Bergsmo, CHEAH Wui Ling, SONG Tianying, YI Ping, 2015-11-19 **Pathways** Quintus Curtius, 2016-01-06 Pathways is a collection of Quintus Curtius's very best short essays from 2015 Speaking in an original and compelling voice these essays cover an amazing variety of subjects in history philosophy current events ethics biography physical health travel and language Pathways offers a rich trove of wisdom gained from harrowing experience a powerful impression of an expansive worldview and a timeless inspiration in the turbulent journey of life With notes topical organization and index Quintus Curtius is a trial attorney traveler translator and former Marine officer He can be found at www.qcurtius.com

Betrayal Kim Christian Priemel, 2018-05-17 At the end of World War II the Allies faced a threefold challenge how to punish perpetrators of appalling crimes for which the categories of genocide and crimes against humanity had to be coined how to explain that these had been committed by Germany of all nations and how to reform Germans The Allied answer to this conundrum was the application of historical reasoning to legal procedure In the thirteen Nuremberg trials held between 1945 and 1949 and in corresponding cases elsewhere a concerted effort was made to punish key perpetrators while at the same time providing a complex analysis of the Nazi state and German history Building on a long debate about Germany's divergence from a presumed Western path of development Allied prosecutors sketched a historical trajectory which had led Germany to betray the Western model Historical reasoning both accounted for the moral breakdown of a civilised nation and rendered plausible arguments that this had indeed been a collective failure rather than one of a small criminal clique The prosecutors therefore carefully laid out how institutions such as private enterprise academic science the military or bureaucracy which looked ostensibly similar to their opposite numbers in the Allied nations had been corrupted in Germany even before Hitler's rise to power While the argument depending on individual protagonists subject matters and contexts met with uneven success in court it offered a final twist which was of obvious appeal in the Cold War to come if Germany had lost its way it could still be brought back into the Western fold The first comprehensive study of the Nuremberg trials **The Betrayal** thus also explores how history underpins transitional trials as we encounter them in today's courtrooms from Arusha to The Hague **World War II** Spencer C. Fact-Finding without Facts Nancy A. Combs, 2010-07-30. Fact Finding Without Facts explores international criminal fact finding empirically, conceptually, and normatively. After reviewing thousands of pages of transcripts from various international criminal tribunals, the author reveals that international criminal trials are beset by numerous and severe fact-finding impediments that substantially impair the tribunals' ability to determine who did what to whom. These fact-finding impediments have heretofore received virtually no publicity, let alone scholarly treatment, and they are deeply troubling not only because they raise grave concerns about the accuracy of the judgments currently being issued but because they can be expected to similarly impair the next generation of international trials that will be held at the International Criminal Court. After setting forth her empirical findings, the author considers their conceptual and normative implications. The author concludes that international criminal tribunals purport a fact-finding competence that they do not possess and as a consequence base their judgments on a less precise, more amorphous method of fact-finding than they publicly acknowledge.

Crime and Global Justice Daniele Archibugi, Alice Pease, 2018-03-16. Over the last quarter of a century, a new system of global criminal justice has emerged. But how successful has it been? Are we witnessing a new era of cosmopolitan justice, or are the old principles of victor's justice still in play? In this book, Daniele Archibugi and Alice Pease offer a vibrant and thoughtful analysis of the successes and shortcomings of the global justice system from 1945 to the present day. Part I traces the evolution of this system and the cosmopolitan vision enshrined within it. Part II looks at how it has worked in practice, focusing on the trials of some of the world's most notorious war criminals, including Augusto Pinochet, Slobodan Milošević, Radovan Karadžić, Saddam Hussein, and Omar al-Bashir, to assess the efficacy of the new dynamics of international punishment and the extent to which they can operate independently without the interference of powerful governments and their representatives. Looking to the future, Part III asks how the system's failings can be addressed. What actions are required for cosmopolitan values to become increasingly embedded in the global justice system in years to come?

Nuremberg's Voice of Doom Wolfe Frank, 2018-10-30. The memoirs of Wolfe Frank, which lay hidden in an attic for twenty-five years, are a unique and highly moving behind-the-scenes account of what happened at Nuremberg, the greatest trial in history, seen through the eyes of a witness to the whole proceedings. They include important historical information never previously revealed. In an extraordinarily explicit life story, Frank includes his personal encounters inside and outside the courtroom with all the war criminals, particularly Hermann Goering. This therefore is a unique record that adds substantially

to what is already publicly known about the trials and the defendants. Involved in proceedings from day one, Frank translated the first piece of evidence, interpreted the judges' opening statements and concluded the trials by announcing the sentences to the defendants and several hundred million radio listeners, which earned him the sobriquet Voice of Doom. Prior to the war, Frank, who was of Jewish descent, was a Bavarian playboy, an engineer, a resistance worker, a smuggler of money and Jews out of Germany, and was declared to be an enemy of the State to be shot on sight. Having escaped to Britain, he was interned at the outbreak of war but successfully campaigned for his release and eventually allowed to enlist in the British Army, in which he rose to the rank of Captain. Unable to speak English prior to his arrival, by the time of the Nuremberg trials he was described as the finest interpreter in the world. A unique character of extreme contrasts, Frank was a playboy, a risk taker, and an opportunist. Yet he was also a man of immense courage, charm, good manners, integrity, and ability. He undertook the toughest assignment imaginable at Nuremberg to a level that was satisfactory alike to the bench, the defence, and the prosecution, and he played a major role in materially shortening the enormously difficult procedures by an estimated three years.

World War II in Asia and the Pacific and the War's Aftermath, with General Themes Loyd Lee, 1998-10-23
A companion to *World War II in Europe, Africa and the Americas*, this volume reevaluates the most enduring literature on basic aspects of the war in Asia and the Pacific. It also covers themes pertaining to societies at war, culture, the arts, and science and technology as well as international relations and the postwar world. Included are not only grand strategy, military and naval campaigns, and matters of diplomacy, but also resistance, collaboration, prisoners of war, and broad topics of the home front, including chapters on gender issues, film, literature, popular culture, and propaganda. This volume and its companion provide the first comprehensive historiographic reference work on the war. Each chapter describes the state of knowledge on the topic, relating each bibliographic reference to the chapter's themes and issues, and concludes with a bibliography. Recent original scholarship is included when it aids new understanding, and older works of enduring value also find a place. The essays in this volume will interest scholars and college teachers as well as advanced students and serious amateurs seeking insight into the history of the war and its literature.

Fear Itself: The New Deal and the Origins of Our Time Ira Katznelson, 2013-03-01
A powerful argument swept along by Katznelson's robust prose and the imposing scholarship that lies behind it. Kevin Boyle, *New York Times Book Review*. A work that deeply reconceptualizes the New Deal and raises countless provocative questions. David Kennedy. *Fear Itself* changes the ground rules for our understanding of this pivotal era in American history. Ira Katznelson examines the New Deal through the lens of a pervasive, almost existential fear that gripped a world defined by the collapse of capitalism and the rise of competing dictatorships, as well as a fear created by the ruinous racial divisions in American society. Katznelson argues that American democracy was both saved and distorted by a Faustian collaboration that guarded racial segregation as it built a new national state to manage capitalism and assert global power. *Fear Itself* charts the creation of the modern American state and how a belief in the common good gave way to

a central government dominated by interest group politics and obsessed with national security Louis Menand The New Yorker
