

Dear Hospital Administrator and Board of Directors:

It is with mixed emotions that I write this letter of recommendation for one of my favorite nurses, Sally Sweet. She has served by my side and with other physicians here at XYZ Regional Medical Center for the past 20 years. She is an integral part of this hospital, adored by the patients and respected by her peers. Sally wishes to move to the Charleston area to be closer to her grandchildren and she needs to find a position in her profession as a nurse in that area. As a grandparent I understand her desire to be closer to her grandchildren, but as a physician I will miss her immensely.

Sally is what many of us in medicine would call "old school" in terms of her work ethic, sense of duty and responsibility, physical stamina and emotional flexibility. At the same time she does not shy away from new technologies and changes in treatment methods, but rather embraces them enthusiastically as her greatest desire is to help heal patients both physically and emotionally. Sally is always flexible when it comes to working late due to an emergency case or changing shifts due to a sick co-worker. She is one of the most reliable nurses I have ever had the privilege of supervising.

She is able to strongly empathize with very sick patients and their families while remaining calm herself, thinking clearly and rationally and controlling her own emotions. Sally has excellent communication skills and the ability to take impeccable notes for each patient's medical record file. She thrives in a fast-paced environment and is an amazing multi-tasker. Sally is able to clearly and effectively explain discharge instructions to patients and their families and calmly answer all of their questions. Chronically ill patients often ask for Sally when they return to the hospital.

Although XYZ Regional Medical Center will not be the same without Sally Sweet, it is my pleasure to recommend her for a position as a nurse at your healthcare facility. I am confident that you would be extremely pleased with Sally's level of dedication to her profession and most importantly to the patients. Please contact me should you have questions or wish to further discuss Sally's work record here. My direct line is (555)-555-5555 and my email address is [email]

Respectfully,

Thomas Wilson

A Preceptorship Model for Nurses in Rural Health Care Facilities Marilyn Enid Pottinger, Brandon University. Rural Development Institute, 1994 This report describes a preceptorship model that provides student nurses with clinical practice in rural health facilities The development and implementation of a preceptorship model reflects a partnership between nursing education and nursing service between the urban nursing school and the rural hospital A five stage preceptorship model is presented that includes development of guidelines selection of participants orientation of participants implementation and evaluation The model draws on a literature review plus feedback from nurse preceptors and graduating nursing students The model emphasizes the importance of clearly stated purposes and objectives guidelines outlining the

roles and responsibilities of the student the preceptor and the faculty liaison and careful selection and preparation of all participants In spring 1992 24 students completed their senior practicums in rural hospitals using the preceptorship model all were satisfied with the experience met their clinical objectives and completed their learning contracts Evaluations of the model by the faculty liaison person preceptors and students resulted in 18 recommendations to improve implementation of the model The strongest preceptor recommendation was that students and preceptors work identical hours with identical patient assignments Contains 53 references Appendices include preceptor questionnaire terminal nursing competencies agreement between nursing school and health care facility form for assessing potential preceptors and evaluation forms for students and preceptors Author SV *How to Become a Nurse Practitioner in the US* Sarah Ko DNP APRN
